The second term of school at the Benton Seminary opened Monday with a good attendance. Since this school was opened ten months ago, nothing has added more to the fame of Camden than the excellent school facilities afforded the children of Benton and the adjoining counties. Not only have they added to the material wealth and welfare of the town, but they have served to gather a community of intelligent and energetic people which makes Camden pre-eminent as the educational center of this and surrounding counties. No effort or cost should be spared in the future to maintain the high excellence which the school achieved during last year.
