Latest News by Telegraph.

Dates to June 1.

[NOTA BENE.—Local readers will find interesting dispatches, extracted from the Portland and San Francisco papers, which have not been given in the Salt Lake City Vedette.—Ed.] New York, May 30.—The match between Ethan Allen against Brown George, with running mates, made heats, for a purse of \$1,000, was won by the former. Time, 2:29, 2:21 and 2:19. The latter heat is the fastest on record. The Union Pacific Railroad, Eastern division, earned \$108,784 in April. The President has definitely declined visiting Boston. Sheridan has extended the Registration until June 20th. Gen. Swayne's report of the Mobile riot exonerates the whites from the charge of planning the riot, which was precipitated accidentally, rather than by design. Gen. Thomas has full instructions to look after Brownlow's army, and protect the rights of citizens. The Republicans of the Fourth Ward have nominated a negro for Councilman. As this is an Irish ward there is no danger of his election. Maffi, the Rebel pirate, has applied for pardon. He had an interview with the President. Gen. Thomas unhesitatingly recommends a non-interference policy in Tennessee matters. The Congressionalists in Boston and Chicago are considering a measure to supply the vacancy caused by the withdrawal of the Independent as their organ. The Times says well known and wealthy citizens have offered a call to start a new Independent, which he is considering. An order has been issued appointing Military Commanders for the sub-districts of Virginia, to aid the civil authorities with the presence of troops. They are to command the troops in their respective districts and act as Justices of the Peace. The President has appointed, among the cadets at large for 1867, John B. Weller, Jr. Letters from Texas report Quantrell's gang deprecatory along the frontier to Arkansas, on the border of Carr and Shelby counties. KINGSTON, C. W., May 29.—A crowd assembled on the wharf to-day to see Jeff. Davis, who was on the steamer that returned from Toronto. New York, May 30.—The Times reports that Davis has bought a house in Montreal, and also that a banquet was proposed by sympathizers. A Washington special says the President declines to interfere with Sheridan. Col. Long of the President's household, in his testimony before the Judiciary Committee, denies Baker's report of an interview with the President regarding Mrs. Cobb. The testimony of Mrs. Washington also contradicts Baker's. The Tribune says it is reported that the President of the Fenians will leave for Europe on Saturday next, to visit Paris, Rome, Madrid, Florence, Turin, Berlin and Vienna, to confer with the leading Liberals. It is said he will return on the first of August, when it is almost certain that an invasion of Canada will be begun. Lindsey, the son whipper, was released on bail for a new trial. The President arrived at Richmond on Sunday night, at the Spotswood House restaurant. John Hay has been appointed Charge d' Affaires at Vienna. A special to the Boston Herald says: Gen. Grant has informed the President of an anticipated general Indian war. Representative Farnsworth commences a tour through the South to-day. He will make addresses at Charlotte, Salisbury and Concord, N. C. Three Eastern Georgia colored lawyers on the other side are also making a tour. The Times' Washington dispatch says: It is stated here that Greeley has written to Breckinridge to return and take an active part in reconstruction, regarding the letter to Breckinridge with a private note intimating the contents. Boston, May 29.—The anti-slavery Convention adopted a resolution condemnatory of Johnson's policy toward the rebels. The seventh resolution is to the effect that "the release of Jeff. Davis proves that the South still triumphs in the executive councils, and calls for strong measures of confiscation and free lands for the negroes." Wendell Phillips said that when the Executive released Davis he bid for the support of the ten Southern States, and he would not be content until the Indians nominated a black man for Vice President, to strengthen the party. Secretary Wilson declined to speak before the Convention. The Union League was defied by Greeley, and conquered. Attorney-General Stanbery's opinion on the right to vote and hold office under the Reconstruction Act, fills four columns of the Tribune. He elaborately examines the leading sections of the Act which exclude certain officers who have taken part in the rebellion, military officers included. He holds that it does not apply to municipal officers, which are not strictly State, judicial or executive officers. The uncertain definition which is in controversy must be construed in favor of the voter. A vast body of officers are not positively excluded. Disqualification is based on the breaking of the oath, and comprehends the military as well as civil officers, but applies more generally to State officers. The phrase "enemies of the United States" should be strictly confined to foreign nations. It is not quite prepared to say Congress may not have used it as applicable to the rebellion. Republican papers are dissatisfied with the opinion. Surratt's counsel will present Booth's diary in evidence. He says it does not implicate him (Surratt) in the assassination and it is worthless except to prove an alibi. It is not probable that the diary will be admitted. Disfranchisement of land has been bought for Southerners, at fifty cents per acre, for purposes of colonization. One hundred families are expected to arrive by the next steamer. New York, May 31.—Gen. O'Neil, Fenian chief, has been traveling incognito through Canada for six weeks, and has returned after having taken plans of Canadian forts. The Canadians pay no heed to reports of Fenian invasion. The Herald's special says South Carolina will have 45 white and 60,000 colored voters under the registration. Chas. O'Connor has expressed the opinion that slave-trade has been largely abolished by that amendments to that effect have no place in the Constitution. The great trot between G. M.
