**Japanese Deplore War.**  
TOKYO, Aug. 8.—The Japanese premier, Count Okuma, in an interview expressed his regret that the United States had not been able to mediate in the European conflict, which, if it continues, he said, means the destruction of western civilization. Japan, he continued, would have been happy to join the United States in the mediation, but her possible participation in the war as an ally of Great Britain made her an interested party. The premier said that Japan, if she were compelled reluctantly to intervene, would protect the British colonies, but under no circumstances would she send a fleet or an army to Europe.

# ARM CAUGHT IN BELT AMPUTATION IS MADE

**ATHENA YOUNG MAN MEETS WITH ACCIDENT WHILE WORKING MACHINE.**

(Special Correspondence.)  
ATHENA, Ore., Aug. 10.—While working with the machine owned by Berlin and Richmond, Orall McPherson had the misfortune to get his right arm caught in the belt and so severely mangled that amputation was necessary. The young man was rushed to town in an automobile and Dr. Suter summoned from Walla Walla in consultation with Drs. Sharp and Plamondon. It was found necessary to amputate the arm above the elbow. He was removed to Walla Walla Saturday morning to the hospital, accompanied by Dr. Plamondon and his mother. His many friends sympathize with him in his misfortune as he was an industrious and hard working young man.

Mrs. H. N. Deeper had the misfortune to break her ankle Friday morning while engaged in her household duties. She made a sharp turn and fell to the floor. A physician was summoned and found that her ankle was fractured. She is resting well and her friends hope for her speedy recovery.

**Too Many Germans in England.**  
LONDON, Aug. 10.—While most of the papers counsel the courteous treatment of Germans who are compelled to remain in England, the Daily Mail in an editorial urges a vigorous application of the law controlling aliens, saying:

"There are too many Germans in England and unless they are kept under close observation their presence may be a source of great danger. Now that Europe is under arms we must not shrink from any measure necessary to preserve our national existence. These unwanted guests will consume food needed for the British poor and their maintenance will absorb funds that can not be spared."

The aliens restriction order, the legislation for which was passed through all stages in the house of commons forbids alien enemies in the kingdom to have firearms, explosives, automobiles and motorcycles without permission from the police.

A series of royal proclamations were published. One revokes the prohibition against the importation of arms in Ireland and others set forth the illegality of trading with an enemy; prohibit British vessels carrying contraband of war between foreign ports; and declare that British subjects contributing to a loan raised on behalf of the German empire or contracting with the German government will be guilty of high treason.

**Infection and Insect Bites Dangerous.**  
Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you, they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Lintiment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Lintiment disinfects Cuts, Bruises and Sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c at your druggist.—Adv.

**Foreigners Leave Canal Zone.**  
PANAMA, Aug. 10.—The nationals of Germany and Austria-Hungary, subject to military duty, are leaving the isthmus of Panama in considerable numbers in response to orders received here. Otherwise the unfavorable situation in Europe has not been felt to any great extent on the isthmus.

The war is having no effect on the canal work beyond delaying the delivery of certain machinery ordered from Germany.

The construction of two large floating cranes may be delayed as the result of the probable departure of the Germans who were to erect them, but the Washington government has been asked to request the German government to permit them to remain.

Four Hamburg-American line steamers are being held at Colon pending further orders. The other steamship lines have not been affected.

**The Case of L. L. Cantelon.**  
The case of L. L. Cantelon, Clarendon, Texas, is similar to that of many others who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says, "After trying a doctor for several months, and using different kinds of medicine for my wife who had been troubled with severe bowel complaint for several months, I bought a 25c bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured." For sale by all dealers.—Adv.

# MAISEL MAY BECOME A BENCH WARMER

**Frits Maisel.**  
NEW YORK, Aug. 10.—Friends of Frits Maisel regard with suspicion the purchase by Manager Frank Chance of the Yankees of Angele Argon the crack third baseman of the Long Branch team. Argon has been the sensation of the Atlantic league. Latest averages show he has been batting .419 for forty-one games. It is expected that Argon will replace Maisel at third. The new Yankee is only 21 years old and has been playing in the Atlantic league for two years.

**6000 FRENCH RESERVISTS CALLED OUT ON COAST.**  
SAN FRANCISCO, Aug. 10.—Six thousand French reservists, it was estimated here are under summons to report to the French Consulate here for service. Several hundred appeared yesterday. Thirty-five reservists of the crew of the German steamer Serapis were under orders to leave here for New York today en route to Germany. The Serapis arrived yesterday and the German cruiser immediately ordered officers and men to start for home. Hardly a man was left aboard.

**War Vessels Get Wireless.**  
NEW YORK, Aug. 10.—The powerful wireless station at Saville, L. I., has been in continuous communication with German war vessels off the American coast the last few days. A great many messages have been sent in code to the cruiser Dresden and other German warships during this time, according to the manager of the Atlantic Communications company, which controls the wireless plant. No messages to French or English vessels have been sent.

Information as to the source of messages to the German vessels was refused, but it was said that they had come from many places, among them being the cable offices in this city. The managers said that his form was an American one. Most of the employees are natives of Germany.

**Deportations Held Up.**  
WASHINGTON, Aug. 10.—Deportations of undesirable aliens have been stopped everywhere in the United States, pending the war developments. The only exceptions are in the cases of immigrants coming on lines not affected by the war and these can only be ordered away after individual consideration of each case by the Washington authorities. This was made known today by a statement of Secretary Wilson of the department of labor.

All immigration officials have been instructed to refer every case to the department of labor here, which is a roundabout way of heading off any action until war is known about conditions at sea. Incidentally, warrants of arrest with a view to deportation have been held up.

# Local Playhouses

What the Press Agent Has to Say of Present and Coming Attractions.

**Orpheum—Tuesday Only.**  
A two reel Vitagraph story of Italian life in Italy and in this country. It is "The Song of the Ghetto," an attractive and original picture featuring William Humphrey a Eulalie Jensen. When he becomes a successful musician Ernesto ignores Rosa's love and scornfully refuses to recognize her. Yvette, with whom he is in love, is made a wonderful singer and when she marries his rival he realizes what a priceless thing he has thrown away with Rosa's love.

The Daring Young Person. Essanay. Featuring Richard Travers and Ruth Stonehouse.

A decidedly interesting picture in which a pretty young girl convinces her father, who claims that chivalry is dead as regards young men of the 20th century that he is mistaken.

Hor Spanish Cousins. Edison. Featuring Ben Wilson and May Abbey in a clever comedy of an old maid who refuses to be beat out of her fortune by her cousins in Spain.

**Pastime—Today Only.**  
For today only we are offering a splendid program of four single reels. The feature among them is "The Meal Ticket," a Biograph drama. The cast includes Irene Hawley, George Morgan and William Jefferson. Colloquially, a "Meal Ticket" describes a means of support and the little show girl was the bread winner for her husky father and brother. When the income of the two was threatened, the brother contrived a scheme, which, strangely enough, resulted in the happiness of all.

"The Reporter on the Case." Self drama. Again Jimmie is at his best. A clever reporter and a detective unearth a crime. The Moving Picture World says this is good entertainment.

"Lame Dog's Treachery." Kalem. Featuring Mona Darkfeather. The deadly knife duel between Lame Dog and Two Feathers, and Atahka's rise to save her lover, are two of the most absorbing scenes.

"Sophie Gets Stung." Essanay. This is the third and last concerning the wooing of Sophie of Snakeville. All the boys try to win Sophie. Many humorous situations pertain; disheartened, they leave Sophie pining after them, and that is where Sophie gets stung.

**Coming to Pastime.**  
"The Thumb Print." Melies four part masterpiece, coming to Pastime theater Tuesday and Wednesday.

This is a detective drama, where the whole plot centers around a thumb print, which is discovered when a banker was murdered and robbed in his own library. The plot is one of a very powerful nature and highest possible class of photography, combined with excellent acting and dramatic effect.

This picture was seized by the police of Portland and taken from the Majestic theater and held for two days, it being their idea that it was an objectionable picture. But after due deliberation on the part of the Portland officials it was returned to the management of the Majestic and allowed to resume its run.

The General Film company has advised us that we can exhibit this picture without fear of offending the most fastidious of our patrons.

"The Thumb Print" will be at the Pastime for two days only.

The synopsis of "The Thumb Print" will appear in these columns tomorrow.

**Cosy—Monday.**  
Clairborne and Trombley, in their comedy sketch, "The Messenger Boy and the Sourette" will be one of the acts tonight. They have a good line of comedy songs and funny chatter.

Frawley and Rath, in piano music and comedy songs, with some funny stories, will be the other act. The playing of two different airs on the piano at the same time is a novel feature of this act.

"The Tavern of Tragedy." Two reel Majestic. Dorothy Gish is featured in this spirited drama of the civil war.

"The Border." Reliance. Irene Hunt and Sam De Grasse in an exciting western offering.

Ethel's Teacher." Komic. A lively comedy.

**Alta Theater.**  
"Her Trip to New York." Miss Ruth Stonehouse and E. H. Calvert

**SAGE TEA PUTS LIFE AND COLOR IN HAIR**

DON'T STAY GRAY! IT DARKENS SO NATURALLY THAT NOBODY CAN TELL.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

have the leads in this Essanay production which tells a story of pathos that lays bare a woman's heart and a man's thoughtlessness. He had promised her a trip to the most wonderful city in the world for a honeymoon but the trip did not come until many years after when she was broken down from hard work. Then he had to take her after a reminder from the good old physician. The plot and acting has been handled in good shape while the scenes are very beautiful.

"A Song of Sunny Italy," a Biograph photoplay with a fine cast of popular players. This picture is fully up to the good old Biograph standard.

"Canine Rival," the 5th of "Wood B. Wood's sentimental experiences" by the Edison company, with Mrs. Wadsworth, Arthur Housman and Gladys Hulette in the leads.

"It's a Shame." This is one of the most inimitable Lubin fun-makers with a real comedy cast including Billy Bowers, Ed Lawrence and Julia Calhoun.

"The Klapped Bride." You want to laugh and we want you to laugh. See this picture with Raymond McKee, Frank Griffin and Babe Hardy.

Coming Wednesday and Thursday, Edmund Breece in his unquestioned success, "The Master Mind," by the Lasky company in five reels.

**Joseph F. Sheehan, America's Greatest Tenor.**  
We are to have a visit from the famous opera star with his specially selected opera company embracing some of the foremost stars on the American stage, in an operatic program of unusual excellence and different from anything heretofore offered, inasmuch as the performance consists of three different operas, "Il Trovatore," "Bohemian Girl" and "Martha," the best and most interesting acts of each opera being presented.

The engagement here is at the Oregon Theater this evening.

**Dog Makes Saloon Close.**  
CHICAGO, Aug. 10.—A \$500 free lunch was enjoyed by Spot, a small terrier owned by Frank Shepherd, proprietor of a saloon in East Ninety-second street, and as a result the saloon was closed for several hours.

The dainty tidbit which Spot devoured was nothing less than Shepherd's license. As luck would have it, a policeman entered the saloon the same morning and wanted to see the license. A few tattered shreds of it were all Shepherd could produce. Thereupon his place was ordered closed.

However when the facts were related at the city hall some hours later the authorities permitted a duplicate license issued.

**Argentine telegraph companies are bringing into general use a system whereby messages are received automatically with printed type.**

**Medford Families Clash.**  
MEDFORD, Ore., Aug. 10.—The respective fighting abilities of the German and English armies led to a sanguinary encounter between the families of Carl Jesche, a German jeweler, and Samuel Bateman, an English supporter, Saturday. The fight terminated in the police court, where the German displayed a swollen eye and asked that Bateman be arrested and punished.

According to neighbors, the trouble started with the first declaration of war, and early morning arguments over the back yard fence finally resulted in a fight between the Jesche and Bateman boys followed by a fist encounter between the fathers.

According to witnesses, Jesche was getting the better of the battle and had the Englishman under him when young Joseph Bateman came to the rescue and executed a flank movement by kicking the German in the eye.

Police Judge Gay was so filled with war talk that he decided to wait until Monday to give his decision as to which party was wrong.

**Yankoes Ask to Enlist.**  
OTTAWA, Ont., Aug. 10.—Several thousand applications for places in the Canadian expeditionary force have been received from the United States. A considerable number are from Canadians naturalized in the United States, but most of them are from young Americans, who apparently see a good chance of being sent to the scene of fighting at the front. Some Americans have appeared at the Canadian enlistment points and volunteered.

So far there is disinclination to accept any but Canadian residents, whose applications have so far outnumbered the places available. If the war is prolonged Canada will raise second and third divisions of 21,000 men each and American volunteers will be given an opportunity to enlist in them.

It's easy to ignore insults aimed at one's one else.

Eugene will try to float a broom and Albany is raising a subsidy for a furniture factory.

## A New Method of Baking Cakes

**Mrs. Nevada Briggs, the baking expert, says:**

"There is just one way to make your cakes rise high and evenly—give them time to rise before a crust is formed and the batter is stiffened by cooking."

"If using a gas, gasoline or oil stove, light your oven when you put the cake in and keep the flame low until the cake has doubled in bulk; then increase the heat until it is evenly browned and will respond to the pressure of the finger. If using a coal or wood range, leave the oven door open until the cake is in; then turn on the drafts and by the time the oven is at baking temperature, the cake will have raised sufficiently."

For rich, moist, feathery cakes Mrs. Briggs always recommends

### KG BAKING POWDER

It is double acting and sustains the raise. You can open and close the oven door, turn the tin around in the oven or do anything else necessary, without any danger of making the cake fall.

Try your favorite cake next time with K C Baking Powder and see how much higher it will rise. Make it just as you always do, with the same quantity of baking powder. While K C is less expensive than the old fashioned baking powders, it has even greater leavening strength and it is guaranteed pure and healthful.
