

90 DAYS SALE POLICY

FOR

CASH OR BARTER

We have decided to continue for NINETY DAYS our policy of selling goods at or under present market values.

In order to do this we must buy and sell for cash. So we are going to ask all of our friends and customers, as well as others, who believe in getting the most for the money to co-operate with us, and we promise to give them the benefit at all times of the very lowest prices that will be possible for us to make at the time on every item sold in our store.

All goods will be marked in plain figures and prices will be changed from time to time as market conditions justify.

Stick to us and we will pay you the highest possible price for your barter and will sell you goods as low as they can be sold for cash.

With best wishes for a prosperous year, we are,

The Big Country Merchant

It is service to the rural community that makes the big country merchant big. That's what A. B. Macdonald discovered when he began writing the stories of their success for

The COUNTRY GENTLEMAN

He found that the rural merchant prospers as he helps his neighborhood and county to prosper; that his custom will grow as his ability to render prompt, efficient, thorough and fairly-priced service increases.

In next week's issue Mr. Macdonald tells of a small-town hardware store that has, by honest dealing and constant endeavor to serve, established itself in a wide and secure trade. Clarence Budington Kelland, in the same issue, tells of a village general store that weathered mail-order and chain-store competition by making itself a vital factor in the lives of its patrons.

For every farm-community problem THE COUNTRY GENTLEMAN offers week by week guidance—pointing the practices that pull counties, as well as individuals, "out of the rut." This is just one aspect of a service as broad as our whole farm industry. To enjoy it for a whole year just send me, today, \$1. for the next 52 issues of this big, practically helpful weekly.

It saves you time, worry and money

YOU CANT DODGE IT

Once in Awhile Your Blood Clogs and Your Vitality Runs Down

THEN TAKE PEPTON-MANGAN.

You'll Pick Up Again Quickly With Plenty of Red Blood Corpuscles.

Physicians nowadays take a blood test when you are run down. They count the red corpuscles in your blood. If these are too few they give you a tonic for your blood. It happens right along. They are always on the lookout for indications of weak blood.

Why? Because they know when your blood is weak your resistance to disease is low. Your vitality and energy quickly run down.

You can tell when your blood is weak. You look pale, feel tired. You are not ill, but you don't feel right. You don't want to do things. That is the time to take the well-known tonic, Pepto-Mangan.

Pepto-Mangan builds red blood corpuscles. Physician have prescribed it thirty years.

Pepto-Mangan is sold in liquid and tablet form. The medicinal value is exactly the same. Take either kind you prefer. But be sure you get the genuine Pepto-Mangan—"Gude's." The full name, "Gude's Pepto-Mangan," should be on the package.
