## MEN ARE FOUND GUILTY OF USING MAILS TO DEFAUD

### UMATILLA PEOPLE AMONG VICTIMS OF WORTHLESS MINING STOCK SALES.

Russell G. Belden and A. Eugene Wayland, accused of using the mails to defraud people in Walla Walla, Milton, Freewater, Athena, Prescott, and other points nearby, were found guilty as charged on two counts and not guilty on the third count of the indictment at Spokane, Sunday.

Each count alleged use of the mails to defraud, conspiracy to establish numerous worthless coal companies for the purpose of selling the stock and that the defendants knew all the properties except one they represented were valueless. Each count was based upon a letter written by the defendants to one of their stock customers and all counts were similar except as to names. Conviction was rendered on counts involving John Neiderer of Somerville, Ore., and Walter J. Wood of Waukegan, Wash. The letter written to John S. Vinson of Freewater, Ore., which was the basis of the third count in the grand jury indictment returned last January, could not be properly substantiated and on motion of United States District Attorney Francis A. Garrecht suit was dismissed on this count and the jury was instructed to bring in a verdict of guilty.

### Battle Was Hard Fought.

The verdict closed a hard-fought legal battle lasting since April 19. All the intervening time until Saturday afternoon at 4 o'clock was occupied in presenting the evidence and arguing the case and when the jury retired it took voluminous accounts figured out by federal bookkeepers.

The exactness with which government witnesses dealt with the figures of the many interlocking companies and the stories of several women, who, on the witness stand, testified to attempts of Belden to induce them to buy stock, were the strong points that helped to decide the case, according to one juror.

Attorney Miller said he would file a motion for a new trial at once.

Francis A. Garrecht gave out a written statement in which he declared the conviction a victory that would be welcomed by the people of the Inland Empire.

"In all my experience I have never observed jurors give closer attention to the evidence being offered."

## CRITICISM OF ROCKEFELLER IS DECLARED TO BE UNJUST

### COLORADO MINE OWNERS IN A STATEMENT SAY HE'S NOT TO BLAME.

DENVER, May 5.—That recent criticism of Rockefeller Junior, in connection with the Colorado strike are unjust, because he has no interest in their properties and hadn't tried to influence their attitude, was the declaration of 20 principle coal operators in Colorado in a telegram to President Wilson.

The operators stated they will refuse to negotiate with the United Mineworkers for a settlement of the strike.

The legislature was in session an hour this morning but nothing important was done.

Labor leaders, according to close friends of Governor Ammons, have abandoned all thought of possible impeachment proceedings. It was said the impeachment matter had never taken tangible form.

The mine operators have taken the position they will not deliver up their arms until they are assured their property will be given protection by federal troops.

## PENDLETON TEAM OF B. M. LEAGUE DEFEATED

Weakened by the absence of four of their regular players, the Pendleton team of the Blue Mountain league went down to defeat at Weston Sunday by the score of 8 to 5. Senner, the castoff Buckaroo twirler, pitched for the locals, and whether through inability or indifference, could not keep the Westonsians from bludgeoning his offerings. L. Blomgren poled one of his curves clear out of the lot.

A pretty budget of errors, nine in all, supplemented Senner's twirling and made the victory more easy for the home team. Five in the third, eighth and ninth, the leaders of Schick were a complete puzzle.

## DETAILS OF WHITEHOUSE WEDDING ARE COMPLETED

### REHEARSAL WILL BE HELD TOMORROW—DECORATIONS ARE BEING MADE.

WASHINGTON, May 5.—Details of the White House wedding Thursday of Miss Eleanor Wilson are completed. The White House is being decorated and the wedding will be rehearsed tomorrow.

Miss Wilson's tresseau is reported to include eight evening gowns, seven tango gowns, two suits, five taffeta coat suits, four taffeta street dresses, twelve warm weather frocks, six white skirts, six silk waists, nineteen hats, twelve pairs shoes and seven parasols.

It is understood that McAdoo has leased a stone cottage at Chevy Chase, a fashionable suburb.

## DEMOCRATS GAIN BY LEAPS IN LAST REGISTRATION

### PROPORTION OF TWO PARTIES NOW ONLY ABOUT 1-2 TO ONE.

Although Umatilla county has long been branded a 3 to 1 republican county, the registration for the primaries this year show that the democrats have made such gains that the proportion is now only about 1-2 to 1. The total registration as compiled by Deputy Clerk Frances Saling this afternoon is 6747. Of this number 3625 are republicans and 2360 democrats.

The fact that Dr. C. J. Smith, formerly of this city, is a candidate for the democratic nomination for governor is generally conceded to be a factor in this increased democratic registration, many of his friends having so registered in order to be able to vote for him at the primaries. The success of the national democratic administration is also regarded as a logical reason for the gain in the minority party.

The registration is divided among the parties as follows: Republicans 3625, democrats 2360, progressives 171, prohibitionists 214, socialists 153, independents 105, miscellaneous 19.

and organizer of the United States chamber of commerce.

W. P. G. Harding, of Birmingham, Ala., president of the First National Bank of Birmingham, and one of the leading bankers of the south.

Dr. Adolph Caspar Miller of San Francisco, now assistant to Secretary Lane of the interior department, a member of the faculty of the University of California, who is an economist and authority on finance.

The nominations will be sent to the senate in a few days. As yet Messrs. Olney and Harding have not indicated whether they will accept.

Upon the new board will devolve the task of setting in motion the banking system of the country through the 12 regional reserve banks already selected. They also will constitute the governing board which will regulate the 12 banks and issuance of currency.

The president had told his friends that he regarded the membership of the board equally as important as that of the supreme court of the United States.

Should Mr. Olney decline, it is believed Mr. Harding or Mr. Warburg will be chosen to head the board.

The president, according to those

who were in his confidence, was guiding by no political considerations, seeking to get the best bankers and business men available. White House officials did not know the politics of the men mentioned except that Messrs. Olney and Harding were democrats, and they believed Mr. Warburg was a republican. Mr. Wheeler is a republican and a close friend of ex-president Taft.

An apparently authentic report was in circulation that William Denman, of San Francisco, a close friend of Secretary Lane, was the Pacific Coast member, but this was denied by the White House officials.

Mr. Olney was particularly desired for the position of governor of the board because of his legal training and his familiarity with the business world. He is 78 years old, and was attorney-general of the United States from 1893 to 1895 and then secretary of state until 1897.

Mr. Wheeler is 49 years old. He has been a banker most of his life. He has been general secretary of the Chicago Association of Commerce, was appointed by President Taft, in 1911, a member of the commission on second class mail matter and has

been president of the Credit Clearing House of Chicago.

Mr. Harding is 50 years old and is looked upon as one of the leading bankers of the south.

Paul Moritz Warburg is 45 years old, was born at Hamburg, Germany, and after graduating from the university there received a business training with a Hamburg commission firm.

## PENDLETON AUTO COMPANY

"Why did I buy a FRANKLIN? You might better have asked, 'Why did you wait so long before buying a Franklin,' for the FRANKLIN I have just purchased from you is the sixth automobile I have owned."

"Briefly, I bought a FRANKLIN for the following reasons. I believe it is:

- 1st—The Car Reliable because of its simplicity of design and because of the high quality of workmanship entering into its construction.
- 2nd—The Car Comfortable because of its wonderfully resilient construction.
- 3rd—The Car Economical because of its extreme lightness. This means low tire cost and small gasoline consumption."
