## HOG FELS HORSE AND RIDER SERIOUSLY HURT

M. E. Sturdivant, well known Ukiah rancher, is in Portland nursing a broken shoulder which he received several days ago in a most peculiar and unique accident. He had sold a big hog to a resident of Ukiah and started to drive his hogship over the short distance between his ranch and the town. Leading his horse and walking alongside, he succeeded in keeping the hog herded toward his destination until when within a short distance of the town it turned with amazing quickness and dashed back. Running between the horse's front legs, it tripped the horse up nearly, the large animal falling so suddenly that Mr. Sturdivant was caught under it. In the fall, Mr. Sturdivant's shoulder blade was broken and, until it has knitted together again so that he can resume work, he is spending the time in Portland. He is an uncle of the Sturdivant brothers in this city.

## BUSINESS MEN URGE THAT WATER BOARD BE UPHELD AND NEW CHARTER BEATEN

(From Thursday's East Oregonian.)

That the Pendleton water board should be emphatically sustained by the people of the city next Monday and continued in charge of the important work on the gravity system is the unanimous opinion of five prominent local men who made a personal trip to Thorn Hollow yesterday.

None of these men have been involved in the struggle over the new charter. One of the men in the party, E. J. Murphy, was a member of the committee that drafted the charter. Until yesterday he was disposed to favor the adoption of the charter, but after viewing the work, ascertaining the gross service the water board is rendering to Pendleton and seeing the project personally he now announces himself absolutely opposed to the move to throw the water board out of office and is an opponent of the proposed charter.

Personal statements from the various men in the party show clearly they place no reliance on the mudslinging and childish attacks that have been made on the water board and on the personal honor of the members of that board. They believe the board is doing its work well and should be kept in office until the task is finished.

The following is the formal report of those who made the investigation yesterday:

TO THE PEOPLE OF PENDLETON:

WE, THE UNDERSIGNED CITIZENS OF PENDLETON, BEG TO SUBMIT A REPORT AS TO A DETAILED PERSONAL INVESTIGATION MADE YESTERDAY OF THE PROGRESS OF THE WORK ON PENDLETON'S GRAVITY WATER SYSTEM AND TO URGE THE CONTINUANCE OF THAT WORK UNDER THE DIRECTION OF THE PRESENT WATER BOARD.

ON OUR TRIP WE SOUGHT NONE OF THE ENGINEERS OR EMPLOYEES OF THE WATER BOARD AND PROCEEDED TO MAKE OUR INVESTIGATION ALONG INDEPENDENT LINES ENTIRELY. THROUGH THE SERVICES OF A CAPABLE CIVIL ENGINEER WE TOOK MEASUREMENTS OF THE FLOW OF WATER AT THE CONCRETE GATE HOUSE ON THE NEW PIPE LINES. THOSE MEASUREMENTS SHOW THAT THE FLOW OF WATER FROM THE SPRINGS YESTERDAY AMOUNTED TO 4,082,000 GALLONS. THIS IS APPROXIMATELY FOUR TIMES AS MUCH WATER AS PENDLETON NOW USES DAILY. THE FIGURES AS TO THE FLOW OF WATER ARE ACCURATE AND CORRESPOND WITH THE MEASUREMENTS MADE BY OTHER ENGINEERS.

AS TO THE PURITY AND QUALITY OF THE WATER FROM THE THORN HOLLOW SPRINGS THERE CAN BE NO REASONABLE DOUBT. THE WATER GIVES EVERY EVIDENCE OF BEING SPLENDID WATER AND IS SO REGARDED BY ALL OF US. THE SURROUNDINGS OF THE SPRINGS INDICATE PROPER SANITARY PRECAUTION HAVE BEEN TAKEN FOR THE PROTECTION OF THE WATER.

WE ALSO VISITED MUCH OF THE WORK THAT IS UNDERWAY OR HAS BEEN COMPLETED BELOW THE SPRINGS. BY FORCE ACCOUNT THE WATER COMMISSION IS NOW ENGAGED IN EXCAVATING FOR THE CONCRETE PIPE LINE ALONG A ROCKY BLUFF 8000 FEET IN LENGTH. WE WALKED ALONG THIS BENCH FOR THREE QUARTERS OF A MILE. THE WORK IS OF A DIFFICULT NATURE BECAUSE OF THE ROCK AND IS NECESSARILY EXPENSIVE. NEVERTHELESS IT IS APPARENT TO ANY OBSERVER THAT THE WORK IS BEING CAPABLY DONE. WE LEARNED THAT THE COST OF THE WORK AT THAT POINT THIS FAR SHOWS THE EXPENSE HAS BEEN LOWER THAN WAS ESTIMATED BY THE ENGINEER.

## BRIDE IS AUTO VICTIM ON HER WEDDING EVE

CHICAGO, Nov. 28.—An automobile carrying a bridal party homeward after a nuptial banquet, collided with a street car here, the prospective bride, Miss Norma Ahlstrand, was killed and 10 persons were injured, two seriously.

In another part of the city, about the same hour, a big touring car got beyond the driver's control, crashed partly through the wall of an apartment building, broke a gas main and filled the basement with gas, whereat there was an explosion and the building took fire. It was extinguished by the fire department.

## ELKS AT ASHLAND DANCE

ASHLAND, Ore., Nov. 28.—The climax of Thanksgiving festivities in this vicinity was the Elks' banquet and ball which was attended by more than 200 couples.

This eclipsed any social event ever arranged by Ashland Lodge No. 944. The banquet was served on 14 tables each accommodating 16 persons.

## WOMEN SPEND FOUR DAYS IN STATE PRISON

The report of Miss Madellin Zabriski Doty, lawyer, and Miss Elizabeth C. Watson, formerly investigator of the New York State Factory Commission, on the conditions they found in Auburn prison of that state may cause great reforms all over the country in the treatment of women prisoners. They found the prisoners were so harshly treated that they would probably be worse offenders after leaving prison than when they entered. They had entered the prison with the purpose of remaining a week, and no one except the warden knew they were other than prisoners. But they found conditions so bad they had to leave at the end of four days.

Said Miss Doty: "We entered the prison on Monday night before election. I was immediately conducted to a bathroom and obliged to strip, even my hairpins being taken from me. Then I was told to get into a tub of water. I made an attempt to wash myself but was told to keep my hands off. A col-

ored inmate then scrubbed me, my head as well as my body, all in the same tub. The washcloth was a piece of an old shirt, the soap was kitchen soap. Then a bottle of kerosene oil was produced and poured upon my hair and rubbed in. I was then given a prison nightgown and conducted to a cell barefooted and locked in. My hair was not dry and was full of kerosene oil. It got on my pillow and on my hands and face, but I had to endure it. It was impossible to dry the hair, because one small towel, 16 by 34 inches, was the week's allowance.

"While waiting to be Bertilloned, I smiled at the girl sitting next to me, and the matron threatened to punish me, as she said she had two other girls, and that if she wanted she could punish me right now for having talked to the girl in the next cell the day before, when, as a matter of fact I had not spoken. If any one passed I was obliged to rise and face the wall. All prisoners are obliged to do this whenever any one, man or woman passes."
