The Light of the World

Our Saviour In Art

cost nearly \$200,000 to publish. Contains nearly one hundred full-page engravings copied direct from the World's Greatest Paintings of our Saviour and His Mother. Contains History of Painting, Biography of Painter and the Galleries in Europe where the Original Painting may be seen. The most beautiful publications ever issued. The strongest hearts weep at the sight of these wonderful pictures of Jesus and his mother. Everybody says they are grand, sublime, matchless magnificent, beautiful, inspiring and uplifting. The size is unparelleled. The presses are running day and night to fill the orders. Twelve car loads of paper were required for the last edition. Small fortunes are being made by the thrifty with this marvelous work. Contains also a Child's story beautifully written to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart and in every Christian home where there are children it sells itself. A Christian man or woman can soon clear a thousand dollars taking orders in this community. Others are doing it, why not you? We are advertising in nearly ten thousand newspapers in this country, Canada, England and Australia. Shipping books to every English-speaking country in the world. We shall profit our best workers to positions of State Managers, Correspondents and Office Assistants. We also own and publish large Photo-gravure Etchings of the great Paintings in the Galleries of Europe. One or more of these Etchings can be sold in every home. By carrying the book and engravings, your success will be tremendous. Mrs. Waite, of Worcester, Mass., has sold nearly \$4,000. worth of books there. Mrs. Sackett has sold nearly \$2,000. worth in New York. Both of these ladies answered our advertisement and had never sold a book before. "Took 14 orders first two days," H. Colwell. "Took 3 orders first day; 23 orders first week, clearing over \$300."—Hattie Lamm. Thousands of others like these. It is printed on velvet finished paper, bound in Cardinal Red, Green and Gold and adorned with Golden Roses and Lilies. Write quickly for terms as the territory is going rapidly. When you prove your success, we will promote you to the position of Manager and Correspondent under yearly contract. We shall soon move into our new elegant structure to be occupied solely by us, and to be known as the Light of the World Building. Address: The BRITISH-AMERICAN CO., Cochran Building, Opposite U. S. Treasury, Washington, D. C.

Be Ware of a Cough.

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough and if properly treated as soon as this cough appears are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by J. K. Barlow.

Shudders at His Past.

I recall now with horror, says mail carrier Burnett Mann, of Lexington, O., my three years of being from kidney trouble. I hardly ever free from dull or acute pains in my back. The pop or lift mail sacks made me feel tired, worn out and ready to give up, when I began to use Electric Bitters, but they completely cured me and made me feel like a new man. I am able to regulate my bowels, liver, kidneys and bowels with perfect satisfaction guaranteed by J. K. Barlow. Only 50c. Barlow.

Constitutional Revision.

The Legislature failed to give the State a constitutional convention but submitted eight constitutional amendments, which we give for the consideration of our readers.

First—To elect the Comptroller, Treasurer and Secretary of State by vote of the people.

Second—To make the Governor's term four years and make him ineligible to more than two terms in twelve consecutive years.

Third—To make terms of Sheriffs, Trustees and Registers four years, those officers to be ineligible to succeed themselves.

Fourth—To abolish Chancery Courts and give the Legislature full power to reorganize the judiciary of the State, except the Supreme Court.

Fifth—To give counties, towns, cities and taxing districts power to levy taxes within proper limitations to create local improvements.

Sixth—to limit county and city indebtedness to 10 per cent of their assessed valuation, as the maximum, of taking the average of ten years assessments to fix the limit.

Seventh—To give the Legislature power to regulate the keeping of dogs, by taxing them or otherwise; also to enact fence laws, such laws being so drawn as to give each county the option as to whether or not it will have such regulations or not.

Eighth—To authorize counties and municipalities to exempt new manufactories from county or city taxes, for a period of not more than ten years.

Public Entertainment.

The Woman's Foreign Missionary Society will give a public entertainment at the C. P. Church Sunday evening May 12, beginning at 7:45.

Offerings.

Benediction.

If people only knew what we know about Kodol Dyspepsia Cure it would be used in nearly every household, as there are few people who do not suffer from a feeling of fullness after eating, belching flatulence, sour stomach or water-brash, caused by indigestion or dyspepsia. A preparation such as Kodol Dyspepsia Cure which, with no aid from the stomach, will digest your food, certainly can't but do you good. J. K. Barlow.

NEWS GATHERED

By Wire and Correspondents From All Over the Whole Country.

Swift.

Mr. John Russell is quite sick, with little hopes of his recovery. He is now 88 years of age, has lived continuously at the same place since childhood. He has been married about 65 years, his wife is in fairly good health. Of 7 children, only one is living, a maiden daughter.

Aunt Betsy Smith, in the same community, is 83 and reasonably well. She has been a widow many years.

Uncle Billie Godwin of our town is 85 years old and in fairly good health, has been a widower quite a while, and would likely marry if he had a favorable opportunity. Mrs. Brooks, his sister, and mother of Rev. Polk Brooks is 87 years old. She has fairly good health, but crippled and stiffened with rheumatism till she has to lie up a good deal. She has been a widow many years.

Mrs. Geo. Ross, mother of old Dr. Yeiser's wife is near 80 years old and has fairly good health. How will that do for old in one neighborhood?

The back water held many of the farmers back considerably, but they are now pushing on their work.

We need a bridge badly at or near the Bell ford on Indian creek. There is one near the mouth of Smith's fork but it is only of local value, the mud is so deep nearly all the time on the north side of the creek that very few will venture across it, and there are four little rickety bridges across deep ravines, and it is dangerous to cross them, and in rainy weather the steep hill on the south side of bridges is spouty and the mud gets so deep that it is well nigh impassable, and there are four steep, long, high hills from the bridge to Mountain View school house, but from the same school house there is not a ravine to cross and no steep hills to get to the Bell ford and most of the travel is now over that road, and nearer to Cerro Gordo than the bridge route. There is a good place for a bridge at the Bell ford and a much better route to Clifton. As it is the present bridge is of very little public value, but if moved it would be of great benefit to a large number of Hardin county citizens, and there are no gates on this route. GOOD CHEER.

Gillises Mills.

Some of our young folks attended foot washing at the Burnt church Sunday.

Mr. and Mrs. H. M. Franks visited the family of Bill Franks Sunday.

Mrs. Vinna Harrison who has been in bad health, is improving. Miss Ada Wynn who has been in Savannah taking lessons in millinery is with H. M. Franks & Co.

Mrs. Point is very sick. H. C. Franks and little Hettie Morris made a flying trip to Mad-

dox Saturday.

Mrs. Bettie Bunch is visiting her old home in Mississippi.

Mrs. Sis Hubbard is right sick. Tom Stricklin went to Savannah Monday.

Ben Hitchcock and Frank Alexander of Pinhook were here Sunday.

W. G. Franks will celebrate his 69th birth day the 7th of May.

ANNIE HILLSIDE.

Counce.

The steel approaches to the bridge across Chambers creek on the Hamburg road are being replaced by the Indiana Bridge Co. The approaches on both sides fell in because of the banks caving.

W. T. Wyatt of Stantonville and who has been sick a long time, was here Friday.

G. W. Cresap and Will Pyron have gone to Paducah on a raft of pine logs for ship timber.

H. B. Ray lost a fine brood mare last week.

G. W. Cresap and W. F. Wayne saw the President at Corinth.

Harris Counce and family and Mrs. J. M. Counce visited friends at Corinth last week.

Saitillo.

Curry Duck has gone to Paducah.

Robert Hinkle left here last week for Circleville, O., where he was married to Miss Metta Bell on Wednesday the 8th. Mr and Mrs. Hinkle are expected home on the Tennessee next Monday and will receive a hearty welcome to our town.

(Mrs. Hinkle is charming young lady and quite well known here, having visited her sister Mrs. Van Meter, at Savannah on two or three occasions, and we congratulate these young people on this happy occasion. Ed.)

Osage, Henry County.

Osage is a little vilage eight miles west of Paris. The location is desirable, being only a mile from school and a union church composed of the Presbyterians, Methodist and Baptist denominations.

Going from Paris through Osage to the Kentucky line one sees some as fine farms as can be found any where in the State. There are broad, level fields, green with the growing wheat and other fields verdant with the sweet scented clover.

At present the farmers are planting corn, and preparing for tobacco, the producing of which is very complicated. In January and February the seeds are sown in beds. The plants are transplanted in May and June and is cultivated all through the hot summer. The tobacco worm, its greatest enemy is destroyed by the sunburned farmer boys. Later it reaches a state of development, is cut, housed and cured, and carried to market. there to undergo varied and numerous other processes before ready for use. Before the last of one crop of tobacco is delivered preparations are being made for another. The farmer who is enterprising
