SOCIAL

Mr. and Mrs. William M. Blakely will be at home to their old friends this evening at their home, 211 South Main street, the occasion being the 100th anniversary of their wedding.

Miss Norma Alloway and Miss E. Johnson have returned from a brief outing at Lehman Springs.

Mrs. E. L. Power and Miss Edith Power returned Sunday after an absence of eleven weeks spent with friends and relatives in Portland, other points in the Willamette valley and at Aberdeen.

Miss Annie Parker has returned from Roseburg where she visited for a few days.

Miss Mayme O'Dell was a Sunday visitor at Bingham Springs.

Mr. and Mrs. Jack Vincent and Miss Laura Smith were among the Athena people at Bingham Springs Sunday.

Mrs. J. J. Raulstone of Walla Walla arrived this morning to be present at the golden wedding anniversary of Mr. and Mrs. William M. Blakely. The Raulstones and Blakelys have lived on adjoining farms in the early days.

Yesterday evening at 8 o'clock was celebrated the wedding of Cecil Hampton and Miss Luella M. Yandle, a popular high school couple of this city. The nuptials were held at the home of the bride's parents, Mr. and Mrs. J. W. Yandle, 218 Tustin street. Rev. E. R. Clevenger of the Baptist church pronounced the vows. Mr. and Mrs. Hampton left last night for Portland to visit the bridegroom's mother but will return here to make their home. The bridegroom is a nephew of T. H. and S. A. Hampton of this city and came here two years ago to attend the high school. He is at present employed in one of the stores of the city.

Mrs. John Endicott and son have returned from an outing at Lehman Springs.

Mrs. Lawrence G. Frazier and little daughter, Jean, arrived home this morning from Portland where they had been visiting for several weeks.

Mrs. James H. Gwinn arrived home this morning from Berkeley, California, where she accompanied her daughter, Miss Olive Gwinn, who has re-entered the University of California to take her second year work. She was accompanied back by Miss Danahon with whom she went on to San Francisco to buy military.

Mr. and Mrs. Henry J. Taylor have moved into their handsome new home at 118 Jackson street.

Misses Maude and Leyla Hodshire, daughters of Rev. and Mrs. C. A. Hodshire, left this morning for Meacham where they will join the family.

A four foot sewer will be laid through Fairmont addition, Eugene.

of L. L. Mann at a summer camp near that place.

Mrs. G. Leroy Hall and children of Marshfield are now visiting here as the guests of Mr. and Mrs. G. A. Hall, 215 West High street.

 Rorer—Home candy making.
 Seiden—Elementary cabinet cooking.

Trask—In the vanguard.
 Whitlatch—Golf for beginners—and others.

Army Service School Open

FORT LEAVENWORTH, Kansas, Aug. 18.—The army service schools opened here today with a full attendance of about 190 officers. The schools closed April 28, two months ahead of time, to enable the officers to join their regiments in Mexico and Texas.

Buyers Crowd St. Louis

ST. LOUIS, Aug. 18.—Buyers from the southwest were pouring into St. Louis today and wholesalers predicted unusually heavy orders, due to the bumper wheat, cotton and corn crops. Hotels are crowded to capacity.

NO PUNCH TO IT

Five year old Herbert, born of a bookish family, had learned to read so early and so easily that he scarcely remembered the experience. When his little sister began her studies Herbert watched her progress with interest. One day he confided to his mother, "It didn't show me her new lesson book today and it's the queerest thing you ever saw! Why it just says, 'is it a dog? It is a dog. Can the dog run? Yes, the dog can run,' and lot of silly things like that. 'Course I didn't like to say so, but I don't think much of that book, mamma. It didn't seem to me that the style had a bit of juice!"

FROM THE PEOPLE

THE USE OF BORAX.

New York, Aug. 14, 1914.

Editor East Oregonian:

We note in your 7-29-14 issue that you have an article in reference to the use of Borax for preventing the propagation of the fly germ. You have taken this matter undoubtedly, from the U. S. Dept. of Agriculture reports, but we believe, that it is useless to mention Borax for destroying the propagation of flies unless you give your readers explicit instructions how to use same. In your article you say "sprinkle a small amount of Borax"—this is very indefinite information: for instance, if one should sprinkle too much Borax on manure, it would be detrimental to plant growth when the manure is used as a fertilizer. The department bulletin is very explicit on this point, and it says under "Directions for Treating Manure with Borax to Kill Fly Eggs and Maggots:"

"Apply 6.62 pound Borax to every 10 cubic feet of manure immediately on its removal from the barn. Apply borax particularly around the outer edges of the pile with a flour sifter or any fine sieve, and sprinkle 2 or 3 gallons of water over the borax-treated manure."

The government also issues the following warning:

"While it can be safely stated that no injurious action will follow the application of manure treated with borax at the rate of 6.62 pound for 8 bushels, or even larger amounts in the case of some plants, nevertheless borax-treated manure has not been studied in connection with the growth of all crops, nor has its cumulative effect been determined. It is therefore recommended that not more than 15 tons per acre of the borax-treated manure should be applied to the field. As truckmen use considerably more than this amount, it is suggested that all cars, containing borax-treated manure be so marked, and that public health officials stipulate in their directions for this treatment that not over 6.62 pound for 8 bushels of manure be used, as it has been shown that larger amounts of borax will injure most plants. It is also recommended that all public health officials and others in recommending the borax treatment for killing fly eggs and maggots in manure warn the public against the injurious effects of large amounts of borax on the growth of plants."

The above demonstrates the necessity of informing the public what quantity to use so as to not injure plant life: 6.62 pound for 10 cubic feet would mean practically nine ounces of Borax.

In garbage cans, the government recommends two ounces of Borax. Unless the above instructions are given to the public, more harm than

good will accrue by publishing the matter. We are confident that you do not desire to give your numerous readers any information that might be detrimental instead of beneficial. Yours very truly,

PACIFIC COAST BORAX CO.

Per H. L. Harris.

HUSTIES ASSUMES CHARGE OF BOSTON & MAINE LINES

BOSTON, Aug. 18.—James M. Husties, president of the New York, New Haven & Hartford railroad, today assumed his new duties as president of the Boston & Maine lines.

Husties was elected to the post on July 7. He succeeded Morris McDonald, resigned. Elliott, chairman of the New Haven board of directors soon will assume the duties of president of that line.

A four foot sewer will be laid through Fairmont addition, Eugene.

HOW THE MAP OF EUROPE IS TURNING BLACK WITH WAR

Of the 495,473,000 persons in Europe, 373,373,000 are at war. The armies they think they can raise reach the enormous total of 15,480,000. That is, if the nations must call on all their resources, they will have at war one of every five men

they contain. The statistics of seven warring nations are as follows: Russia, estimated population, 160,000,000, war strength of army 5,400,000; Germany, estimated population 64,909,000, war strength of army, 4,000,000; Austria-Hungary estimated population, 31,310,000, war strength of army, 1,820,000; England (United Kingdom) estimated population, 45,000,000, war strength of army, 800,000; France, estimated population 36,601,000, war strength of army 2,500,000;

Belgium estimated population, 7,432,000, war strength of army, 340,000; Serbia, estimated population 4,000,000, war strength of army 270,000. Total estimated population 372,373,000; total war strength of army 15,480,000.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been a constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

A NAVAL PROBLEM

Rub-a-dub dub, three men in a tub. One was an Admiral bold, With buttons all over the front of his coat And collar and hames of gold.

The second one was a commodore, With forty-three yards of braid, While the third, lit up in similar style,

Was a captain unafraid, Rub-a-dub, dub, three men in a tub, Off to the war they went; The weight of the tub was so very great

The ocean was badly bent. The captain spake to the admiral, "Now whither away?" quoth he, And the admiral, after scratching his ear,

Said: "Shiver my light, search me!" They never had tried the tub before: 'Twas a dreadnought tub, you know And so it was rather hard to tell Whether up or down they'd go.

WHAT SHE THOUGHT

A Buxom farm lass was recently called as a witness in a case in an English county court. The girl happened to mention her sweetheart knew something about the matter.

"Oh," said the judge, "then I think we had better have him to court."

The girl blushed furiously. "It won't do any good, sir," she protested. "Ah'm fair put to it to get him to court when we're alone, an' Ah'm sure he won't do it before all you gentlemen."

Albany business men are trying to raise \$7500 to enlarge furniture plant.

The Jensen Creamery Co. at Richland, Baker county, will have a cheese factory in operation by March 1.

BRAVES' OWNER GIVES STALLINGS CREDIT FOR BOSTON'S SHOWING

NEW YORK, Aug. 18.—"Stallings deserves all the praise," said Owner Gaffney of the Boston Braves when asked who, in his opinion, was responsible for the Boston club's climb from the foot of the ladder to second place. "He has worked wonders with the team and the end is not yet. Over in Boston, where the fans have become wildly enthusiastic, he is a king. I wouldn't be a bit surprised if the team grabbed the flag. The men are all hustling for all they're worth and they have all the confidence in the world."

A Hint for Coming Maternity

In a little book designed for expectant mothers more complete instruction is given in the use of "Mother's Friend."

This is an external embrocation applied to the abdominal muscles for the purpose of reducing the strain on ligaments, cords and tendons.

It serves to ease the mind, indirectly has a most beneficial effect upon the nervous system and thousands of women have delightedly told how they were free of nausea, had no morning sickness and went through the ordeal with most remarkable success. "Mother's Friend" has been growing in popular favor for more than forty years. In almost every community are grandmothers who used it themselves, their daughters have used it and they certainly must know what a blessing it is when they recommend it so warmly. It is used very successfully to prevent taking of breathers. In the use of "Mother's Friend" has been prepared in the laboratory of Bradford Regulator Co., 304 Lamar Bldg., Atlanta, Ga., for more than two generations and can be had of almost any druggist from coast to coast. Write to-day for the little book.
