

For a Tip-Top Breakfast

Serve

New Post Toasties

Here's the why:

The New Toasties have a delicate, true corn flavour—unmatched by any other corn flakes. Trial proves.

They are the meat of choicest white Indian Corn—first cooked and seasoned, then rolled into thin wisps and toasted by quick, intense rotary heat. This new patented process of making raises distinguishing little bubbles on each flake, and brings out their wonderful new flavour.

Your grocer has them now.

PERMITS FOR SLASH BURNING REQUIRED AFTER 1ST OF JUNE

STATUTORY FOREST FIRE SEASON BEGINS IN OREGON TOMORROW.

Conditions at Present Offer Little Danger Anywhere in the Pacific Northwest; Wet Weather Has Prevented Usual Spring Cleaning up Which May be Menace.

PORTLAND, Ore., May 31.—The statutory forest fire season, during which permits for slash burning and other precautions are required, begins tomorrow with conditions offering little immediate danger anywhere in the Pacific northwest, according to bulletins received by the Western Forestry and Conservation Association, the clearing house for all private and public forest protective agencies. The wet weather has, however, prevented the usual spring cleaning up of loggers' and settlers' slashings, thus leaving a greater menace when dangerous weather arrives. Except in rare cases, with unusual care and under permit and supervision, it will not be safe to burn now before fall and the winter's accumulation will create serious hazard all summer. For this reason preparations are being made for strict enforcement of all fire laws, especially those dealing with clearing and with spark-emitting engines.

Warning the public of approaching weather conducive to forest fires will this year be recognized by the United States Weather Bureau as a necessary service comparable to storm and frost warnings. In addition to the telegraphic forecasts of hot and windy weather usually furnished the private and public patrol forces, predictions will also be mailed to post offices in forest regions, for conspicuous posting where they may be seen by people likely to use fire in clearing and by campers and travellers. A special card has been devised, bearing fire precautions on the margin.

Idaho timber owners' patrol associations, in co-operation with the Forest Service and the University of Idaho, are preparing for the most intensive development of the lookout system ever attempted in fire prevention anywhere. Lookout stations on mountain peaks, with range finders to locate fires and telephone communications to notify the fighting forces immediately, have rapidly grown in favor in nearly all systems. In Idaho, parties have just been dispatched to the field to establish true meridians for all lookouts by means of solar observations. Panoramic relief maps of the country visible from selected stations will then be made, with accurate contours of elevation established by engineers, and the observers will also be technically trained men. Where desirable, weather instruments will be installed. The results of this work during the coming season, especially in learning how much it permits decreasing patrol forces, will determine its extension next year.

Full patrol will not be established until late in June, but Oregon, Washington, Idaho and Montana will report forces extending and rearing telephone lines and trails, and that the severe winter occasioned unusual windfall and breakage. In some regions the fire hazard is considerably increased by such debris. The automobile will be used much more in fire work this year than ever before, many associations having found that head wardens and inspectors can accomplish so much more that it pays to provide them. On the other hand, telephone building is somewhat discouraged by the war price of wire.

PERRETT CARRIES GIANTS OVER JINX GAME.

Perrett, the pitched of the New York Giants is not a bit superstitious.

Army Men Foresee Long Stay For the Troops in Mexico

PERSHING ORDERS OLD ROAD-RED REPAIRED FOR USE BY MOTOR TRUCKS.

COLUMBUS, May 30.—Army men foresaw a lengthy stay of the American expedition in Mexico when Pershing

urgently ordered engineers to begin work on the abandoned Melimon railway roadbed to Dublin. It will be repaired so that motortrucks can be used during the rains. Many road machines were unloaded recently while carrying supplies.

Pershing today ordered severe punishment to those attempting to sell liquor near the American camp. It was reported that Mexican authorities had offered to send flowers to the grave of Corporal Starkbury, killed when the bandit Verantés was shot.

Memorial Day exercises were held at the grave of Sergeant McGhee, who died from wounds after the Parral fight. He was buried on a promontory south of army headquarters.

Mother Goose Ousted. NEW ORLEANS, La., May 30.—The Louisiana State Board of Education has put its food down on Mother Goose rhymes, throwing out a reader series because of these ditties in them. Governor L. E. Hall, Professor R. K. Honey of Duchport; Professor L. H. Gesserand, of New Orleans and Professor D. M. Atkins, of Arcata, four members of the board, who are democrats, plantation born and reared, thought they belittled the farmer.

"Now," said Governor Hall, "look at this rhyme: 'A gentleman rides gallop-trot And a farmer rides hobble-de-hoy.' 'I won't vote for a reader that contains such reflection on the Louisiana farmer.'"

The executive cited others he claimed as absurd and belittling to "that class the city folks sneeringly refer to as hayseeds and rubes."

State Superintendent of Education Harris and other members of the board fought valiantly for the rhymes but were outvoted.

Bride Waits at Jail Door. LEXINGTON, Ky., May 31.—Dr. Oscar Pullock, a dentist, son of a Chicago physician, married Miss Olga de Blanc, of New Orleans, when he left the Jefferson county jail, where he served a 27-months' sentence for forgery. Miss de Blanc had waited ever since he was arrested, more than two years ago. Dr. Pullock and his bride will make their home in Chicago, where the dentist will manufacture artificial teeth by a process he discovered while a prisoner.

While in jail Dr. Pullock inherited \$50,000 from an uncle who was killed in the German army.

Why shouldn't the Standard Oil Company make the best oil—with over 40 years experience in refining—with unequalled plant equipment? And Zerolene is scientifically refined from selected California crude—**asphalt-base**. Prominent authorities have recently declared that an oil correctly refined from asphalt-base crude can be made not only equal but superior to paraffine-base oils. Next time you empty the crank-case refill with Zerolene. Dealers everywhere and at service stations and agencies of the Standard Oil Company.

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARKOW, 1234 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barkow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

Perrett, the pitched of the New York Giants is not a bit superstitious.

especially regarding the number 13, for it was he who pitched the Giants to their thirteenth straight victory. Perrett has more than made good with the New York aggregation which is making a sensational climb toward the top of the list.

LEAGUE IS SAID TO BE DOOMED; WESTON IS READY TO QUIT

BLUE MOUNTAIN SCHEDULE IS DISRUPTED WITHOUT HOPE OF RECOVERY.

Though the Pendleton team has been rejuvenated by an injection of life-giving coin of the realm, the Blue Mountain League seems to be doomed to destruction. With the local team back in the field and prepared to finish the season, the Weston team is said to have flunked beyond recovery.

Pendleton got a team together Sunday and sent it down to Echo but Weston failed to meet Pilot Rock. According to information received here, there is little hope of that town getting back into the game and, unless another town can be influenced to join the ranks, the league will probably be disorganized. Echo has just struck her stride and is keen to play to the end, according to R. E. Stanfield who was here yesterday. Pilot Rock is also strong for going through the season and Manager McGarrigle of the Pendleton team is prepared to put up a hard fight.

Zinc production of the United States during 1915 amounted to 549,000 tons.

Clinic at Trial Promised. CHICAGO, May 31.—Francis Schlatter, medical healer, may get a chance to convert the Jefferson Market police court into an improvised clinic. For Dr. Schlatter, 78, and venerable looking as his years, has found skeptics among the police. Mrs. Adele D. Priess, a detective sergeant, had the healer arrested. Earlier in the week, hearing of the doctor's practice and practices, Mrs. Priess had paid him a little official

Let Resinol Make Your Sick Skin Well

That itching, burning skin can almost certainly be healed! The first use of Resinol ointment seldom fails to give instant relief. With the help of Resinol soap, this soothing, healing ointment usually clears away all trace of eczema, ringworm, rash or similar tormenting, sleep-preventing skin diseases quickly and at little cost. Physicians have prescribed Resinol ointment regularly for over twenty years, so you need not hesitate to use it freely. Sold by all druggists.

Is Your Toilet Soap Injuring Your Skin?

Many toilet soaps contain harsh, injurious alkali. Resinol soap contains absolutely no free alkali, and to it is added the Resinol medication. This gives it soothing, healing properties which clear the complexion, comfort tender skins and keep the hair healthy.

Genasco THE TRINIDAD LAKE ASPHALT Ready Roofing

Your roof must have power to resist the blazing sun, the forceful wind, the pouring rain, and the driving snow.

Real life and resisting power come from natural asphalt, and Genasco is made of natural asphalt from Trinidad Lake—Nature's everlasting waterproofer.

The natural oils of this asphalt stay in Genasco and make it proof against rot, cracks, and leaks.

Be on the safe side—come get Genasco for all your buildings.
