WHY YOU ARE NERVOUS
The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

THE WORLD
Believes in being prepared. You should be prepared to see things as they really exist. If your eyes are dim, or failing, prepare yourself with glasses of the right kind. Don't take chances of ruining your vision by using cheap, shoddy glasses. Remember, I make a specialty of fitting glasses to prevent sick and nervous headache. If you are bothered with headache, and have failed to find permanent relief, don't give up—have your eyes examined. If you do not need glasses, I will be frank to tell you so.
