### Greenhouse For Hospital.

A greenhouse for the growing of plants is one of the new improvements contemplated for the Eastern Oregon State Hospital. It is estimated that it will cost \$1800. John Dow, the new landscape gardener at the institution, states that he has had considerable difficulty this year with plants owing to the cold weather but, with a greenhouse in which to start plants, believes any future spring season like this one will not prove an obstacle to his work. Mr. Dow came to the institution about two months ago from West Virginia. For more than 25 years he held the position of chief landscape gardener at the big hospital for the insane on Long Island. He is rated as a man of first rank in his profession. During the frosty nights recently he kept fires burning in the orchards and saved all of the fruit at the hospital.

**June The Pearl Month**

Pearls were first found in the far East, and among the people of the Orient the belief was held that they were nothing more than dew drops hardened into pearls.

At the full of the moon the oysters were supposed to come to the top of the water, and open their shells receive the drops of dew which soon congealed into priceless gems.

A bridal gift of pearls is an appropriate gift for the month of June and to the girl whose birthday falls in June the pearl is an excellent gift.

You'll get more power, more miles per gallon out of White Star Extra Quality Motor Oil.

Because it contains no free carbon to "coke" the cylinders or foul the spark plugs. Because it has the body to seal the piston clearance it makes all the gas work all the time. Stronger than any claim we might make is this Ford letter:

"After careful experiments and tests, we have adopted White Star Extra Quality Motor Oil here at the factory and for use and sale at our branch houses, as best adapted for Ford cars."
