Blanche Tinsley, Sec.

One of the largest crowds that was ever in Gainesboro, came last Saturday to attend the "Agricultural Fair" which was a success beyond what was anticipated. The exhibits of corn, sweetpotatoes, Irish-potatoes, turnips, pumpkins, beets, sugarcane, apples etc, as fine as you ever looked at. The other departments had a splendid variety and collection of nice things. In fact every thing exhibited was superb, and every one present had a most delightful day. We desire to say that our hustling, entergetic and never-tiring county agent, J. B. Baker, deserves the greatest praise for bringing about and getting this fair up. It certainly took nerve and energy, and was worth hundreds of dollars to the county at large. Three cheers for Baker. The prize winners will be published next week.

The Banks of Gainesboro and Granville, showed their patriotism and sound judgement by subscribing \$10,000 each to the second Liberty Loan. They realize this money comes right back to their customers, as it enables the government to buy the products of the farm to send to the boys in the trenches, who are fighting for our country and liberty. What about you Mr. Farmer, have you bought your bond? Don't shirk your duty, the government needs your help in order to put Kaiserism off the map.

### Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean, as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

## Black-Draught

Mrs. W. F. Pickle, of Rising Fawn, Ga., writes: "We have used Theford's Black-Draught as a family medicine. My mother-in-law could not take calomel as it seemed too strong for her, so she used Black-Draught as a mild laxative and liver regulator. . . . We use it in the family and believe it is the best medicine for the liver made." Try it. Insist on the genuine—Theford's. 2c a package. E-75

county, although there are many more here from Tennessee.

I registered in Okla., and was sent here from that State.

We have the finest of men for officers. Are well fed and furnished good bunks on which to sleep. Of course we rookies are green, but the officers and men, who have been here before us are careful to give us all the information we ask for, and give it in the right manner. Every man here is equal. There is no big I's and little U's. As for me, I like the life fine, there are men here, who are so blue they do nothing but "sorehead it," as we boys call it.

I am in one of the best branches of the service, that of Army Engineer, and we are a busy lot. There is lots of the services and duties required of us, that I don't know yet, and will not for some time to come. The following are a few of the duties required of us in time of war. The use of explosives; the construction and wrecking of bridges; trench digging; erecting lines of communication between one line of entrenchments and another; the proper construction of entanglements; signaling and of course the use of modern fire arm and methods of self protection. All branches of the service are taught, boxing, swimming and ther physical exercises. I sure

### A WORLD WAR

It started in the kitchen. A statesman ate impure food —gave him indigestion—quarled with another statesman—the war was on. Avoid the horrors of indigestion by buying pure groceries and eats from the pure food store. That's the kind you buy when you trade at Luke Dennis'. I keep the purest and best that money can buy, and will not sell any inferior, impure or defective groceries if I know it. I am fishing for trade, with service and fair dealing for bait. Satisfaction in every transaction guaranteed. I want you to be my customer, and I assure you, you will never regret it. Come to see me when in town. Always glad to see you, whether you buy are not. Fresh bread, pure and wholesome.

**LUKE DENNIS, GAINESBORO, TENN.**

am glad I am in the service, for they certainly make a man of you.

As for service in France, we can't say, but hardly think there will be any of us ever see any service over the "pool". If any branch of the service goes we engineers will be among the number.

As this is my first attempt at news-paper writing I'll close.  
Respectfully,
