### FREEWATER-MILTON NEWS OF WESTON

#### PEACH TREES IN BLOOM AND ARE LOOKING FINE

Spring Work Well Under Way—Well Known Milton Man Buys Land Near Portland—Milton Team Plays Freewater Nine—Things Are Lively This Spring.

Milton, April 14.—This fine weather is helping the farmers out wonderfully with their spring work, since the wind has ceased they have been able to do most of their spraying, and the fruit trees are looking fine. It is a beautiful sight to see the peach trees all in bloom, the hills green and signs of summer everywhere.

Mr. and Mrs. Mat Mosgrove and son have just returned from a trip to Portland, where they had been for a few days.

John Elam and wife, and Mrs. Elam's sister, left a few days ago for Portland, where they expect to make their home. Mr. Elam having purchased a fine farm near that place, consisting of 10 acres of prunes, six acres of apples and peaches and considerable wheat land.

The baseball team of the sixth grade of the Milton public school played the White Stars of Freewater Saturday, and the game resulted in favor of the school team by a score of 21 to 18. A return game will be played next Saturday.

#### Freewater Notes.

Freewater, April 14.—The masquerade ball at the Badgero hall Saturday evening was a very successful affair.

Considerable activity is being shown in this section of the county at this time. Lands are being sold and a number of new homes will be put up in both Freewater and Milton and the surrounding country. There promises to be a wonderful growth here in the next year.

#### TEA

Is there a better way to keep the family longer at table, to keep it together?

Your grocer returns your money if you don't like Schilling's Best; we pay him

#### BISHOP PADDOCK IS BEING ENTERTAINED HERE

Bishop Likes Pendleton and Eastern Oregon—Baseball Team Played in Freewater—Normal Juniors Hold Enjoyable Banquet—Arranging for Pioneer Reunion.

Weston, April 14.—Bishop Paddock of the eastern Oregon diocese of the Episcopal church, preached at the Weston church Sunday, and since then he has been visiting among members of the church, and has visited the Normal school here. The people are much pleased with the new bishop, and they feel that he will succeed well in his work in his new field. He came from North Yakima here, where he had been visiting a sister, Mrs. Ella Hutchinson, who is well known in church circles for heroic work done in Alaska, where on an expedition of mercy she barely escaped alive after enduring untold sufferings. Bishop Paddock is still undecided about his headquarters, though he speaks very favorably of Pendleton.

#### Team to Freewater.

The Rainbows, a local baseball team, went to Freewater Saturday, where a game of ball was played with a Freewater team, which resulted in favor of the local team by a score of 14 to 9.

The Juniors of the Normal held their annual banquet Saturday evening at the residence of President and Mrs. French, and it was a very enjoyable affair.

The ladies of the Civic Improvement club have the matter of cleaning and beautifying the town well under way. Different district committees have been appointed, and Weston will soon be a very clean place.

Politics are the chief topic of conversation at this time in this part of the county.

The different committees have the work well under way for the Pioneers' reunion, which will be held here next month. This will be made one of the biggest events of the kind in the history of the county.

The proverb "Bear and forbear" was written before Teddy's time. He got only one bear.—Rose Melville.

#### TO SERVE SPINELESS CACTUS.

Representative of Burbank Will Demonstrate New Food.

R. P. Probasco, the special representative of Luther Burbank, left for Seattle Friday and will return Thursday, says the Spokane Chronicle. Mr. Probasco said:

"My trip to the coast is in connection with the sale of some Old Mexican lands, as I am representing a land grant of several million acres in the state of Sinaloa.  
 "I am the largest individual American real estate owner in Sinaloa, having now over 30,000 acres, of which 10,000 acres are planted in eucalyptus trees and 12,000 in henequen fiber.  
 "I am the sole representative of Luther Burbank for his newest idea, the thornless, edible cactus. I intend to serve to the members of the chamber of commerce at their luncheon next Tuesday cactus soup and cactus salad.

"My object in interesting the chambers of commerce of the state is to secure their aid in operating an experimental station near Spokane for propagating the cactus and 30 other of Wizard Burbank's famous discoveries, including his new plums and the Royal Black and Paradox Walnut, the latter maturing in one-third of the time it takes the ordinary walnut."

#### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have offered One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

F. J. CHENBY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

#### Notice to Poultry Raisers.

Here comes the spring winds to chap, tan and freckle. Use Pinesalve Carbollized. (Acts like a poultice) for cuts, sores, burns, chapped skin. Sold by A. C. Koeppen & Bros.

#### For Sale—at Hermiston.

A well built, 5 room cottage, very desirable location. Possession soon, owner vacating. A good investment; for price and terms, address P. O. Box 111, Hermiston, Oregon.

Man Zan Pile Remedy, price 50c is guaranteed. Put up ready for use. One application prompt relief to any form of piles. Soothes and heals. Sold by A. C. Koeppen & Bros.

#### SHEEP LOSSES SLIGHT.

General Conditions Throughout the Country Are Good.

The National Livestock Bulletin says of the sheep conditions throughout the country:

In the sheep sections the percentage of winter losses has been unusually light, according to reports now on hand. For many years it has been the custom of shippers to have one season of lambs in February, in order to raise the product for the early market, when the lambs bring extra fancy prices.

As a general rule, it is necessary to house these lambs under sheds, and it has often been necessary for the herders to take the lambs into their cabins until they were strong enough to take nourishment.

So far as western sheep are concerned this past winter has been like summer and sheep raising has gone on under conditions that were ideal, and such as have not been experienced for many years. This has contributed to the gratifying increase in the movement of sheep from the ranges to the feeding yards of Minnesota, and particularly the yards at South St. Paul.

Although it is reported that the number of sheep on feed at these yards is not so large as has been the case in years when financial conditions were nearer normal, still the wools have come along very fast, and the average returns are nearly 100 per cent better than a year ago, according to reports.

"I have come all the way out here," said the tenderfoot, "to see your beautiful sunset."

"Somebody's been stringing you, stranger," replied Arizona Al. "It ain't mine."

## NET PROFITS

WHEN you advertise you expect to get something out of it—more than you put in it; if you don't, it's a losing game—and losing money is poor policy.

But—it's not how much an ad costs—it's how much profit it brings you.

Net profit—that's the main thing.

ADVERTISING is not a magic art. All it is, is putting into print effective selling arguments a good salesman would use orally. Write those arguments in an attractive style—bring out the merits of a proposition so that the other fellow feels an instinctive desire to possess it—tell him why he should buy it and then finally satisfy him that the price is right.

To get the best results, cater to the largest number you can reach among those who make good wages and live well—people who can afford to buy what you have to sell.

The East Oregonian's readers are composed of that class who willingly pay 65 cents a month for it in preference to buying the cheaper papers. Net result—they are people who can afford to buy what you have to sell.

They are not penurious.

They are not paupers.
