GIRLS OF NORTHWEST MAY BE MOVIE STARS

CHICAGO, June 1.—The eleven winners of the "Beauty and Brains" contest, conducted by Photoplay Magazine follows:

Western division—Florence Gray, Seattle, Wash. Lucile Zinthe, Spokane, Wash. Southern division—Olatia Marton, Dallas, Texas. Peggy Bloom, Orlando, Fla. Canadian division—Vivian Suckling, Winnipeg, Can. Eastern division—Phyllis K. Carl, Roxbury (Boston), Mass. Lucille Satterthwait, Waynesville, N. C. Eastern-central division—Estelle Claire Judy, McKeesport, Pa. Helen Arnold, Louisville, Ky. West central

division—Claire Lois Butler Lee, Wichita, Kan. Mildred Lee, Kansas City, Mo.

Miss Gray is 20 years old and was born in Ellensburg. She is tall and has gray-blue eyes. She is a graduate of Queen Ann high.

Lucille Zinthe was born in Detroit, Mich., 20 years ago. Medium tall, fair skinned, and dark eyed.

There were 10,000 entrants from every part of the United States in the contest which opened September 1, 1915, and closed March 1, 1916. About 16 were Portland girls.

French Fight Peace Move.

PARIS, May 31.—The Temps in an editorial again goes on record as not favoring any idea of peace negotiations.

"It seems," says the Temps, "that President Wilson thinks his refusal to pass judgment gives him a right to intervene. It has tolerated the violation of the neutrality of Belgium does not create for him the right to participate in the restoration of Belgium."

PRISONERS ARE PUT TO WORK ON ROADS BY GEORGIA COURT

ALL ABLE-BODIED MEN FALLING INTO LAWS HANDS ARE USED.

Cannot Be Put in Stripes or Chained; Country Also Works Women Prisoners on Large Farms; Idea is to Get Charges into Open Air as Much as Possible.

WASHINGTON, June 1.—Chatham county, Georgia, works able-bodied police court prisoners upon the public roads. These prisoners, who would otherwise be cooped up in jail, are not worked with the state or misdemeanant prisoners, and cannot be put in stripes or chained at all.

The county also operates a large farm where women prisoners or males unfit for road work are detained. The effort is to get all possible prisoners out of the jail and to give them work in the open air amid healthful surroundings.

The result, according to a report made by Judge Cann of Savannah to the National Committee on Prisons, is excellent, not only for the roads but for the prisoners. Judge Cann states that probably 90 per cent of the prisoners are negroes, of which probably 99 per cent when first put in jail are suffering from serious blood disease.

The advantage of the outdoor work is demonstrated by the fact that when the prisoners are first sent to jail more than 25 per cent are ill in one way or another. After they have been in jail some time, the sick in the jail are reduced to about 10 per cent. When they are sent out to work on roads or farm the number of sick is reduced from seven-tenths of one per cent. The wholesome food, regular hours, required sanitation, open air work, and medical supervision given the convicts works wonders for the time at least that they are prisoners, and doubtless makes for great permanent good.

The county has constructed some 59 miles of drainage canals, approximately 200 miles of small ditches, and besides these, takes care of 152 miles of drainage ditches which are not strictly public, though they connect with the public drainage canals and ditches.

Each year, as a sanitary precaution, the county cleans out and slashes with convict labor 835 miles of these ditches and canals. Last year there were 49 1/2 miles of new drainage canals and laterals dug. The county has also constructed and paved 110 miles of public roads, and has put in order 235 miles of unpaved road. All these were done with convict labor, without increased taxation or bonds.

The National Committee on Prisons is conducting a nation-wide investigation of conditions in county jails. Idleness is found to exist in the majority of these institutions, even where physical conditions are not harmful to the prisoner. The committee urges upon other counties the opportunity to benefit both their prisoners and themselves by following the example of Chatham county and developing wholesome outdoor work for idle convicts. This is a better solution than new jail buildings for overcrowded jails and will surely be adopted more and more widely.

British Food Limit Likely.

LONDON, May 31.—There is now believed to be a possibility that the people of the British Isles will be placed on meat rations. Captain Ernest Pretymann, parliamentary under secretary for the Board of Trade, said in the house of commons that although there was no actual shortage, the existing high prices arose from a deficiency due to the requirements of the forces in the field.

The government, he added, was reviewing the situation carefully.

H. S. SHANGLE NAMED HEAD OF COLUMBIA COLLEGE AT MILTON

MOST OF TEACHERS ARE RETAINED FOR NEXT TERM; OTHER NEWS NOTES.

Help make this column what it should be. Telephone your news items to Victor Canfield at 952 or 494—they will be appreciated.

(East Oregonian Special)

MILTON-FREEWATER, Ore., June 1.—H. S. Shangle has been chosen by the board of trustees of Columbia College as president and financial secretary, and E. R. Naylor who has been president for the past two years is retained as dean and head of the faculty. Miss Elizabeth Graham, Miss Anna B. Donnell, and Miss Anna Compton of this year's faculty, were retained, and it is thought likely that Miss Pimm will decide to stay in Milton instead of going to California as she had planned. There were 11 members of the board present at the session.

H. S. Shangle, who recently returned from a trip to appear before the general board of education of the M. E. Church South at Lexington, Ky., was only partially successful in securing financial aid for the local institution which has never completely paid its own way, although conditions are improving every year. Arrangements have been made, however, that will practically insure the college beginning the next school year more nearly out of debt than for years, and if conditions continue to become better as they have in the past there will be no doubt of the ultimate self support of the college, which is the only South Methodist school in Oregon.

Among out of town visitors to commencement of the college and to commencement sessions of the board were H. L. Thoroughman of Montana; C. L. McAusland of Spokane; Tauter Howard of Oakesdale, Wash.; S. E. Crow of Oakesdale; J. P. Squire, W. M. Duthie of Troy, Idaho; W. J. Smith of Heppner; and Bishop Lamouth, resident northwest bishop for this term. C. W. Thomas was re-elected president of the board, C. R. Howard, secretary, and T. C. Frazier, treasurer.

Mrs. M. L. Gray who has been very dangerously ill for several weeks with typhoid, is not improving much if any, and her condition is considered critical.

Mrs. Eaton and Howard Mansfield returned Monday night from a fishing expedition up South Fork to Skip Horton. They made fair catches of the elusive finny inhabitants of the creek, but were not overly elated over the results.

The Domestic Science department of the college served dinner to the members of the board of trustees and other visitors Monday afternoon in the basement of the administration building, under the direction of Miss Pimm, which was pronounced a decided treat by those fortunate enough to be invited.

Clyde Simpson is at Lebanon Oregon this week attending the strawberry festival at that place. He will return Saturday.

Ben Nichols is here on business from Spray, Oregon, this week. Jerry Stanton arrived from "everywhere," as he put it, Tuesday night, and left for Canada Thursday morning.

Miss Charlotte Rasmussen left Thursday morning for Ellensburg, Washington, to attend summer school at the state normal.

Margaret and Goldie Groth, daughters of School Director Henry Groth leave soon for Monmouth to study pedagogy and prepare themselves for teaching in Oregon.

The Midway has almost completed the addition to their store at the corner of Kinney and Main, which will give them nearly double the floor space they have had.

Lon Williams is going around limping on one foot as the result of an encounter with a cow. The cow and Lon were of different opinions as to the way the cow should enter the barn

NEW ARRIVALS

IN OUR LADIES' READY-TO-WEAR DEPT.

You will find some of the most beautiful new lingerie waists and and Sport Skirts ever shown in Pendleton. Notice our window display of these beautiful Waists at only \$2.48 each.

ALEXANDERS

and the cow had a little the better of the argument.

Murray Reed was unable to work in the garage Wednesday on account of sickness.

Memorial Day was fittingly observed in Milton-Freewater Tuesday. Automobiles conveyed members of the G. A. R. to the L. O. O. F. cemetery where the beautiful memorial service for departed comrades was read by the commander and chaplain. Graves were decorated and taps sounded for the dead. A banquet was served in the hall to members and ladies of the G. A. R. and visitors, and an interesting program of readings, speeches and music was given.

W. K. Biley of Ellensburg was a Milton visitor Sunday, with his mother, Mrs. Clara Biley, who has been here for some time.

L. R. Petty drove down into the Hudson Bay country on business Tuesday afternoon.

"A Coroner of the Campus," given at the college Tuesday night proved to be one of the most entertaining and best presented entertainments of a season of exceptionally good programs.

W. D. Root of Walla Walla transacted business in Milton Wednesday afternoon.

SUN IS BADLY NEEDED FOR GROWING CROPS

PORTLAND, Ore., June 1.—The local office of the weather bureau reports crops throughout the state:

At the beginning and end of the week the weather was showery and cool while the intervening days were generally fair and warmer. On account of the low temperatures and lack of sunshine gardens and crops generally made very unsatisfactory growth. Alfalfa and other grasses, however, continued to advance and reports indicate that meadows and ranges generally are in good condition and that livestock are thriving. In some northeastern sections, on account of scarcity of hay, it has been found necessary to begin cutting im-

mature alfalfa for stock, and cutting will probably be general next week.

The showery weather hindered agricultural operations in many localities, but most of the plowing in grain sections is completed. Unfavorable weather besides retarding the growth of grain has resulted in an increased growth of weeds, particularly tar-weed.

The ripening of strawberries and advancement of other fruits has been delayed. Indications point to a good crop of apples and pears and a fair yield of peaches, cherries and prunes. There is considered to be an ample supply of water available for summer irrigation purposes.

Warmer weather with sunshine is needed.

Guard Oath Investigated.

LINCOLN, Neb., May 31.—The United States war department has called on Adjutant-General Hall to furnish it form copies of the oaths taken by Nebraska national guard officers and privates. Nebraska has two forms, one for officers and one for privates. The officers' oath merely agrees to serve the state, obey the commander-in-chief and the laws governing the military forces of Nebraska, while the privates' oath says: "I bear true faith and allegiance to the United States of America and the state of Nebraska; that I will serve them honestly and faithfully against all their enemies whomsoever."

It is said the war department is investigating whether Nebraska guardsmen can be compelled to serve if called, and as to whether a stand stillment might occur in Nebraska.

Famous Brooch for Sale.

WASHINGTON, May 31.—The famous diamond brooch which Ismail, Khedive of Egypt, presented to General William Tecumseh Sherman in 1875 appeared in a local jewelry store for exhibition and sale.

It is accompanied by an affidavit by Mary Elizabeth Sherman that the brooch is a part of the gift of the Khedive. Miss Sherman disposed of

the brooch several years ago to a collector and it has just found its way back to the market, it is reported, through a New York congressman. The brooch contains 101 diamonds, the largest over five karats and several weighing over four. The setting is in gold and platinum. The display is attracting great attention.

Macdonian From Active.

PARIS, May 31.—Reports received from Salonika by the Havas correspondent at Athens are that a violent bombardment in the sector from Doiran to Gievelli, on the Macedonian front, has been accompanied by infantry actions. The wounded are reported as being brought in from the front by Red Cross automobiles.

What is Home Without an Hair!

This is a subject that has a place in all minds in all times. And it naturally directs thought as to the comfort of the mother during that wonderful period of expectancy. Mothers who know recommend "Mother's Friend." It is an external remedy for the stretching muscles, enables them to expand without undue strain, assists the organs to crowd against nerves, to pull at ligaments to thus avoid pain.

This restless days are assured, peaceful nights are experienced, morning sickness, headache, oppression and other distresses are among the various things which women everywhere relate they entirely escaped by using "Mother's Friend." And by its effect upon the muscles the form is retained and they return to their natural, smooth contour after baby is born.

Get a bottle of this invaluable aid to expectant mothers. Any druggist will supply you. It is harmless but wonderfully effective. Write to Bradford-Regulator Co., 413 Lamar Bldg., Atlanta, Ga., for a specially written guide book for women interested in the subject of maternity. It will prove an inspiration. It contains information that every woman should know all about. Write today.
