**TURN 'O THE TIDE.**

The tide flows into the harbor  
The bold tide, the gold tide,  
The flood of the sunlit sea—  
And the little ships riding at anchor  
Are swinging and slanting  
Their bows to the ocean  
To lift their wings to the wild  
Wide air.  
And venture a voyage they  
know not where,  
To fly away and be free!  
The tide runs out of the harbor—  
The slow tide, the low tide,  
The ebb of the moonlit bay.  
And the little ships rocking at anchor  
Are rounding and turning  
their bows to the landward  
ward yearning  
To breathe the breath of the  
warm sweet strand  
And rest in the sight of the  
high hill land—  
To hold their heaven and  
stay!  
My heart goes round with the  
vessels—  
My wild heart, my child  
heart, in love with the  
sea and the land—  
And the turn of the tide passes  
through it  
In rising and falling with  
mystical currents calling  
At morn to range where the  
far waves foam,  
At night to a harbor in love's  
true home,  
With the hearts that under-  
stand!

—Henry Van Dyke.

In attempting to criticize the accomplishments of the Wilson administration the colonel shows himself insincere and ungenerous. His assertion that the administration has made no headway with the trust question is nothing but an insult to intelligence.

The so-called anti-trust bills have not yet been passed it is true. But they are underway and they will be passed in due time.

But anti-trust legislation has not been confined to these measures. The reform of the tariff was a long step toward trust correction, as all well know.

The currency legislation went to the very heart of the trust problem. By that legislation the administration handles the greatest trust of all—the money trust. It takes the control of the currency out of private hands; it places it virtually under government control. When the currency legislation was enacted the administration took a necessary and a big step toward solving the trust question. By that one act President Wilson did more for this country than Roosevelt has done in all his lifetime, despite his shouting.

The colonel's criticisms will not take well with people who are informed. He shows small calibre and traits of the demagogue.

By action of the department of agriculture an effort is being made to correct an erroneous impression many consumers get from observing the pure food labels on manufactured goods.

The department is sending individual official notices to over 58,000 manufacturers that on May 1, 1915, their guaranties filed under the food and drug regulations will be stricken from the files and that thereafter the serial numbers assigned to such guaranties must not be used on the label or package of any food or drug. This action is in accordance with the regulations adopted on May 5, 1914, by the secretaries of the treasury, agriculture and commerce, which abolish the use of the guaranty legend and serial numbers on foods and drugs. The ground for this action was that the legend "Guaranteed by (name of guarantor) under the food and drugs act, June 20, 1906" was understood by many consumers to mean that the federal government had passed upon and certified the excellence of the article so labeled, whereas the legend and serial number were merely a guaranty on the

part of the manufacturer to his dealer that the manufacturer would assume full legal responsibility for his goods.

In the meantime from the records it appears that 58,816 manufacturers have filed guaranties and obtained serial numbers, the last number issued being 58,816.

The notice advises manufacturers that after May 1, 1915, guaranties should not appear on the label or package but should be incorporated in or attached to the bill of sale, invoice, bill of lading, or other schedule giving the names and quantities of the articles. The guaranty may be printed or stamped on the invoice, and if it is signed in accordance with the new regulations and refers specifically to the goods listed in the invoice or document it covers, it need not contain a detailed description or schedule of the articles.

Manufacturers who are asking permission to file guaranties and obtain serial numbers are being advised that they should attach their guaranty to their invoices and not seek to use the legend or serial number on their labels, as the guaranty and serial number will be withdrawn within a year.

The New York World has the following comment on the indictment of those said to be responsible for the prosecution.

They Deserve Responsible for an Attempt to Foist Defective Steel upon the Government during the Construction of the Panama Canal.

It is officially stated at Washington that no defective steel was used in the construction of the great canal locks at Panama. The reason why a monumental work escaped this peril lies in the fact that defective beams and plates evidently designed for purposes of fraud were detected by competent inspectors and rejected.

This much to the discredit of the celebrated "blow-hole" steel industry of Pittsburgh seems to be established. Somebody in that long-protected enterprise appears to have been willing to make money not only at the expense of the persons and property using the canal, but in case of the emergency of war, at the risk of national honor and safety. Acting upon this information, a federal grand jury at Pittsburgh recommends the indictment of various persons for an attempt to defraud the United States.

Presentments do not always lead to indictments, and indictments do not convince anybody, but this is a scandal that ought not to be left to the routine of a Pennsylvania court. If it is conceivable that graft which amounts to treason is possible among our business men, there must be penalties that will have some relation to the crime.

Steel deprived of congressional favor has been severely critical of the tariff laws enacted by the people of the United States. If it can be proved that persons operating in its interest have undertaken to disgrace as well as to plunder a nation which has too long paid tribute to it, their punishment should be more than correctional. It should carry the savor of retribution, if not of vengeance.

**Italy Talks Intervention.**

ROME, May 30.—Intervention in Albania by all European powers has been under discussion by the Italian government on the same basis as intervention in China at the time of the Boxer rising.

Italy always has opposed the idea of intervention in Albania being limited to Australia and Italy, and the triple entente, comprising Great Britain, France and Russia, was opposed to intervention by the whole of Europe.

Russia has taken the Italian view and the opinion is held here in official quarters that possibly Great Britain and France may agree.

**LANE WOULD BE WILLING TO SELL PANAMA CANAL.**

WASHINGTON, May 30.—Senator Lane in the senate said he would be willing to arbitrate differences with Panama to clear the way for a settlement of questions now pending with that country. He stated he thought it would be a good idea to sell the canal and build another somewhere else.

**REVENUE CUTTERS ORDERED TO HUNT MISSING STEAMER.**

WASHINGTON, May 29.—The revenue cutters Yakaraw and Seminole are ordered to search for the steamer Luckenbach, believed to have foundered yesterday off the Florida coast.

**WOMEN PLEAD FOR LIFE OF WOMAN SLAYER.**

**Mrs. Magdalena Ferola.**

NEW YORK, June 1.—Mrs. Magdalena Ferola convicted of murder in the first degree, will be sentenced on Tuesday to die in the electric chair for the slaying of her husband. Members of a number of women's clubs have interceded with District Attorney Francis Martin to take some action to prevent the execution of the woman. If Mrs. Ferola is executed she will be the first woman to have died in the electric chair since Mrs. Martha Place of Brooklyn was executed in 1898.

In every home where there is a baby there should also be a bottle of McGEE'S BABY ELIXIR. It may be needed at any time to correct sour stomach, wind colic, diarrhoea or summer complaint. It is a wholesome remedy, contains no opium, morphine or injurious drug of any kind. Price 25c and 50c per bottle. Sold by all dealers.—Adv.

**Librarians in Closing Sessions.**

WASHINGTON, May 30.—The final general session of the American Library Association was held here. W. N. Calton, librarian of the Newberry Library, Chicago, spoke on "Prestige," and Agnes Van Valkenburg, instructor in the library school, New York public library, selected readings from recent fiction. The election of officers was also held today.

**Engineers Hear Eminent Speakers.**

NEW YORK, May 30.—Eminent speakers were scheduled to address the sessions of the fiftieth anniversary celebration of the establishment of the School of Mines at Columbia University. Prominent engineers from all sections of the country are attending.

**Lewiston Has Ladybugs.**

LEWISTON, Idaho, May 30.—The presence of an abundance of ladybugs in Lewiston orchards is pleasing to fruitgrowers, as they are generally regarded as valuable in combating the aphid, which hinders fruit trees and vegetables.

**NEW LIGHT THROWN ON WORLD'S BEGINNING.**

WASHINGTON, May 30.—Reports from London that Chief Professor Percival Lowell, director of the Flagstaff Observatory in Arizona, now in London, has received word from Professor Slipher that spectrograms made at Flagstaff show Virgo's nebula rotating were received with interest in scientific circles today as possibly throwing new light on the problem of stellar evolution and the origin of the universe.

Professor Fowler, acting director of the Smithsonian Astrophysical Observatory, commented on the reported discovery today.

**Nebular Hypothesis Suggested.**

"Nebulae are great masses of gas appearing like gigantic pinwheels, and have been looked on as worlds in the process of formation," he said. "They suggested La Place's famous nebular hypothesis of the origin of the earth and the solar system. Their appearance suggests rotation, but they are so far distant that even though rotating with velocities of many miles a second, in centuries such motion towards adjacent stars would be inappreciable to the eye.

"Spectrograms, like the speedometers of automobiles, indicate at once the speeds of bodies, but the nebulae are so faint, most of them being invisible to the unaided eye, that only with the most powerful telescopes may spectrograms be obtained of them.

**New Light on Our Origin Given.**

"This discovery of Slipher is interesting as throwing new light on the problem of stellar evolution and our origin. Although the rotation was suspected, no guess could have been given as to its magnitude, which Slipher's spectrograms will probably tell.

"An earlier observation of Slipher indicated that the nebula of Andromeda is approaching us with a velocity of 200 miles a second."

**MAN MURDERED AND BODY BURNED TO CONCEAL CRIME.**

LOS ANGELES, May 30.—Propped against a fence at the edge of Evergreen cemetery the body of an unidentified elderly man charred and twisted was found. Nearby lay two half filled bottles of Kerosene. The police believe the man was murdered and the body saturated with oil and fired to conceal the crime.

**Local Playhouses**

What the Press Agent Has to Say of Present and Coming Attractions.

**Orpheum.**  
For two days only, Monday and Tuesday, the Orpheum has secured a five reel Lubin masterpiece, "The Gamblers." Written by Charles Klein, author of "The Lion and the Mouse," etc. This is truly a wonderful production and has a cast of the best of the Lubin stars, including Ethel Clayton, Lillie Leslie, Geo. Spencer and Earl Metcalfe.

Synopsis—Catherine Spencer marries James Darwin, a young attorney, although she loves Wilbur Emerson, who is too much immersed in business to play the love game satisfactorily. In a burst of confidence Catherine tells James that she was really in love with Wilbur and the husband being of a jealous nature they begin to drift apart. In an effort to amass a fortune Wilbur gets into a precarious scheme with his fellow directors and operates illegally. Darwin learns of this and returning home finds Catherine about to go to a ball. He forbids her to go but she goes anyway and he goes after her and brings her back. Meanwhile Wilbur has entered their house searching for some incriminating papers and is discovered by Catherine. Darwin enters and sees them together. He has Wilbur arrested and Catherine leaves him and takes the papers.

**Pastime Monday Only.**  
The Regeneration. Kalem. This well presented two reeler may be called a picture with a purpose, although its little sermon is preached in such a way that there can be no offense to those who prefer to take their sociological arguments from mediums other than the moving picture screens. Greater charity for those who have been denied the right environment and training is the plea. There is a love story well told. Guy Combs and Anna Nilsson have the leads.

"Miser Murry's Wedding Present." Vitagraph, featuring Leo Delaney, Rose Tapley, Norma Talmadge and Jack Harvey. A legitimate comedy presented with a love story on the side to give the picture a wider appeal. Miser Murry hates to part with his daughter. He hates to part with his jewels. He has to part with both and submit to the inevitable.

"With the Burglar's Help." Lubin drama.

**Cosy—Monday and Tuesday.**  
The Hummel Musical and Comedy Co. who made a big hit Sunday in their Dutch act, will have an entirely different comedy and musical act for Monday and Tuesday. They are certainly top notch entertainers, and pleased our audiences greatly at every performance Sunday.

Robbins and Weller also made a hit in their comedy sketch, "The Porter, the Maid and the Piano." The piano playing by the lady member of the team being both pleasing and novel; their singing is very fine and their jokes made plenty of laughs. They will be here Monday and Tuesday, also.

"The Embuzzer." Two reel Kaybee. A pathetic story that makes a great appeal to the sympathies of the beholder and holds the interest throughout.

"The Stolen Radium." Majestic. A picture giving one an idea concerning a little known subject as well as showing the tremendous power of radium.

"Bombsky and the Bombs." Royal. One of the slap-bang comedies for which the Mutual program is famous; there is action and excitement enough in this to make everyone laugh.

all starcast, including Crane Wilbur, Pearl White and Paul Panzer.

"The enactment of the Perils of Pauline" in motion pictures is the greatest achievement of the kind ever attempted." — Portland Oregonian, May 17.

This big feature in addition to our regular and new program.

"The Antique Engagement Ring." Vitagraph. "Coward and Man." Edison. "Almost an Outrage." Biograph.

Mr. Fred Sharp, expert violinist, is expected today to start a permanent engagement with his orchestra at the Alta.

**Siam Will Send Soldiers.**  
SAN FRANCISCO, May 30.—Siam's participation in the Panama Pacific exposition will include a battalion of infantry and a band which will cross the Pacific ocean in 1915 in a transport conveyed by the yacht of the King of Siam.

The king will be represented by his brothers, Jajani, and the Siamese dancing girls, a sacred white elephant and other typical features will form part of the Siamese exhibit.

**Rheumatic Throat Is Common Trouble**  
Should Be Treated in Blood To Prevent Recurrence.

There are successful gargles that stop soreness in the throat, but to prevent their incessant return, the blood must be put in order. The best remedy is S. S. S., as it influences all the functions of the body to neutralize the irritants or waste products and to stimulate their excretion through the proper channels.

Rheumatic sore throat is a dangerous indication, as it means that the blood is loaded with more uric acid than the kidneys can excrete, and may thus lead to serious general disturbance.

The action of S. S. S. stimulates cellular activity. It prevents the accumulation of irritants in local spots. It enables the arteries to supply quickly the new red blood to replace worn-out tissue.

For this reason uric acid that finds the throat an easy prey to its breaking-down influence, is scattered and eliminated. In other words, S. S. S. prevents chronic conditions by enabling all the mucous linings of the body to secrete healthy mucus. Its influence is shown in a marked improvement of the bronchial tubes, whereby the huskiness of voice with thick, grayish expectorations is overcome. S. S. S., well diluted with water, means a blood bath, since it is welcome to any stomach and at once gets into the blood.

S. S. S. is free of all minerals and contains no harmful ingredients, and is a well-balanced health.

You can get it at any drug store, but do not accept anything else. There is danger in substitutes. S. S. S. is prepared only by The Swift Specific Co., 201 Swift Bldg., Atlanta, Ga. Our Medical Team will give you free instruction by mail on any subject of blood disorders. Write today.
