Comparison is the Only Test of Value  
We ask for it on the Forbes

If all you are after is a good looking Piano, you can buy it of almost any dealer. But, if you want a Piano for the music there is in it, it will pay you to get the Forbes. The Forbes has a tone that is pure, rich, and rippling, and it is a tone that will endure for years, growing sweeter and more sympathetic as it grows older in your companionship. The Forbes has acquired distinction also for the artistic architectural lines of its case designs, which have served as models for nearly all the piano manufacturers of this country.
