More Republican Promises.

Representative Slem, of Virginia, one of Senator Harding's campaign lieutenants, promises that if the Republicans are successful in November they will reduce the living cost by reviving the excess profits tax, by repealing the transportation tax, by increasing the tariff schedules and by modifying the income tax laws.

The Republicans have controlled both houses of Congress since May, 1919. Why, Mr. Slem, have they not already done these things? Certainly it wasn't for fear of a presidential veto, because the President more than once asked Congress to do at least some of them.

The Republican proposal (a separate peace with Germany) means dishonor, world confusion and delay. It would keep us in permanent company with Germany, Russia, Turkey and Mexico. It would entail, in the ultimate, more real injury than the war itself.—Gov. Cox in his speech of acceptance.

The further he goes along, the plainer Mr. Harding makes it that if elected he will be just the kind of a President the Senatorial cabal needs in its business.—St. Louis Post-Dispatch.

Only Ask America To Play Fair With World.

Baltimore, Md.—Europe is still unsettled and hoping the United States will play fair with the rest of the world, according to Brig.-Gen. John M. T. Finney, who has just returned here from the Inter-allied Surgical Conference at Paris. Dr. Finney was the chief consulting surgeon for the American Expeditionary Forces during the war. He declares it is "a sin and a shame that America has put herself in the position of breaking faith with her allies."

Referring to America's leadership in establishing a concord of peace, Gen. Finney said: "The Europeans cannot understand the position America has taken and, indeed, there was very little that could be said by way of explanation. America is placed on the defensive without much of a defense."

Before He's Hurt

The little fellow who sets up a howl when the only thing that something is about to befall him, isn't so much different from some grown people. For instance, those who buy out of town simply because they think that our local stores do not have what they want—these folks are very much like them.

It isn't fair to accuse our local merchants of not having up to date goods if you only think it. Neither is it fair to them or to yourself for you to go elsewhere when they do have, or can get, what you want.

Make it a habit to go to your local dealer first. When he finds that you are going to give him a chance, he'll make every effort always to have the goods you like.
