INDIANS 2, BEAVERS 1

KILLILAY AND SHEA GARDNER AND LEWIS

With a critical game on tap, which might mean the Indians' flaunting their war banner at the head of the league again, a small but excited crowd watched the first game between the two leading teams this afternoon. Spokane scored the first run.

This is Weed's last game in the field for Spokane, he having been traded to Seattle for Emil Frisk. Umpire Frary probably will not cause such commotion as invariably happens when the Hon. Russ Hall is toastmaster.

Accident Probably Means End of Rube Waddell's Pitching

RUBE WADDELL

It looks like curtains for Rube Waddell. The great southpaw pitcher, whose eccentricities have made his name a byword among baseball fans, may never pitch again. Waddell was struck on the left arm by a pitched ball in Boston several days ago and the bones in the elbow fractured. Attending surgeons fear that the pitching arm will never be able to work again.

Erratic and uncertain, Waddell was, with all his faults, one of the best southpaws who ever shot a ball up to a batter. He had everything in the curve line. It has often been said of him that if he had been gifted with the brains of Mathewson he would have been the king of pitchers. Connie Mack managed Rube better than any other manager, and the Rube responded by pitching the Athletics into a couple of pennants. If he ever had a sore arm no one ever heard of it, but there was never any telling whether Rube would appear at the ball yard or go on a hunting or fishing trip.

THE FOREST FIRES ARE INCREASING

(By United Press.)
WALLACE, Idaho, July 18.—One man has been driven insane, half a dozen settlers' homes have gone up in smoke, tens of thousands dollars' worth of timber has burned, the mill of one mining company has been wiped out and others are threatened by a forest fire which is burning in the Pine Creek district today. The flames, according to last reports, were rapidly advancing toward Kellogg Peak. One hundred and fifty men fight the furious blaze all night without success.

At midnight over three square miles of timber had burned, and the fire was racing across the mountainous country at race horse speed. The building of the Dalmatia Mining company burned yesterday. When the last reports were received men were fighting to save the structures of the Nabob, Highland Chief and Little Pittsburg mines.

A call has been issued for available men to assist in an effort to check the flames. A large number responded from Wallace and Kellogg and more had planned to

YES SIREE, EMMA WAS THERE WITH THE PHYSICAL CULTURE

PITTSBURG, Pa., July 18.—Emma Tuchselt, a pretty blond, only 17 years old, is a waitress in a physical culture restaurant here.

As an echo of the recent affair at Reno the colored porter of the establishment and the white driver of the ice cream wagon were mixing things, when Emma stepped in. Although the negro was armed with a big butcher knife, Emma handed him an uppercut in the jaw that just about knocked him silly, took his knife away from him, and took command of the situation until the police arrived and arrested both men.

"Physical culture did it," said Emma. "I eat physical culture, I exercise according to physical culture, and I sleep and think after the physical culture way."

"The result is that I am always in 'training.'"

Emma possesses a cool, collected, thinking brain, her nerves are in the best of order, her muscles are hard, and she is in fine working and fighting trim all the time.

When her friends talked of securing a hero medal for her she said, "No, not for me. The medal goes to physical culture."

THE PEOPLE, AND NOT POLICE, MUST RULE

Did you know that with the exception of Spokane and San Francisco, nearly every big city in this little old country of ours has, within the past year or two, "sat down hard" on their respective police departments, and made them understand that THE PEOPLE, AND NOT THE POLICE, ARE THE RULERS OF THE CITY?

This is a fact.

In some cities the mayor has taken the action, and in others either the council or the citizens at large, through a general movement.

Mayor Gaynor in New York and the mayor of Butte, Mont., are two of the latest executives to take up the work of police reform, and they are making their police departments understand that they are employed to serve the people and not tyrannize over them.

Spokane, so far, has done nothing, while suffering under one of the rottenest police systems in the nation. The Press has been the only opponent the police have had to meet steadily during the past months. The people know what The Press has accomplished. It has exposed corruption, evil doings and inefficiency, forced removal of "undesirable" officers and compelled action against crime.

But there is much more to do. Acting Chief Sullivan must be removed, an able chief must be chosen, and the whole department reorganized.

It is time for all the forces of good government to act. Labor and other organizations are strong enough to defeat the ring of politicians who insist on retaining Sullivan, but they must act unitedly.

Mayor Pratt, as he refused to remove City Engineer Ralston, refuses to remove Sullivan. The people must force such a result, as they have done before.

OFFICER KILLS THREE NATIVES

MANILA, July 18.—An uprising of the Moros in the island of Palawan is expected, following the killing of three natives who today attacked Dean C. Worcester, secretary of the interior for the island government.

The men who sought to kill Worcester were Moros who had made careful plans for the success of the attempt. They were frustrated by the prompt action of Worcester's bodyguard, which shot and killed three bolo wielders and wounded several others. The remainder of the band fled.

SIX MONTHS IN JAIL FOR BEGGING

EL PASO, Tex.—Arthur Bean, copper expert for Copper Queen Mining Co., was shot and killed from ambush by W. H. Hart of Bisbee. Family troubles.

ST. LOUIS—Mrs. Emma Hoffinger gave her life to save her husband. He and a neighbor, William Augustine, were quarreling, and when Augustine fired, the woman threw herself in front of her husband, receiving the bullet in her forehead.

EL PASO, Tex.—Arthur Bean, copper expert for Copper Queen Mining Co., was shot and killed from ambush by W. H. Hart of Bisbee. Family troubles.

June was a record breaker in the number of marriage licenses issued at the courthouse, yet the "month of brides" was also a month of divorces.

Surprising, indeed, are the figures, yet the cold records are there to show that there was a divorce granted for every fifth marriage license issued during the most active month of the year for Cupid.

In other words, the number of marriages that were failures in Spokane county in June was 20 per cent of the total weddings.

The records show that in June there were issued 246 marriage licenses and that 41 divorce decrees were granted, or an average of nearly two a day for every working day of the court. Some days the number of divorce decrees exceeded the number of marriage licenses issued.

PREVENTATIVE FOUND FOR CONSUMPTION

PITTSBURG, July 18.—Announcement by Dr. S. G. Dixon, state commissioner of health, that the board has discovered a preventative for tuberculosis which may soon be used as a complete specific, is today causing much discussion in medical circles.

The discovery, Dr. Dixon says, has proved itself an absolute preventive. He thinks it will be equally efficient as a cure.

The nature of the discovery will be announced shortly, according to Dr. Dixon.

GERMAN CITY ADVERTISES FOR MAYOR; PAYS AN ANNUAL SALARY OF \$5,250

BERLIN, Germany, July 18.—The city of Magdeburg, through the president of its city council, is advertising for a mayor, in papers all over the German empire. The salary is 21,000 marks yearly (\$5,250), which includes the rental of a dwelling in the city hall. Besides the salary, the mayor is allowed \$1000 a year for official expenses.

The practice of hiring expert officials, wherever obtainable, is no novelty in Germany, where, sometimes, two cities bid in competition for a particularly capable man. The Magdeburg case attracts special attention, as it is the first large city to advertise in filling so prominent an office. The retiring mayor has lately been promoted to be Prussian minister of finance.
