### Newsy Notes of Pendleton

**On Fishing Trip.**  
Billy Hoch and J. E. Russell left where they will enjoy the day in a fishing trip. They plan to return tomorrow.

**Leave on Auto Trip.**  
G. M. Rice and NeSmith Ankeny left today by automobile for a trip through the southern part of the state. They will be gone several days.

**Back to Station.**  
Ensign Herbert Roesech, who was called here through the death of his father several weeks ago, has left to rejoin his ship, the gunboat Helena, now stationed in far eastern waters.

**Sells Ponies.**  
J. V. Tallman has disposed of two more of his Shetland ponies, the beauties of the lot, to Mr. Corbett, a banker of Portland. The sale was made through Dan P. Smythe. As soon as Mr. Corbett saw the photographs of the ponies he immediately notified Mr. Tallman that he would purchase them for his children.

**Meetings Are Resumed.**  
After having been discontinued Sunday evening and Monday evening because of the dust from the wind, it is announced that the gospel meetings being held in the tent at the corner of Webb and Main streets are now resumed. A meeting was held last evening by Elliott Bros., the evangelists who are conducting the meetings.

**Mountain Released.**  
According to a report reaching here this morning, Walter Mountain, whose wife was murdered in Pasco early Sunday morning, has been released from custody by Immigration Officer Wells of Walla Walla because of lack of evidence to hold him in connection with an alleged white slave charge. He has left for Perry, Iowa, with the body of his wife and the burial will take place there.

**Record For States.**  
Probably no state in the union holds the record which Oregon does in the matter of bonded debts in its various counties according to W. G. Copley, government employe who is here gathering statistics. He finds that there is only one county in the whole state which has a bonded debt and attributes this standing to the law here governing the amount of bonds which each county can issue. Mr. Copley is enthusiastic over eastern Oregon and thinks that the irrigation project here means a great future for this section of the state.

**Water in Soon.**  
According to Engineer Kelsey, who was here yesterday to confer with the water board and members of the city council, the complete pipe line of the new gravity water system will be flushed by Friday. The water will be let through several times, then allowed to run off, and by Monday, he stated, the reservoir will probably be filled and the water be ready for consumption. Several lengths of the pipe line have been flushed already and according to Mr. Kelsey a few leaks have developed. All these minor defects will be repaired before the system is placed in commission and ready for inspection by the city authorities before being accepted.

**Wife Is Improving.**  
Mrs. T. A. Stivers of Garfield, Wash. is reported to be rapidly recovering her health at St. Anthony's hospital. Mrs. Stivers was stricken two weeks ago while passing through Pendleton with her husband and children en route to Idaho to spend a few weeks' vacation. She was hastily taken to the local hospital and for a time almost all hope of her recovery had been abandoned. Mr. Stivers has remained here during the time his wife has been ill and was much overjoyed this morning to find that she will be able to rally from the malady. Mr. Stivers is a prominent merchant of Garfield and he said that the vacation planned was the first in three years that he had been away from his business.

**Urges No Delay.**  
Telegrams have been sent to Senators Chamberlain and Lane to use their influence to prevent a delay in the rivers and harbors bill. This action was authorized by President Tallman of the Commercial Association in accordance with a letter received from Alfred Kinney, chairman of the Port of the Columbia commission of which board Mr. Tallman is also a member. The letter stated a delay was pending and might hold up the improvements as planned for the Columbia river and as the subject is vital to all Oregon the local commercial association desires to see the appropriation go through congress as originally planned.

**Connors in Auto Accident.**  
The following story from La Grande tells of an auto accident there in which Conductor George Connors was thrown from a machine.  
To be somewhat exact in an automobile to the pavement of Fourth street without serious mishap was the experience of a party of five last evening.

Mrs. Frank Pike, in whose car the party was seeing La Grande, was caught under the steering wheel and was bruised. Eddie and Joe Hannon of this city, Miss Albert of Huntington, Conductor Connors of Pendleton, and Mrs. Frank Pike of this city were out enjoying the evening and in coming down Fourth street hill, probably gathered more speed than Mrs. Pike imagined, and in turning the right angled corner at the foot of the hill the car tipped completely over. All had to be helped from under the machine, some being without a scratch of any kind.

**Burial at Athena.**  
Burial services for the late James Woodworth, a well known rancher who died at Two Rivers, will take place at Athena and the body was sent there this morning.

**Will Leave for San Francisco.**  
J. M. Hatfield, who recently sold the Eagle Baths, will leave shortly for San Francisco. Mrs. Hatfield and daughter are leaving on Friday for the California city but Mr. Hatfield's luggage will keep him in town probably a week longer.

**Couple Married.**  
William Owens and Miss Emma Florence Dix were married late yesterday afternoon by Rev. C. A. Hodshire at the parsonage of the Methodist church. Both are residents of Pendleton.

**Incorporation Articles Filed.**  
Articles of incorporation for the Alta theater were filed with the county clerk late yesterday by Miss Norma Alloway, Miss Edith Johnson and C. M. Stype. The company is capitalized at \$5,000.

**Springs Popular.**  
W. H. McCormack, who is down from Lehman Springs, says the place was never so popular as this season. Every cottage is occupied, parties are camping and new guests are arriving every day. Pendleton has a large gathering of vacationists there who are enjoying the delights of the resort.

**Entertainment Praised.**  
The entertainment which was staged here for the benefit of the Milwaukee business men on their trip here recently, is highly praised in an article appearing in the Civic and Commerce, a magazine devoted to the business interests of Milwaukee. Photographs accompany the article. The miniature Round-up is well described and is rated as having been the most original and entertaining feature of the whole trip.

**Divorce Is Filed.**  
A suit for divorce was filed in circuit court today by Mrs. Ida Howard Calvin from her husband George Calvin to whom she was married at Milton on January 11, 1914. She alleged cruel and inhuman treatment as grounds for the separation. She asks alimony in the sum of \$25 a month and the restoration of her former name Ida Howard. Calvin is employed as a barber.

**Takes Man Back.**  
Frank Elkins, an official of the sheriff's office at Prineville, left this morning with John H. Harper who was brought here yesterday from Freewater by Deputy Sheriff West and Harper will face a statutory charge for an alleged attack on a young girl. The man was arrested in Freewater on a description sent out by the Prineville authorities and was taken to the county jail here to await being sent back to Prineville.

**New Steers for Round-up.**  
The Round-up board will have a bunch of new steers this year for the frontier exhibit and Dan Clark one of the livestock men for the O. W. R. & N. has been asked to look after the buying of a lively herd of Texas longhorns. The nine head of steers which the Round-up has on hand will be sold. They have waxed fat and are too lazy for any active work. The new steers will be from two to and a half years old and will be the best that are able to be produced.

**Wants Grain Samples.**  
N. Berkeley, well known local real estate and insurance man, has leased the Main street room in the East Oregon building and will have his office there in the future, subletting of the quarters to Manuel Friedly. Mr. Berkeley has already prepared a partial grain exhibit and is anxious to obtain good samples of wheat, vegetables, fruit and other products raised in the county. He expects to maintain a permanent exhibit.

**Exhibits Are Excellent.**  
President Tallman of the Commercial Association is enthused over the way the ranchers of the county thus far have come forward with exhibits of grain for the state fair in Salem in September. He has secured excellent samples already from John Bain, Frank Curl, the Umbarger brothers, Tom Thompson, Jimmy Thompson, Herbert Thompson, Edward Kirkpatrick and Frank Martin, and these samples are now being treated to a solution of white glue to keep them from shelling. Among the samples are Alberta wheat, bluestem, red Russian, club and Jenkins club. There is also a sample of barley.

**Returns From Trip.**  
Roland Oliver, well known grain man, returned today from a trip through Portland, Seattle, Tacoma and other coast cities. Mrs. Oliver is still at Cannon beach and will not return until September 1st. Mr. Oliver spent a short time at the beach and then left on a business trip. He says that while he finds the grain men optimistic for a good season, the demand does not seem to be as great as in former years. Chinese money is cheap, he says, and but little business is being expected from the orient. There is a good demand for early wheat, he declared.

**Gathering Statistics.**  
W. G. Copley, employed by the census bureau of the United States government, began gathering his data this morning from the city's books. He will begin on the county figures tomorrow. Mr. Copley is gathering statistics to show the wealth, debt and the taxation in various parts of the northwest and these are to be combined with other statistics being gathered by government men in other fields. All branches of the city government, the schools and all public buildings will be included. Mr. Copley will go to Heppner from here and thence to other Oregon cities. The last census of this kind was taken 10 years ago.

### MINISTER INVITES 'SWISS' 'NAVY' TO AMERICA

George A. Stovall minister to Switzerland has just started the state department. Secretary Bryan and all Washington have learned that Minister Stovall recently presented to the foreign office of the Swiss government a courteous invitation for its "navy" to take part in the Panama-Pacific Exposition at San Francisco.

The foreign office of the mountain republic was amazed at the invitation to the naval display but assuming that the American minister knew there was no such thing as a Swiss navy prepared to name a special envoy to represent Switzerland, simply in his own personality. It would have forgotten the incident, but the state department having learned of Mr. Stovall's invitation, directed him to withdraw it on the ground that it was intended only for maritime powers. Mr. Stovall did this in a formal letter.

**Indian Child Dies.**  
The two year old son of Paul Shawaway, an Indian on the local reservation, died yesterday and was buried this afternoon at the Catholic mission cemetery.

**Couldn't Stay Away.**  
H. W. Runyon was allowed out on bail by Police Judge Hatley yesterday on condition that he keep sober but Runyon was back in court this morning to face the judge on another charge of imbibing too freely. He was sentenced to seven days.

**Man May Recover.**  
Reports this afternoon from Pasco said that Jack Sentinel, who shot and killed Mrs. Ada Mountain and then turned the weapon on himself, inflicting a dangerous wound, is still alive and the doctors now believe he will recover.

**Water Board Meets.**  
Members of the water board held a meeting last night at which Engineer Frank Kelsey and City Attorney Carter were present and the contracts with respect to the water system were considered in detail. The claim of Contractor Bufton was taken up also but as he was not present no action was taken with regard to it. The meeting was an executive session held in the office of the city water department.

**Superintendent Finishes Report.**  
County Superintendent of Schools Young finished his annual report today and it will be submitted to the State Superintendent Churchill at Salem. Mr. Young reports a total of 7143 children in the county schools with 224 teachers in the various grades. Of this number 31 hold life certificates. The enrollment in the high schools is 696. The estimated value of school houses and grounds in the county is given as \$623,465. The total receipts amount to \$215,988.02; the disbursements \$254,128.52, leaving a balance of \$60,959.50. The average monthly salary of mail teachers is \$191.07 and of female, \$72.70. The schools have a total number of 14218 library books on hand, 1144 of these having been purchased during the year. Over \$17,000 was paid for improvements to grounds and new school houses and sites cost \$19,431.66.

Have you taken advantage and secured your share of the splendid short lengths we have on display at about half their real worth? If not you better come in, there are hundreds of pieces to select from yet, but they are going fast.

### DIAMOND TRUST IS FORMED. Concerns Controlling 98 Per Cent of the Trade in Gemstones.

NEW YORK, July 22.—Notices of the signing of an agreement among three of the largest diamond producing companies, controlling 98 per cent of the world's supply, to curtail their yearly output, have been received by diamond brokers here. The effect of the agreement, one broker said today, would be to put an end to competition between the three companies, with the result that prices would be materially increased.

The companies that are parties to the agreement, according to the notices, are the German Diamond company of Berlin, the De Beers Consolidated Mines company and the Premier Diamond company of London.

### Denounces I. W. W.

DENVER, July 22.—A bitter denunciation of the Industrial Workers of the World was the burden of an address by John Lord, president of the mining department of the American Federation, delivered at the convention of the Western Federation of Miners today. He declared the Industrialists are virtually "scabbing on the job."

### 18TH PEACE TREATY SIGNED

Uruguay Agrees to Bryan's Plan for Settling Controversies.

WASHINGTON, July 22.—Secretary Bryan and Minister Maria de Pena signed a treaty binding the United States and Uruguay to investigate for at least a year, through an international commission of five members, all differences which cannot be settled by diplomacy.

It is the 15th of such peace treaties and with similar conventions to be signed with Argentina, Brazil and Chile, will be sent to the senate later this week.

Drawn will install a \$6000 city lighting plant.

### St. Helens Hall

### FOR SALE, STOCK RANCHES

1400 acres, all fenced, good buildings, and orchard, close to good outside range, P. O. and store. 150 cattle and 25 horses if desired. Price of land is \$8 per acre, and if the stock is bought at a low price, there will be 350 tons of hay, and all the farm implements thrown in as a gift.

1600 acres, all fenced and cross fenced, good improvements, close to the reservation, with a reserve right with it. This ranch can be bought, including a lot of stock, crop, and farm tools for \$10 per acre; easy terms.

2000 acres. 70 acres meadow, and plenty of plow land besides. This fine ranch is in the best section of the country for wintering stock, as the snow seldom lies longer than a few days, it being in the chinook belt, and has good house, two barns, fine orchard, and many other desirable features. It can be bought with or without stock at \$10 per acre; easy terms; 65 tons of hay goes with it.

I have been in the stock business 12 years in this county, and know these ranches well, and know they are the best bargains to be found in the county or eastern Oregon.

E. T. WADE, Pendleton, Oregon.
