KRUGER LANDED

Received a Great Ovation From the French and Boer Delegates.

FIGHTING A BARBAROUS NATION

Crowd Cheered Madly and Cries of Vive Kruger Were Heard—Thanked the French People.

MARSEILLES, Nov. 22.—At ten forty-five this morning President Kruger landed from the cruiser Gelderland and received a vociferous ovation. After much hand shaking the police made a path to the carriages and the procession started for the hotel. The Boer president occupied a leading carriage and was cheered wildly along the route.

MARSEILLES, Nov. 22.—It was ninety-three when the Gelderland entered the harbor, firing a salute of twenty-one guns, to which the light house battery replied. The streets and quays presented an animated scene, the decorations having been restored. The Boer flag crossed with tri-color predominating. There was a great jam of people on the quay with the Boer delegates in the foreground who joyously hailed the aged president. When Kruger appeared the crowd cheered madly and "Vive Kruger" sounded in a steady roar. Leyds went out to the cruiser early and returned with the information that the president would not land till noon but the committee protested, having waited already thirty hours and were getting tired, so Kruger was urged to make haste.

Upon landing Kruger made a speech thanking the French government for its sympathy with the Transvaal government and the cordiality of his reception. His remarks were generally cheered, but ironical laughter at reference to the French government's reception caused a temporary disturbance. Proceeding, Kruger said:

"Since Janison endeavored to conquer the country without making a fight a terrible war has been thrust upon us, notwithstanding our reiterated claim for arbitration, which had been refused by England. The war is a barbarous one but we have been fighting a barbarous nation."

Kruger then thanked the committee for their good wishes and the people of Marseilles for their hearty reception. He expressed himself as profoundly touched by the welcome of France, which was the home of liberty. Referring again to the Transvaal Kruger said their farms were being burned and their wives hunted from their homes while their husbands were fighting on the battle field. But whatever was done the Boers would resist to the bitter end. Messrs. Leyds, Grabber and Figher stood behind Kruger while the speech was delivered.

Despite the great enthusiasm in town there has been an entire absence of anti-English demonstrations.

Kruger spoke in dutch, Von Hammer interpreting. After reaching the hotel Kruger appeared for a moment at the balcony and bowed to the crowds, who continued cheering long after he disappeared.

Kruger granted an exclusive interview to your correspondent at the Hotel Denoilles. Through an interpreter he said:

"I come to Europe simply to appeal for intervention. No, the Boers will not immigrate to Cemerals, they will conquer or die on their own soil." It is reported the Boers are out of funds and that you are bringing all available cash with you. "That is untrue. Schalkbarger keeps the Transvaal treasure." What will you do if intervention fails? "I shall remain in Europe. Where will you go from here? "Paris, Brussels, Hague, Amsterdam and St. Petersburg." Kruger

would add nothing to the surprising statement of going to St. Petersburg.

Irish Nationalists Meet.

CHICAGO, Nov. 22.—In accordance with a custom of many years standing the Irish Nationalists of Chicago will gather at Central Music hall tonight and with appropriate speeches will celebrate the anniversary of the execution of the Manchester martyrs. A unique feature of the celebration this year is to be reunion of the only survivors of the band of fifteen, known in the history of the Irish cause as the "Manchester Rescue Party." It is thirty years since they made their daring and successful dash for the liberation of Col. Thomas J. Kelly, leader of the Fenian party in Ireland, and his assistant, Captain Deasy, from the hands of the English police while they were being conveyed to prison in a van. Three of the party, Allen, Larkin and O'Brien, died on the scaffold for their participation in the rescue. Many of their companions were confined for years in prisons, while a few escaped to America. The six survivors who will meet in reunion tonight for the first time since Sept. 18 1867, when they attacked the prison van and liberated their leaders, are R. S. O'Burke of Chicago, Joseph Keeley of New York city, Thomas O'Boeger of Rochester, Peter Rayan of New York city, James Stoneman of New York city and James Cahill of Lowell, Mass.

At their respective training quarters today both men are reported as in fine condition for the fight.
