NEWS OF FARM AND RANGE

Fire Strengthens Warehouse—H. W. Collins of the Collins Warehouse Co., and local grainbuyer for the Balfour, Guthrie Co., says he has approximately one hundred and thirty thousand sacks of wheat in storage in his warehouses, practically all of which is sold and being held for future delivery. Mr. Collins was in Portland last week and saw the big fire in which so large an amount of grain was ruined and damaged. When asked his opinion in regard to the effect that it may have on the present price he says that although a large amount was totally destroyed there will be much of it that will be salvaged for different purposes and saved to a more or less extent. He does not anticipate that it will affect the market price at all noticeably but does believe that it will serve to strengthen the market. Mr. Collins operates fourteen warehouses in Umatilla county.

After Range Cattle—There is now some demand for range cattle in eastern Oregon. Stockmen in this county and elsewhere are seeking cows and calves, yearlings and two-year-olds for use on the summer ranges this year. C. O. Ragdale of Joseph, Wallowa county, was here a few days ago looking for such stock for use on his ranges. The price being paid for mixed range cattle is around \$60 per head. William Polman, big Baker county stockman and president of the association that met here Tuesday, recently sold 300 head of range stock to Montana interests at \$60 per head.

Would Improve Road—Preliminary surveys were made last week on the road leading out of Dry Creek canyon toward Milton by County Engineer Martin and Commissioner Cockburn. An effort will be made to lessen the present twelve to fifteen per cent grade to one of four or five per cent less. This road is heavily traveled and the proposed improvement is one that will be much appreciated by those who have to regularly travel it.

Yates Is Vice President—In reporting the election of officers by the Cattle and Horse Raisers' Association Tuesday, an error was made in the name of the first vice president. M. R. Yates of Pendleton was chosen first vice president instead of J. F. Thompson who was reported as having been reelected to that position.

Christopher Sold Wheat—Isaac Christopher of near Havana Station, sold his last lot of wheat the other day to Will Moore of the Pacific Coast Elevator Co. Roads Are Fine—Wm. Courter, manager of the local grain office of the Kerr-Gifford Co., spent the greater part of the day yesterday in an auto trip out over the wheat growing section. He says the roads are fine almost anywhere he went. He reports some little dust already, and met up with a slight sand blow while in the country near Mission.

Tomatoes Do Well—Fred M. Oliver of this city, has some young tomato plants at his home that are pretty nearly record breakers. They were planted two weeks ago and are now standing over three inches out of the box. Although he has two hundred in the box and they are badly crowded the plants are all healthy and well developed.

Dr. E. J. Somerville appeared before the council to complain of the proposed running of the East Court street sewer through his parking lot, had been to considerable expense in putting in the parking and drive ways. This led to a protracted discussion, the final result of which was the reference of the matter to the city attorney for his opinion as to whether the sewer could be run on the other side of the street without affecting the validity of the proceedings. He asked for several days in which to look the matter up.

The application of Alphonse Mayan for the return of a portion of his popcorn wagon license upon his surrender of the license was unanimously refused.

Application of Mr. Elliott for permission to establish a lunch wagon within the prohibited bounds was also refused, the council citing him to the ordinance requiring such wagons to be more than 100 feet from Main street.

PINCHOT SAYS REPUBLICAN PARTY WILL BE DISSOLVED

HURON, S. D., March 19—Denouncing the republican party as being "rotten with political corruption" and as being in its last days Gifford Pinchot at a meeting here predicted the early dissolution of the republican organization.

Said Mr. Pinchot:
"The republican party is a thing of the past. Disloyal to its traditions and its record, split into factions, contentions, unhappy, weak, it is seeking feverishly for help that it cannot find. Its last days are upon it. Consider the contrast. United, homogeneous, confident, strong, the progressive party—loyal to its principles and certain of their success—has only just begun to fight. The past belongs to the republicans. The democrats are actually in power. But to us belongs the future, and that is the best of all."

Big Trout Caught.
Eighteen fine trout were brought back from Echo yesterday by "Happy" Day, James Cooper and Earl Coutts. They were caught in the main government feed canal near Echo and all were 18 or 20 inches in length. According to reports received from Echo the run of these fine fish in the canal is now on in earnest and greater numbers are being taken than were secured last year when Echo won considerable fame as one of the leading fishing points in the country. If the present run continues that town will surely be the mecca for hundreds of anglers during the ensuing weeks. Local anglers are somewhat divided as to the variety of the fish, many insisting they are rainbow trout while others declare they are land-locked steelhead salmon which have been confined in the government reservoir and never permitted to go to sea. According to these authorities land-locked salmon never attain the size they do when permitted to go to sea.

CANADA MAY CUT DUTIES.

Reported Reduction Plan Would Affect Farming Implements.
WINNIPEG, Man., March 17—It was reported here that the Canadian government, when the annual budget speech is delivered this month in Ottawa, would announce a substantial reduction in duties on agricultural implements.

It is understood the duty on binders, reapers and mowers will be reduced from 17 1/2 to 10 per cent, and a corresponding cut made in duties on other farm implements. Strong pressure is being brought to bear on the government to make a duty of 10 per cent on all farm implements.

The reduction, if ratified, will go into effect by April 1, and will greatly encourage the sale of United States implements in western Canada.

"BETTER GRAIN SPECIAL" DRAWS LARGE AUDIENCES.
NEW LONDON, Wis., March 19—Wisconsin's "Better Grain Special," fitted and equipped by the Wisconsin Bankers' Association, the Milwaukee Chamber of Commerce, and the University of Wisconsin College of Agriculture, on Saturday will end an extensive tour of the state with lectures and demonstrations at Baraboo. The "Better Grain Special" left on its tour of eleven Wisconsin counties on March tenth. SUPERVISION URGED IN GIVING LABOR PERMITS

NEW ORLEANS, La., March 18—Because of the complications involved in issuing work permits to children under the child labor law limit, uniform blanks and state wide supervision are necessary to real enforcement of the law, according to George A. Hall, secretary of the New York Child Labor Committee, who delivered the principal address at the tenth annual National Child Labor Conference which has been in session since Sunday afternoon.

Only after a child has undergone a thorough physical examination, according to Sec. Hall should the request for a permit to work be granted. "Children, aided and abetted by their parents have been known to attempt many shrewd methods of escaping the law even in thorough physical tests," declared Secretary Hall. "There have been cases in which boys faced an examiner with pockets filled with stones or lead or sand so as to bring themselves up to the required weight. There is a great deal of necessary red-tape involved in the proper issuance of work permits. Parents have been known to alter dates of birth certificates so as to work a child who is below the legal age. Aquegate documentary proof of age, should be required. Even among the great foreign born population of New York 75 per cent of the children are able to furnish such proof. Family bibles, court records, and even a silver cup on which the date of the child's birth was inscribed, have been accepted as evidence of ages."

INDIANAPOLIS, March 19—After an all night session the democratic state convention's resolutions committee at 5 a. m. adopted a state-wide primary plan as the result of demands of the Indiana congressional delegation.
