PERSONAL MENTION

W. H. Morrison is in from Helix for the day.
John Hughes of Heppner spent yesterday and last night in the city.
Mr. and Mrs. Mordo McDonald of Walla Walla are among the visitors in the city.
S. Norton Bobo, editor of the Stanfield Standard, is a visitor in the city today.
John Banister, prominent Weston resident, is in the city today on a business mission.
Supt. J. E. Young and Prof. A. C. Hampton motored to Walla Walla and returned yesterday.
John Callender, well known resident of Athena, is in town today on his way home from San Francisco where he visited the fair. He was accompanied to California by his two daughters who live in Portland.

No Through Rates in Future Over the Denver, Rio Grande

ORDER OF INTERSTATE COMMISSION FINALLY SETTLES FAMOUS DISPUTE

Hereafter it will be impossible for Pendleton people to purchase railway tickets straight through to the east via the Denver & Rio Grande. This in substance, is the effect of the decision of the interstate commerce commission this week in the famous Ogden Gateway case. It will be necessary, if local people wish to go by way of the D. & R. G. to stop at Ogden and purchase a ticket on that point.
In 1914 the Union Pacific announced its intention to discontinue the interchange with the D. & R. G. at Ogden of passenger business to or from points on the Oregon Short Line, a part of the Union Pacific system. The D. & R. G. contended that as these rates had been in effect about 18 years they should not be cancelled. The Union Pacific stood upon what it regarded as its legal right to retire from an arrangement which short hauled its own lines and contended that it was entitled to the long haul on passenger traffic to and from territory served by the Oregon Short Line. The principal reason assigned was the large expenditure in the construction of branch lines, particularly to Yellowstone Park and in Oregon Short Line territory, the testimony indicating that in recent years \$195,000,000 were expended in the construction of branches for the purpose of enabling the Union Pacific to serve Idaho and adjacent territory, while the D. & R. G. on the other hand had not invested a dollar in Oregon Short Line territory. Commissioner Harlan in announcing the majority opinion of the commission, says:

On Low Gear for 860 MILES

Without once stopping the Engine Walla Walla, Wash., to San Francisco, Cal.

in a FRANKLIN CAR

Start: 6:10 A. M., Sunday, August 1, 1915
Finish: 5:50 P. M., Wednesday, August 4, 1915

Mountains or desert practically all the way. Route through Pendleton, Ukiah, Burns, Harney, Lake View in Oregon; Redding, Red Bluff, Winters and Oakland in California.

The hardest test ever given an automobile engine. A practical demonstration of direct air cooling and endurance of the Franklin.

Car driven by J. W. McCormach of Pendleton, Ore. Inspected, certified and sealed at start; officially checked at finish.

Mr. and Mrs. T. J. Tweedy and Mr. and Mrs. J. C. Johnson will leave this evening for Lehman Springs to spend the weekend. Mr. Johnson is the superintendent of construction on the federal building job.

Industrial Barometer Up.
LOS ANGELES, Aug. 14.—William E. Wilson, secretary of the department of labor, said that industrial conditions throughout the country were good.

"Moreover," he added, "they are improving. There is a difference of only 10 per cent between depression and prosperity at any time. The down curving line of depression reached its lowest point last year. There is again an upward sweep, and the line now is above the point representing the prosperity of the country in 1908."

Clinton, Ia. Is Flooded.
CLINTON, Ia., Aug. 14.—A cloud-burst struck this city. Ten square blocks, including the business district, are under four feet of water. Street-car service has been suspended. The big tents of a circus playing here were swept away.

Newsy Notes of Pendleton

Buys New Auto.
Arnold Planting of Adams has purchased a new model D-45 Buick auto from the Oregon Motor Garage.

One Degree Warmer.
Today has been one degree warmer than yesterday, the official thermometer giving a maximum temperature of 82 and a minimum last night of 55.

Wheat a Little Off.
The local wheat market is reported a little off today; quotations dropping to the 90 cent mark. Farmers are not selling anything.

Delegate To Farmers' Convention.
W. W. Harrah, prominent Pendleton farmer, has been notified that he has been chosen as the delegate from the unions of Oregon and Idaho to attend the national convention of the Farmers' Union which is to be held at Omaha beginning Sept. 7.

\$25,000 Estate Probated.
The last will and testament of the late Joseph Harris was admitted to probate today. The personal property of the estate in this county is estimated to be of the value of \$25,000. By the terms of the will the widow secures \$7,700 in addition to \$3,000 previously advanced, and this amount is to be held in trust for her by two sons, Edward and Robert Harris. The balance of the estate is divided equally between the eight children. In addition to the personal property, deceased owned real property in Minnesota.

Many Hunting Parties Leave.
The deer and grouse season being scheduled to open in the morning, many hunters are leaving this afternoon for the haunts of the game. The woods will be full of men with guns tomorrow and there will be a general carnage among the birds. The deer hunters are going into the far south end while many of the grouse hunters are going into the Meacham country. A party composed of W. L. Thompson and son, Edward, Sam R. Thompson and Cecil Curt left this afternoon for the Meacham hills and another party going in the same vicinity is composed of C. S. King, Dr. F. D. Ingram and Dr. L. D. Ideman. L. G. Fraider, Fred Earl and Ray Crystal are going up above the Walla Walla river and Dr. M. S. Kern and Fred Lampkin left this afternoon for Weston mountain. The Trombley-Rois-Drake party and the Matlock-Estes-Vaughn-Sweck party left this morning for the south end.

NEWS FROM THE FARM AND RANGE

26 Cars of Cattle Shipped—Eighteen cars of cattle from the Ukiah and Camas Prairie country are being loaded today at Pilot Rock for shipment to the Portland market and eight more cars are being loaded in this city to go over the O.-W. R. & N. to Portland. Livestock Agent Dan Clark expects to ship out several cars next week to Kansas City, too.

Agency Farm Makes 40 Bushels—The harvesting of the 200 acres of wheat at the agency has just been completed and the yield was found to be 8000 bushels, an average of 40 bushels to the acre.

60 Bushel Wheat—A remarkable yield for this season and an unusual one for any season, was obtained by William S. Ferguson, one of the East End's largest farmers, from a quarter section of the reservation land he is handling south of Athena. He had 145 acres of this tract in German red wheat which yielded 2385 bushels, of approximately 60 bushels to the acre. From a total of 360 acres in the same neighborhood he had an average yield of between 23 and 24 bushels per acre, the remainder being Jenkins club. Mr. Ferguson says that the German red stands up as straight as a pine pole and cuts beautifully. E. A. Dudley planted more than 500 acres of it, and is also said to be getting a big yield.

J. M. Banister is getting a good crop this year from his East End holdings. Although pretty badly "down," 75 acres on the old home place west of town, thrashed by Art Coppick yielded 1207 sacks of club and red chaff. While this is by no means a poor showing, the same tract two years ago produced no less than 1847 sacks. He had a satisfactory acre of the Ginn ranch, and 50 acres of the Mrs. Taylor place averaged about 50 bushels to the acre. His own outfit is now threshing on the Richmond place adjoining town, which is yielding well. On the reservation he had an average of 35 bushels per acre from 240 acres.—Weston Leader.

Finishes Harvest.—J. N. York has housed his harvesting outfit, after a successful run of 14 days in his own grain. With a 24-inch separator and one 14-foot header he covered considerable territory, 40 acres being his best day's run. Mr. York cropped 3700 sacks of No. 1 wheat from 224 acres on the east side of Dry creek, 349 sacks from 22 acres on his home place, and 2973 sacks from 155 acres on the Bob Kilgore place. He also had 25 bushels to the acre from 80 acres of spring-sown barley. While he has had a better average in other years, he is by no means dissatisfied with his 1915 harvest.—Weston Leader.

About Red Wheat—Fifty-nine bushels per acre is some yield for this year, and the Ferguson crop of German Red south of town is the best yet reported to the Press. This variety has yielded well wherever harvested this season. Differences of opinion exist relative to its productive merits. Some give the reason that it is two weeks later in maturing than other wheat, and that it was not in a critical stage of development when the excessively hot weather came. Others say that having a new variety to the soil of this section, is the reason for the big yield and cite in support of the theory that all other varieties of wheat grown here produced heavily when first introduced, but gradually lessened in yield in after years. However, the German Red is proving a good producer this season, has come to stay, for it's seed for fall sowing is in great demand.—Athena Press.

Shipped Five Cars Cattle—Hubert and Clark of Ukiah, made a shipment of five cars of cattle via Pilot Rock to Portland last Wednesday. The cattle were in first class market condition and will bring the top price. They were raised in the John Day country.

While being driven into town the cattle became scared at the exhaust at the pumping station and stampeded, carrying away a fence and causing the drivers much worry and protestations against said pump until they finally got the festive business under control.—Pilot Rock Record.

100 Cars of Prunes—About 100 cars of Italian prunes will have left Milton-Freewater this season by tomorrow night, 75 or 80 of them this week. Shields Fruit Co. shipped no prunes at all last week, as they claimed they were too green and

would injure the early market. The Lamb Fruit company and the Milton Fruit Growers Cooperative union shipped several cars of prunes last week, said to be ripe enough for consumption by the time they reached the market, which is almost entirely east of the Rockies.—Milton Eagle.

Some Change.
"When water becomes ice," asked the teacher, "what is the great change that takes place?"
"The greatest change, ma'am," said the little boy, "is the change in price." — Ladies Home Journal.
