

New Department Opening Big Success.

The Bargain Basement opening of Quarles & Reeves Co., on last Saturday was the most successful affair of its kind ever pulled off in this town. Long before the opening hour the crowd began collect and when the doors thrown open at 9 o'clock several hundred people immediately rushed in. The store room was crowded all day, twenty-two extra sales people were kept busy waiting on the happy good-natured crowd. There appeared to be a regular holiday spirit abroad and every one enjoyed the event to the utmost.

Quarles & Reeves Co are to be congratulated on their foresight in bringing to Gainesboro and Jackson County an institution of this character, which is not usually found out side of congested sections in our great cities. We wish them much success in their new enterprise.

HONOR ROLL OF PRIMARY GRADES.

2nd Grade.

Howard Anderson, Phillip Anderson, Joe M. Brown, Henry Elkins, Hershell Hunter, Rex Leftis, Lola Maynard, Louise Roberts.

1st Grade

Robt Davis, Edwin Draper, Jessie Hunter, Jack McCain, Fred Roberts, Marshall Whitaker, Mary Anderson, Mary Maynard, Helen Sue Settle, Martha Lou Smith.

No doubt there are some of my pupils, who are wondering why their names are not among those on the above honor roll, and also of each week.

If your names fails to appear don't forget to remember that you have failed to come up to some of the rules. Before a pupil can be on the honor roll, they must be present every day during the week, answer roll call each morning and noon, and average not less than 75 per cent on their work for the week. These are our most important rules.

LOST—Somewhere in Gainesboro, an old roll-seated saddle with iron stirrups. Finder will please notify me, or leave it at the Sentinel office. Henry Smith, R-2, Gainesboro. adv.

Making 20 Years of Racing Serve Car Owners Today

IN the early days of automobile contests, Barney Oldfield—out to win every race—studied tires. His consistent success led other drivers to ask for tires constructed to his specifications.

Twenty years of road and track victories—with a steady and increasing demand for tires as he built them—convinced Barney Oldfield that these speed tests pointed the way to a better tire for everyday use.

The enthusiastic reception of Oldfield Cords by the public proved he was right. Scores of the most prominent dealers in the country—and many thousands of car owners, experienced in the use of tires—bear witness by their decided preference that Oldfield is doing a bigger and better job of tire making.

This volume, handled in an effective way in every phase of manufac-

ture and distribution, has resulted in price quotations far below what you'd expect on tires known to be better built and more enduring.

Practically every important race event for three years has been won on Oldfields. The Wichita Test Run in which an entire set of Oldfield Cords covered 34,525 miles on rough roads proves the mettle of the Most Trustworthy Tires Built in everyday driving.

The Master Driver and Tire Builder has given the public a new standard of tire wear and tire cost—a true economy that every car owner should know about.

Your Oldfield dealer has these facts—talk to him.
