# ATTEMPT TO BREAK WILL

## EFFORT MADE TO BEAT MISS LENEVE OUT

(By United Press Leased Wire.)  
LONDON, Nov. 29.—Attorneys Seymour, Williams and Coy this afternoon filed an intervention notice on behalf of unnamed persons praying that the will of Dr. H. H. Crippen, which bequeathed to Miss Leneve all his property, be set aside. No reasons are given by the attorneys, who do not state who they represent. Crippen's son and other relatives live in the United States.

## WOMEN ARE VOTERS BUT CAN NOT VOTE

(By United Press Leased Wire.)  
OLYMPIA, Wash., Nov. 29.—Ward politicians are polishing up their rusty manners and are reading up on the art of making themselves pleasing to women in Washington state today because the women are at last "equal" to men.  
When Governor Hap appended his signature to the proclamation handed to him late yesterday he enfranchised the women of the state who have passed the age of 21 years. Though the result of the suffrage amendment was known on the morning of November 9th, the governor was prevented from issuing the proclamation on account of a delay on the part of the several precincts to send in returns.  
The suffrage amendment carried by a majority of 22,623. There were 56,299 votes for and 29,676 votes against the measure.  
As the registration books have closed for the year the attorney general has ruled that women who registered prior to the issuance of the proclamation are illegally registered.

## "LESE MAJESTY" SYSTEM EXPOSED

FUEL MAN CONDEMNED PRATT, THEREFORE COULDN'T SELL COAL TO CITY—FAVORITISM SHOWN.

Charging that a system of favoritism and partiality almost akin to graft has been developed under the inefficient administration of Mayor N. S. Pratt, and that in an attempt to develop a system of lese majesty, his company is being punished by being cut off from city business, Clarence Marsh, manager of the Wyoming Fuel company of this city, this morning filed with the city clerk a sensational letter addressed to the city council, and in which he asks investigation of the charges therein made.  
Mr. Marsh, in his letter, declares that because he referred to Mayor Pratt's administration as "imbecillie" and "unworthy of public confidence," his company has been punished by being cut off from supplying coal to the city. He also declares that inferior materials are being sold to the city through favoritism, and adds as a finisher,

Everett True Takes in an Aeroplane Meet

## AERIAL LINERS BOSTON TO N. Y.

(By United Press Leased Wire.)  
NEW YORK, Nov. 29.—Aerial liners capable of carrying 20 passengers and a crew will be plying the airways between Boston, New York, Philadelphia, Baltimore and Washington within six months, according to Charles Glidden, president of the Aerial Navigation Company.  
Chief Engineer Vanamann of Walter Wellman's ill fated balloon "America" has charge of the work of construction for the Aerial Navigation company. It is likely that he will be in charge of the first liner to leave on a journey over the 450 miles air lanes.

## WESTERN EXHIBIT LEADS 'EM ALL

(By United Press Leased Wire.)  
CHICAGO, Nov. 29.—Oregon apples carried off the grand sweepstakes prize at the Chicago land show today when C. H. Sproat of Hood River won the cup and \$1,000 for the best carload of apples. This is the same car of apples that won the grand sweepstakes prize at Spokane.  
This car of Spitzenbergs was in competition with apples from all parts of the United States, and considering the fact that they were hauled farther and handled twice, this is a remarkable record. The apples scored 997 points out of a possible 1000 at the Spokane show and have now captured two world's records.

## WHO HAS A JOB FOR JOHN? NO ORDINARY CASE

Who has a job for John? Maybe John isn't his real name, but it is a good enough name for present purposes, and, anyhow, John isn't looking for public sympathy. All he wants is a job—and he isn't a bit particular what kind of a job it is, so long as it will supply him with the money necessary to purchase food and medicines for his stricken and famishing family.  
Now John isn't one of the kind of fellows who is usually broke. He has lived right here in Spokane for 12 years. He has had work most of the time, but he hasn't any trade, and being only a common laborer, he hasn't had steady work, and also he has not earned as good wages as has the ordinary skilled mechanic.  
Here is John's story, and if after reading it, you believe that you have some kind of a job which will aid in getting John out of his difficulties, there are a man, a woman and three children in this town who will be more than thankful.  
John, as has been stated, is just a common laborer. He married some years ago and three little human blossoms came to liven the home, and make the problem of

stretching the slender wage all the harder. But John and his wife didn't worry any about that. They were so proud of the children that they thought only of the future and cheerfully skimped and schemed to combat with the present.  
It was figured that the little family must get ahead in the world and naturally as the first step the acquisition of a home came to the front.  
So a payment was made on a lot in Peaceful valley, down near the river. It wasn't a high-toned locality, but it was a start, and when John and his wife had erected on their lot a humble little cottage, they were so happy that they could hardly contain themselves and wait until the children became old enough to realize that they had a home, a "truly" home that belonged to them.  
And so they worked and planned and schemed and waited for the day when the home would be all paid for and the children would be large enough to enjoy it.  
Times were hard, but they didn't care. They had a home and the babies.  
But their joy was too complete

## STILL ANOTHER RING VICTIM

### GAYNOR CASE UP

(By United Press Leased Wire.)  
NEW YORK, Nov. 29.—The Hudson county, N. J., grand jury this afternoon took up the case of James J. Gallagher, the assailant of Mayor William J. Gaynor, of New York. It is expected that indictments against the man who shot Gaynor as he was about to sail on an Atlantic liner, will be returned at once and his trial will begin in Jersey City December 19.

By United Press Leased Wire.  
LIMA, Ohio, Nov. 29.—Curly Gerhardt, a prize fighter, is dead; Jack McHenry, another pugilist, is held by the police and several citizens of Lima are being examined today as the result of a fight between McHenry and Gerhardt here last night. After the fight, which was a 10-round go, Gerhardt collapsed and died from cerebral hemorrhage without regaining consciousness. It is not believed that Gerhardt was killed by any blow struck by McHenry, but that he entered the ring out of proper condition and was unable to stand the strain of such a long fight.  
The affair has created a sensation and is predicted that the fight game in Ohio will probably be stopped at the next session of the legislature.

## WOMEN AND BOYS ARE ARMED

Revolutionists Capture Another Town—Hot After Diaz.  
(By United Press.)  
EL PASO, Tex., Nov. 29.—Practically the entire country west of Chihuahua is in a state of revolt against the Mexican government, according to travelers arriving here today.  
"Hell has broken loose in the state of Chihuahua," said one returned American.  
"Every man, woman and boy from Temposachio to Chihuahua is armed. The government has no idea how strong the rebels are, and it will require 2,000 troops sixty days to clean the insurgents out of Chihuahua."  
When they left Chihuahua city yesterday the travelers said the places of amusement and saloons were closed and troops guarded the city. The editor of El Correo was jailed for printing the facts about an engagement in which the federal troops were defeated.

## DEADLY RIFLE DEFIED TRUST

LONG AND BLOODY CAMPAIGN WAGED OVER THE DAM ON WIDOW CAMERON'S "FORTY," IN THE NAME OF LAW, IS TOLD BY CORRESPONDENT EVANS IN SECOND CHAPTER OF THRILLING REAL LIFE MELODRAMA OF WILD WISCONSIN WOODS.  
BY RAYMOND EVANS.  
HAYWARD, Wis., Nov. 29.—A certain Mrs. Cameron, a widow, owned five "forties" on Thornapple creek. On this tract was located a dam built for driving purposes. Mrs. Cameron having neglected to pay taxes on this tract for one year, the Chippewa Lumber & Boom Co. secured one of the forties by taking up the tax certificates. It was then believed that the dam was located on this forty. Thereby hangs the story of Cameron dam.  
Mrs. Cameron sought to redeem the forty, as she had a right to do under the law, but the company, it seems, threatened her with a long legal battle, and she chose to let the land go rather than go to the expense of fighting the case through the courts. She paid the back taxes on the other four forties of the tract, secured a clear title and sold the land to Mrs. Deitz. It's an interesting sidelight that as the property stands in his wife's name all processes served on Deitz were legally without effect.  
When the Deitz property was surveyed it was found that part of the dam was on his land. The company then had the lines run and the surveyor gave Deitz even more of the dam than had his own survey. The true line runs about the middle of the creek.  
The company acknowledged the error and offered John Deitz \$50 to waive all title to the use of the dam. (The company claims, however, that the rights in the dam

## EVERY VISIT OF THE STORK BRINGS A REBATE IN RENT

CHICAGO, Nov. 29.—Five dollars rebate in rent for every baby born in the apartments, no limit to the number of rebates allowed.  
This was the offer made here today by Allen B. Hussander, owner of the "Honeymoon flats," to encourage prospective tenants. "The more children there are, the more tenants there will be, and th more tenants there are, the better it is for the landlord," said Hussander today.  
"I am opposed to the idea of keeping children out of apartment houses and my scheme is also a good business proposition."  
Hussander said that a neighbor in a nearby apartment had offered a bottle of champagne for every new baby in his building.  
That a gas engine, similar in many respects to the internal combustion engine of the present day, was patented in England as far back as 1791!  
That the Mergenthaler typographing machine, which makes the big newspapers of today possible, was regarded as a joke when it was first patented about 30 years ago!  
That lots on Riverside once sold for \$100 a front foot and that some of the best business corners in the city could be purchased for \$10,000.  
That one of the finest apple orchards in the county once existed out at the east end of town near the present terminus of the Altmont line.  
?DO YOU? KNOW?  
That London consumes about 14,000,000 tons of coal yearly?  
That Spokane county once embraced a large part of Idaho and considerable of the state of Montana?  
That the United States consumes over \$1,000,000 worth of Spanish grapes annually?  
That California fruits retail at lower prices in Spokane than they do right where they are grown?

(Continued on page two.)  
SPANISH GYPSY QUEEN IS DEAD  
SANTA MONICA, Cal., Nov. 29.—Stella Cortez Downs, queen of the Gonzales tribe of gypsies in Spain, died here tonight, 45 years old. Mrs. Downs came to southern California 15 years ago with the view of finding a colony location for the 4000 members of her tribe. Two years later she met Thomas J. Downs, a civil war veteran of Sawtelle, married him and abandoned her original plans. Mrs. Downs was highly educated and was master of seven languages.

REVOLUTION JUST BEGINNING  
The insurgents are massed near San Andreas and the feeling is growing among the people that the revolution has not been crushed, but is only beginning. Prominent officials at Juarez deny this, but revolutionary leaders declare that heavy fighting will occur in three days. Carl Marsh, an American at Juarez, was beaten today because he insulted four Mexicans.
