MONEY

When you have money to deposit in Bank the first thing to consider is

SAFETY

This you have in depositing in the First National Bank, which gives double the amount of security of any bank in the county. If you have idle funds, get a certificate of deposit which draws interest.

Why put your money in a State or private bank, where there is no examination of the bad paper and over drafts?

All the assets of the First National Bank are examined twice a year by a Government officer.
