### THE PEACE OUR SOLDIERS WANT.

The Stars and Stripes, the official newspaper published by the soldiers of the American Expeditionary Forces in France, says editorially about the enemy peace offensive:

"Let the weak hearted who are dreaming of a compromise; let the pacifists who are talking a peace by agreement; let the sideliners who have had enough of war; let the secretly inclined pro-Germans who think this war should end without a decision—let them one and all know once and for all that for the American Expeditionary Force there is no such word as 'Peace' with the Huns unbeaten. The man who talks of peace today, except through victory, is a traitor."

The enemy peace offensive is likened to the action of Germany machine-gun crews in the Vesle fighting, when they fought and killed Americans until they were surrounded, then shouted "Kamerad."

The mothers of the American soldiers in France want the same peace their sons demand. All the courage of the ancient Spartan mother is in the hearts of the women of America.

The object of the Fourth Liberty Loan is to bring that peace—a just peace, a righteous peace, an American peace.

If we fail to float this bond issue, it will be the saddest news that the Jackson county boys "over there" will ever hear. They are watching with rapid beating pulse, the outcome of this Bond issue. When they get the news, let it be "over the top."

Robert, the 14 year old son of Mr. and Mrs. W. E. Smith, Jr., of Gainesboro R-1, died Tuesday evening from influenza. He had been sick only ten days. Funeral service was held Wednesday morning at the Stafford cemetery.

The following districts have subscribed to their quotas for the Fourth Liberty Loan: 2nd 3rd, 4th, 6th, 7th, 12th, 14th, 15th.

Hon. John Trotwood Moore accompanied by Sergt. DeMyer, spoke to four different audiences in the county last Friday in the interest of the Fourth Liberty Loan. They came to Gainesboro from Whitleyville, and in spite of the late hour, they were greeted by a good sized audience. Their talks were enjoyed and well taken, by the much enthused crowd of patriots, who applauded heartily every few minutes.

Sheriff J. M. Spurlock, is suffering from two broken ribs, and it is feared other internal injuries, by being thrown from his horse Tuesday afternoon about 1/2 mile south of town. He was picked up by an incoming car and carried home. Dr. C. C. Fowler, who was called immediately, made examination and found that two of not three ribs were broken near the spinal column, and he fears other injuries. He rested bad Tuesday night, and his condition at the time of going to press, Wednesday evening, has not improved.

B. C. Spivey, a well known farmer of R-2, died at his home Sunday afternoon. He was taken with grip, followed by pneumonia, which made his illness of short duration. Mr. Spivey has many friends and relatives over the county who will be deeply grieved to hear of his sudden death. The deceased is survived by his wife and several children. Funeral service was held Monday, with interment in cemetery near the home.

The members of the Methodist church here, as well as his friends are very much gratified that Rev. O. P. Gentry has been returned to the Gainesboro circuit for another year. We extend to him and his dear family a hearty welcome, and trust that his untiring efforts may be crowned with success during this year. Rev. Gentry returned home from Lebanon Tuesday, where he attended annual conference.

## HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady.  
Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Price, of this place, says: "After the birth of my last child... I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time..."

I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. —about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles... After about the second bottle I felt greatly improved... before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

## It stirs every American heart

Who was not thrilled to read of the American soldier who supported a wounded comrade, and fought his way with the little detachment back through the Boches to the American lines?

That is only one deed of heroism among the many happening every day and looked on as a matter of course by the boys fighting for us over there. It shows the stuff that's in them. They are our own sons and brothers. Is the same stuff in us over here?

We have the opportunity at home to show our patriotism by other deeds of valor. We can fight and we MUST fight. And we must WIN, no matter how heavy our burdens may be.

Our former habits are the Huns we've got to battle with. We can't go on living as we used to. We can't go on spending our money for things we like. We must set up new standards—war standards—and stick to them—loyally.

From now on there can be only one standard for those of us who fight behind the lines—by saving and lending

## Ice Boxes on Wheels

Refrigerator cars for carrying meat are ice boxes traveling on wheels.

Most people in America would have to go without fresh meat, or would have to pay more for what they could get, if it were not for these traveling ice boxes.

Gustavus F. Swift, the first Swift in the packing industry, saw the need of these traveling ice boxes before others.

He asked the railroads to build them. The railroads refused. They were equipped, and preferred to haul cattle rather than dressed beef.

So Gustavus F. Swift had to make the cars himself. The first one was a box car rigged up to hold ice. Now there are 7,000 Swift refrigerator cars. Each one is as fine an ice box as you have in your home.

Day and night, fair weather and foul, through heat and cold, these 7,000 cars go rolling up and down the country, keeping meat just right, on its way to you.

Thus another phase of Swift & Company's activities has grown to meet a need no one else could or would supply, in way that matched Swift & Company ideas of being useful.

When you see one of these Swift & Company cars in a train, or on a siding, you will be reminded of what is being done for you as the fruit of experience and a desire to serve.
