In France the operators of aeroplanes are held responsible for damage done to persons or property when coming to the earth. In two cases such operators have been found guilty of homicide and punished, although the punishment was not as great as that for other forms of the same crime.

**Chancery Sale!**

Pursuant to a decree of the Chancery Court at Newport, Tennessee, pronounced at the February term, 1911, in the cause of Everette Heaney & Co. vs. C. F. Boyer, et al., I will sell to the highest and best bidder, at public auction, at the Court House door in Newport, on Saturday, the 13th day of May, 1911, at 1 o'clock p. m., the real estate described in complainant's bill as the house and lot in which C. F. Boyer and wife now live, situated in the 6th civil district of Cocke county, Tennessee, bounded on the north by the Big Pigeon River; on the west by White; on the south by the Southern Railway and on the east by a street running north and south, containing one acre, more or less.

**TERMS OF SALE.**

Sale will be made on a credit of six, twelve and eighteen months time and in bar of the equity of redemption. Notes in equal sums, with approved personal security, bearing interest from date will be required of the purchaser, and a lien will be retained on the property as further security. The sale will be made subject to the homestead rights of C. F. Boyer and wife.

This March 31, 1911.

**NEWPORT RANKS AS EIGHTEENTH**

(Continued from page 1)

see show that Newport ranks well with the towns of this grand division. It stands eighteenth on the list, even if one third of the population is not included in the figures of 2,000. In reality it stands eleventh as the suburban population here would put Newport ahead of a half dozen of the cities given larger population by the census figures. The figures show that several of the important towns of East Tennessee have not made as good a showing as Newport, Dayton for instance having less population now than in 1890, and Greenville shows a gain of but 200 in the twenty years. The figures for the municipalities in East Tennessee are as follows:

**REV. W. H. SMITH PIONEER MINISTER DEAD**

(Continued from Page 1)

church and continued preaching there all during the war when he endured many hardships and privations.

On April 17, 1862, his wife died. And on December 21, 1865, he was again married to Miss Margaret McFairland and in 1866 began preaching in Morristown, there then being but two Presbyterians in the town.

In May, 1867, a small church was organized with twenty-six members. The church was organized in the old Southern Methodist church, where they were permitted to worship for three years. At the end of this time a building was erected.

Mr. Smith was pastor in Morristown until 1888, twenty-one years in all, and during this time the church grew to one of prosperity and influence.

His second wife died December 22 1893.

He ministered to several smaller churches among which were: White Pine, Straw Plains, Mt. Horeb, Concord and Whitesburg, besides having preached during his fifty years ministry, all over East Tennessee, where he is well known having friends such as few men can boast of.

He has married more than three hundred couples, traveled thousands of miles, and carried the gospel of peace to many hearts. He continued to preach when his health was good and his life has been made beautiful by Christian cheerfulness and deeds of loving charity.

His only child, Wm. McBeth Smith, lives in St. Louis, Mo. He has two grandsons and one granddaughter.

The deceased was well known in Newport and many of the old families of the county remember him well as he performed the marriage ceremony of many Cocke county people. He preached here for thirteen years and he has since his pastorate here made many visits to Newport, upon each occasion renewing old acquaintances.

**HINTS FOR THE BUSY HOUSEWIFE**

Combined Baking Pan Holds Four Loaves.

A baking arrangement which combines four bread pans in one, yet bakes four separate loaves, has been designed by an Illinois man. The device consists of a rectangular metal strip large enough to inclose the tops of four pans. Along the sides are corner pieces adapted to receive the corners of the pans. As the latter are wider at the top than they are at the bottom they drop neatly into the corner pieces and stay there until pried out by inserting some instrument under their top edges. Held together in this way, the four pans can be carried around and shoved in or drawn out of the oven as easily as one.

**New England Fish Pie.**  
For this simple but appetizing dish buy a pound of cod steak boned and cut into pieces. Roll each piece in slightly salted flour and place in a buttered casserole or baking dish. Season with paprika or white pepper, then add a layer of oysters with their juice. Squeeze a tablespoonful of lemon juice over the layer and add a slight sprinkle of finely rolled cracker crumbs. Turn in a little water to moisten the mixture, dot with a few bits of butter and bake slowly for twenty minutes. Have in readiness some hot mashed potatoes well seasoned with cream and butter and spread over the fish like a crust. Brush over with milk mixed with a little egg yolk and brown.

**Mock Candied Cherries.**  
Wash and pick over carefully one quart of fine cranberries, place in a pan with one cupful of water and three cupfuls of sugar and let this boil for about five minutes. Take out the cranberries and place on a large flat dish and pour the boiled water and sugar over them. Let stand eight hours. Then place berries and sirup on stove and boil until quite transparent, but not until the berries break. Drain off sirup, place berries on large platter on which brown paper has been spread and sprinkle with granulated sugar. When thoroughly dry pack in wooden box in layers, with paraffin paper between.

**Household Helps.**  
A piece of cloth dipped in spirits of wine and rubbed on soiled leather will remove every spot on it.  
A new way to cook bacon: Cut thin slices, roll in beaten egg, then in cornmeal, and fry slowly a dainty brown.  
Never pour hot water on japanned trays or their surface will crack and peel off. The right plan is to wash them with a little warm, soapy water, dry with a cloth and polish with a little dry flour.

**Apple Ketchup.**  
Take six large tart apples, peel, core and grind. Put on stove with as little water as possible, just enough to keep from burning. Add one cupful sugar, one teaspoonful pepper, one of mustard, two of cinnamon and two small onions chopped very fine. Stir all together, adding a teaspoonful of salt and a pint of vinegar, and place over fire and boil one hour. Add a little water if it gets too thick, bottle while hot and seal tight.

**Spinach Soup.**  
Wash thoroughly two quarts of spinach and cook in a very little boiling salted water until soft enough to rub through a colander. Heat to the scalding point a quart of milk in a double boiler and thicken with a tablespoonful of flour rubbed smooth with a tablespoonful of butter. Add the spinach, season to taste and send to the table with a spoonful of cream on each plate. Serve with croutons or noodles.

**Sour Milk Pie.**  
One cupful of very thick sour milk, one cupful of raisins chopped fine, one cupful of sugar, one-half cupful of butter, one egg, one cracker rolled fine, one teaspoonful of cinnamon, one-half clove. Put on stove to thicken. Makes two pies.

**Baked Bananas.**  
Put two heaping tablespoonfuls of butter into an earthenware dish, add four tablespoonfuls of sugar, two cupfuls of water and the juice of half a lemon, lay in peeled bananas and bake until tender.

**To Clean a Waist.**  
Powdered fuller's earth sprinkled through a sieve over a light waist, left there for a day and then shaken out thoroughly removes the soiled spots.

**Wanted! Hemlock Wood**

**SPECIFICATIONS**

All hemlock wood must be SAWED, (not chopped), to lengths. Round wood to be not less than 5 inches diameter at small end, and up to 10 inches diameter, NOT SPLIT. Large diameters to be so split as to show not less than 8 inches face on the piece. Wood to be sound, (except worm holes), and not charred or blackened by fire. Knots and limbs must be trimmed off close—poorly trimmed and excessively knotty wood will be rejected.

Trees from which the bark has been peeled can be sawed to lengths of 3 feet, 4 feet or 5 feet, and split to above sizes. All sap rot and doty places, must be removed down to the sound wood. Notify us of the length you decide to adopt in your cutting, as these lengths must not be mixed together in loading. One hundred and sixty, (160), cubic feet constitute a cord. Freight will be charged back on under loaded cars and upon rejected wood.
