Executor's Land Sale

RIVER BOTTOM FARM

August 11, 1920, 10 A. M.

We will offer for sale at auction two tracts of land, containing about 150 acres, located on south side of Cumberland river, opposite Wright's Landing, two and one-half miles from Dixon Springs and one mile above Cedar Bluff.

One tract of 40 acres being the land of the late H. C. Hughes to be sold by his executor, J. W. Hughes for division. 105 acres joining this, owned by W. W. Jones, will be offered at auction at the same time and place. The two tracts are originally the same farm. Nearly all of the 40-acre tract is good bottom land and in cultivation. The 105-acre tract contains about 65 acres of good tillable land and two good grass lots; good improvements consisting of one good story and a half dwelling with 8 rooms, out-houses and tenant house; one good feed barn, one grain and tobacco barn, two everlasting wells—one equipped with gasoline engine, also a pond, plenty of fire weed. This 105-acre tract, with its improvements, makes an ideal small farm. However you will have an opportunity of buying either one or both tracts.

TERMS will be the same on both places—note for one-third with personal security payable January 1, 1921, when possession will be given; equal notes for the remainder payable in one and two years from January 21, 1921; with interest payable at annual rests. A vendor's lien will be retained to secure deferred payments.

\$10 cash will be given to the one present who guesses nearest to the amount the place brings; \$5 for the second nearest and \$1 each for the next nearest five guesses.

For further information, call on or see J. W. Hughes, Cedar Bluff, Tenn., or W. W. Jones, Dixon Springs, Tenn.

SALE TO TAKE PLACE ON THE PREMISES

When the train came in back in 1910

TEN years ago you might have seen one or two automobiles waiting outside the station, when the weather was pleasant.

Today the square is crowded with them. And most of the cars you generally see there are moderate-price cars.

Anybody who tells you that owners of moderate-price cars are not interested in the quality of their tires has never met very many of them.

We come in contact with the small car owner every day and we have found that he is just as much interested as the big car owner.

There is one tire, at least, that makes no distinction between small cars and large cars so far as quality is concerned—the U. S. Tire.

Every U. S. Tire is just like every other in quality—the best its builders know how to build.

Whatever the size of your car, the service you get out of U. S. Tires is the same. It isn't the car, but the man who owns the car, that sets the standard to which U. S. tires are made.

We feel the same way about it. That's why we represent U. S. Tires in this community.
