Pathe instruments—Pathephones—built under rigid specifications by the Pathe-Feres Phonograph Co., Paris-New York, in the excellence of tone, in the beauty of cabinet design, in the finish of the woods, and in the care of assembling, is the most perfect phonograph that human skill and genius can produce.

The Pathe Sapphire Ball which does away with old fashioned steel needles, glides smoothly around the record like a drop of water. This round polished jewel fits exactly into every record groove and accurately reproduces every shading of the selection. The music flows off; no needles to change; no needles to buy; always ready to play. No wear on the records; every Pathe record guaranteed to play 1000 times.

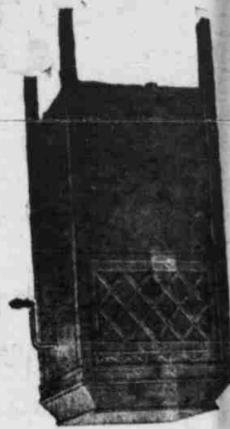

The Pathe All-wood Violin Tone Chamber eliminates the harsh metallic sounds, so objectionable in ordinary talking machines. It matters not whether it be the delicate tones of the ukelele; the rich, resonant tones of the trombone; the soft mellow tones of the flute, or the various tones produced by the human voice—all are reproduced faithfully.

The Pathe Controla enables you to play any record loudly or softly with the same Sapphire Ball. The martial strains of a Pathe Band Record can be softened for your drawing room, or you can make the lively Jazz of the latest dance loud enough to be heard over the dance floor.

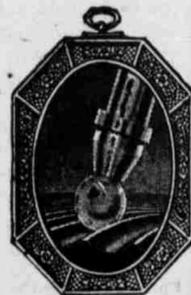

The Famous artist of Europe and America are making records for the Pathe, because they know that only on the Pathe records are they sure that every shading and expression of the selection as they interpret them, are faithfully reproduced. You can hear the best songs and opera arias, the popular marches and symphonies on the Pathe records.

Keep up with Broadway. Pathe has the latest hits first and best; the new songs that Broadway is whistling; the popular one-step, Jazz and fox trot. The best orchestration of the new songs, and the most unusual novelties are always found on the Pathe records.

And remember, the Pathe plays all makes of records, yet the Pathe cost no more than other standard machines.
