Happy Canyon Will Provide Its Own Attractions for the Pleasure of Its Patrons

"Happy Canyon" will stand on her own legs this year as last. The little old frontier show will entertain with her own unique attractions and will not ask for outside aid in entertaining the Round-up throngs in the evenings.

This was decided yesterday afternoon at a meeting of the "Happy Canyon" committee when the request of the Campbell United Show Co. to open a street carnival and midway alongside "Happy Canyon" was unanimously rejected.

The representative of the carnival company offered to give "Happy Canyon" fifteen per cent of the gross receipts from all concessions and side shows in return for the privilege of setting up in Pendleton with free grounds, free lights and free water.

The committee decided that a carnival attraction would not be in keeping with the Round-up and Happy Canyon and would detract from instead of add to the success of the big frontier festival week.

FIRST FIRE OF THE SEASON IS BURNING IN UMATILLA FOREST

SUPERVISOR RECEIVES REPORT THIS MORNING—TIMBER LOSS TO BE SMALL.

The first forest fire of the season in the Umatilla national forest was reported to Supervisor W. W. Cryder this morning but the reports indicate the loss of timber will be small and that the fire will be extinguished by tonight.

The fire is in the extreme south-eastern portion of the reserve, near the mouth of Fly creek. It started among some down timber in an old burn of 15 years' standing.

The forest is very dry now, as a result of the long warm spell, and the danger from fires is great. However, the almost total absence of violent electrical storms as well as the precautions taken by campers as a result of the campaign conducted for several years reduce the danger materially.

U. S. Plans to Raise Protest on Contraband

WILL OBJECT TO ORDER BY ENGLAND PLACING COTTON ON THE LIST.

WASHINGTON, Aug. 25.—Ambassador Page called the state department the official announcement of Great Britain proclaiming cotton absolute contraband. With the order before the state department, it was declared the administration's note to England regarding cotton shipments will carry an objection to placing the product on the contraband list.

The contraband order will not affect the earlier negotiations as to cotton shipments, but it was again reported this government will not accept the British provision that the United States assume the burden of proof as to the destination of the cargoes. The administration has no intention, it was stated, of compelling shippers to prove their cargoes were consigned to neutrals and are not intended ultimately for Germany.

BIGGEST CROWD OF ANY YEAR EXPECTED FOR 1915 ROUND-UP

CARNIVAL MANAGER MAKES PREDICTION THAT THROUGHS WILL BE IMMENSE.

"Pendleton will see the biggest crowd at her 1915 Round-up that she has seen yet."

This statement with elaborations was made yesterday afternoon by J. W. Randolph, representative of a carnival company who came here to see what opportunities there were for bringing his show here as a side attraction. He claimed to be in a position to make predictions by reason of his extensive travels.

"I have been all over the state of Oregon this summer," he said, "I have been in every nook and corner of the state of Washington. I have been all through Idaho and parts of Montana and I hear of the Pendleton Round-up everywhere. There is no show like it they declare, and in not one place except Walla Walla have I heard a word against it. The people are coming to your show and they are coming strong for you deliver the goods. If my carnival company had the reputation of the Pendleton Round-up and carried the universal appeal, I would not be taking it around the country. I would stage it in New York and get the 'big money.'"

Protectorate Will be Established to Take Care of Haiti

SECRETARY OF STATE ADMITS THAT SUCH A PLAN IS BEING DEVELOPED.

WASHINGTON, Aug. 25.—Secretary of State Lansing confirmed the report that the United States has proposed the establishment of a protectorate in Haiti. It was explained that the approval of the United States senate must be obtained by which the arrangement can be carried out. Lansing declared the plan was to "help the Haitians avoid exploitation by professional revolutionists."

In 1770 there were no less than 160 offenses in England punishable with death, and it was ordinary for 50 or 500 culprits to be condemned at one assize.

CHILDREN OF SCHOOL AGE TO BE ADMITTED FREE ON FIRST DAY

OPENING OF ROUND-UP WILL BE "KIDS DAY"—PLANS ARE BEING MADE.

Not only will the opening of the Round-up be "Pendleton and Umatilla County Day" but it will be "Kids Day" as well. At a meeting of the board of directors last evening it was decided to admit every child of school age in Umatilla county to the bleachers on Thursday, the first day of the sixth annual exhibition.

As usual the biggest crowds from outside the county will be here for the last two days of the exhibition and for that reason competition for grandstand seats is much more keen. The directors are, therefore, desirous of making the first day essentially a home day and suggests to the residents of Umatilla county the desirability of attending on that day.

The meeting last evening was an enthusiastic one as all reports coming in were strongly indicative of another great show before another great crowd. The directors put themselves on record as absolutely opposed to any suggestion for curtailing the entertainment for purposes of economy. They took the view that Pendleton has made a national name and fame for her Round-up because she has always given a better show than any other place and that they must keep up the standard. The fact that this show has been self-sustaining and more in the past has proved to them that the Round-up will pay for itself as long as it gives the satisfaction it has in the past five years.

Tacoma Market is Far Above Portland

11 CENT DIFFERENCE IN CLUB QUOTATIONS YESTERDAY; FOREIGN MART WEAK.

A feature of the northwest wheat market just now is the fact Tacoma quotations are much higher than the Portland bid prices. For club yesterday the Tacoma quotation was \$1 per bushel while the Portland bid price was but 83 cents. Today there is no change in the Portland terms but Pendleton prices are down a cent on the strength of advice that the European market is weaker. There is no business here.

ANOTHER STRIKE IS THREATENING BRITISH NATION

200,000 Welsh Coal Miners May Quit Work Unless Pending Trouble is Settled at Once.

1000 MEN ARE ALREADY OUT

Miners Claim the Government Has Tried to Play Into the Hands of the Mine-Owners—Committee is Appointed for Conference With Lloyd George to Adjust Differences.

CARDIFF, Aug. 25.—For the second time in a few weeks Great Britain is threatened with a strike of 200,000 Welsh coal miners. At Hafors, a thousand men walked out declaring the agreement under which they had returned to work recently had not been carried out. The miners claim the government has tried to play into the hands of the mineowners. That other miners are in sympathy with those who struck is evident. A general walkout is threatened.

Miners of the federation executive council appointed a committee to confer with Lloyd George, minister of munitions, who intervened in the last strike, and present the grievances to him. It is believed he will see that the agreement entered into is observed by the operators. The miners, it is said, did not trust Walter Runciman, president of the board of trade. Runciman had an active part in the efforts to bring the last strike to an end.

Pendleton Public Schools Will Open for the Year's Term on 13th of September

In less than three weeks Pendleton's public schools will open for the fall term, the date set by the board being September 13. Indications point to an attendance breaking all previous records as practically every house in town is now occupied. With the beginning of school so near at hand, the board and Prof. A. C. Hampton, who is to have charge of the schools, are making active preparations so that there will be no delay in commencing the term work. With one exception all of the teachers have been chosen. Miss Beatrice Hanlon, who was selected as the principal of the Washington school, has resigned to teach in her old home in Pennsylvania and the board is now considering a successor.

Miss Anita Slauer, a graduate of Pendleton high school and of the University of Oregon, was yesterday elected to the English department in the high school made vacant by the resignation of Miss Faye Clark.
