Not long ago we had some difficulty in taking by telephone to a party in Sardis. The night of that day, at about nine o'clock, we stepped over to the Princess Theatre and by radio, which is a wireless telephone, heard a man in Detroit make a speech on the "Good Old Days" in a voice which was too loud to be pleasant. The world do move.

**Better Flour—Better Biscuits**

The best cook in the world can't make good biscuits with poor flour. You owe it to your reputation as a cook to use the highest grade of flour you can buy.

There is no better flour made than Gilster's Best. It costs a little more than ordinary flour, because we pay a premium for our wheat—and because the flour is ground finer and sifted oftener. *But you can taste the quality in your biscuits.*

If you prefer a self-rising flour—Gilster's Featherlite or Gilster's Mother's Joy.

Howard, of Paris. Refreshments were served but not enjoyed more than the various means of entertainment devised, such as progressive conversation and tricking the young folks into revealing the lucky objects of their affections. **Read and Know**  
Keep up with the Procession  
**Don't be a Back Number**

"Reading maketh a full man" and likewise a broad man and an alert man. A man can hardly be said to be a good citizen these days, unless he reads one or more papers. He certainly cannot be a good business man without reading. The day of isolation is past. The man or woman who only know what they see or hear are woefully deficient in knowledge.

There is no excuse for ignorance when newspapers are as cheap as they are. It is just as much the duty of the head of the household to provide his family with the news of the world as it is to provide clothing or food.
