

Paraphrastically Cold

There is no school today the Thanksgiving vacation closed the school till Monday.

The Valley Lumber & Manufacturing Co., received two carloads of lumber and one of shingle, yesterday.

Twenty carloads of wood and four of coal have been received in the last three days. The market is now easy and in good shape for another cold snap.

The board of directors of the fair association, will meet tonight to consider some matters of detail in the arrangement of future racing meetings at the track.

Laurie Hastings entertained about thirty of his school friends at his home on the hill last evening. Singing and dancing were the amusements of the evening. Luncheon was served.

A decision received from the commissioner of the general land office, settles the contest between E. Hering and A. Walston in favor of Hering. The land involved is 160 acres on the reservation line near Cavendish.

Dirt will begin to move on the new street improvements not later than Monday. Contractor W. H. Reid and the city engineer will locate lines on the fifth street cut this afternoon and the gravel taken out will widen the street to the regulation width.

J. B. Perkins and Ed. L. Knight, returned last evening from the mining country on the North Fork, where for five weeks they have been doing development work on the Murray claim. They came out on a raft and brought some fine looking ore for prospecting.

The funeral of S. D. Shurte of Clarkston was held at 2 o'clock yesterday afternoon under the auspices of the Modern Woodmen of America. The lodges of Lewiston, Clarkston and Asotin were in attendance, the Artisans of the same place assisting. Mr. Shurte carried \$2000 insurance with the Modern Woodmen and \$2000 with the Artisans.

The issuing of a marriage license Wednesday to Etsay-ay-awits and A. A. Pips, two Nez Perce Indians, has a sequel to it. Etsay-ay-awits is familiarly known as coyote, and A. A. Pips has been his acknowledged wife for 30 years. Coyote is very sick, and, realizing that he is shortly to journey to the "happy hunting ground" and fearing that the white man's law might step in and deprive his faithful companion of an inheritance which she has helped him to acquire, he dispatches a friend after a marriage license and an Indian minister made them bride and groom.

There will be a meeting of the directors of the Athletic club tonight to consider the advisability of a tour with the team to play the Walla Walla and Multnomah teams. Negotiations will then be made to secure dates with these clubs. Since the game of yesterday, showing the comparative strength of Pullman and Seattle, as compared with Moscow, the athletics feel that they have one of the strong teams of the northwest. Idaho university

defeated Washington University, the Washington Agricultural college defeated the Lewiston team but could not defeat the Washington university, while Lewiston played a tie game with the Idaho university. This places Lewiston among the leaders and should lead to a championship series with Pullman, Lewiston and the University teams.

The dance given last night by the L. A. A. C. was a thorough success. The attendance was good and everyone in a proper mood to enjoy the pleasures of the evening. The news of a tie game between Seattle and Pullman added much to the general good spirit, Moscow having defeated Seattle and refused to play off the tie with Lewiston, easily ranks the L. A. A. C. first among the teams of the northwest. About midnight supper was served, and to say that it was served by the Rathbone Sisters conveys to the public an idea of its deliciousness. The music furnished by Bainbridge's orchestra was excellent.

Suits will be begun against the parties who have been delinquent in cutting out scale infected trees. A. McPherson, state fruit inspector, is making complaints today to place in the hands of District Attorney Danford. A test of the law will be applied at once. The cases will be brought up at once.

Blew out a Fusible Plug.

Just as the steamer Lewiston was ready to depart this morning the fusible plug in the crown sheet blew out and caused a delay of two hours in her starting time. By government regulation each boiler must carry in the crown sheet one fusible plug as a safety precaution. In case the fire gets low the heat melts the lead and babbet fuse in the brass plug and the steam and water coming in puts out the fires. Under ordinary conditions with all due precautions a plug will last about a year. Sometimes, however, the metal fuse is too soft and soon blows out. The plug that blew out this morning proved to be a very soft one as it had been in use only about a week.

The L.A.A.C. boys won only the third game of the series. The High School club organized last September at the beginning of the school year. The club rooms are on the third floor of the old building. The boys are in daily practice and proved dangerous competitors for the L.A.A.C. champions. There will probably be a return match in a week. dent, while the number cast for governor was only 56,973. For representative in congress the number of votes was still smaller, only 55,966, and for other places on the ticket the vote shows further shrinkage. For auditor, for instance, 55,402 persons voted; for school superintendent 55,370 and for mine inspector 55,012.
