## 30x3 1/2

## STANDARD NON-SKID

### The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3 1/2 inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 26,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to \$13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years---four plies long staple fabric---extra gum between plies---heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

#### Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history: 30x3 1/2, \$24.50; 32x4, \$46.30; 34x4 1/2, \$54.90.
