

THE SEQUACHEE NEWS.

VOL. 3.

SEQUACHEE, TENN., THURSDAY, APRIL 2, 1896.

NO. 39

The Courier-Journal Almanac.

We have received a copy of the Louisville Courier-Journal Almanac and are agreeably surprised to find it far exceeds our expectations. Typographically it is excellently well gotten up in large readable type, and is a perfect Encyclopedia of useful, and we might as well say entertaining knowledge. It has complete index of subjects, and its condensation of fact and figures shows untiring research.

A specialty has been made of the laws governing the weather and in their own words, "The weather forecasts are mathematical calculations based on the laws and fundamental principals of nature. They are not founded upon hastily formed conclusions, nor are they the offspring of a sudden inspiration, but the legitimate result of a half century of observation, research and investigation, and a close, untiring effort to learn the laws governing weather changes."

The farmers are well remembered in articles upon spraying and insecticides, experiments with corn and oats, and complete statistics on products.

In fact it is a multum in parvo although it is a volume of 500 pages.

We again call attention to our offer, which people are finding to be the best offer in the Valley. We will send the Courier-Journal tri-weekly, a first class 8-page paper, and the SEQUACHEE NEWS which gives you more local intelligence than any other paper in the Valley, for three months for 50 cents, Cash with Order. In addition to this, we will send the above described Almanac, free of charge. The Almanac cannot be bought for less than 25 cents, and anyone can see that the offer of the Courier-Journal and THE NEWS is worth the 50 cents. Now is the time to accept this wonderful offer. We cannot extend this offer for a great while, so subscribe before it is too late.

Tennessee Central.

The Condition of the Tennessee Central railroad is reported as follows. All the grading between Monterey and Crossville, a distance of twenty-two miles is completed. About twelve miles, from Crossville to Rockwood are graded, and the grading is nearly completed between Rockwood and Harriman, a distance of twelve miles. This is the road which will force freight traffic this way and may lead to an extension of the N. C. & S. L. road from Pikeville to the Cincinnati Southern to compete with it.

The Saw mill put in six good days last week. This ever so much better than the 2-6 basis.

LOCAL.

Job printing done promptly at this office.

Wm. Owen went to South Pittsburg Monday.

B F. Cowan, of Whitwell, was in town Saturday.

One more wedding and we will be content for a while at least.

Mrs. R. C. Mills is still confined to the house though somewhat better.

Mrs. Smith, of Ebenezer, was visiting her son, Mr. Edgar Smith Sunday.

Miss Kate Lewis, of Victoria, was visiting her sister, Mrs. Byers Sunday.

Job work is done at this office according to your order and nothing else.

Mr. Jacob Houts is as busy as a bee cleaning up and fixing up his home.

We want every body to get ready to make the cemetery look nice and presentable; it will pay.

A visit to a coal opening on the northwest side of saw mill cove showed 20 inches of coal.

The SEQUACHEE NEWS is one of the best neighboring sheets published for news.—Ducktown Gazette.

Mr. and Mrs. Pryor will shortly commence housekeeping in one of Spaulding houses on Ala. Ave.

Miss Sallie Pryor and S. P. Pryor attended the funeral of their cousin, M. C. Ferguson at Jasper Friday.

Mr. G. M. Brown's horse was seen standing at Mr. Martin's gate again Sunday. You all know the cause.

Base ball has struck this town for the season of 1896. We have some good material for a pony team.

See our offer in connection with the Courier-Journal. It is the best offered by any paper in the Valley.

Messrs Gabel and Brown shipped a car load of special bridge timber for N. C. & St. L. R. Rd., Tuesday.

We are glad to hear from Col. Melcher and know that he is thinking of Sequachee and its advancement.

The O'Hard Oil & Gas Co. of Pittsburg, Penn. is leasing land in Bledsoe Co. They have about 2,500 acres leased, and want 10,000.

The boys serenaded our newly-wedded couple Thursday night to the number of thirty-five. They made things melodious; or otherwise.

You don't have to wait a week for circulars, etc., when you order from this office. They are given to you the exact time you want them.

Editor Graham of the Ducktown Gazette has been struggling with the measles, but it didn't down his paper although he had a hard time to get it out.

Horse swapping is one of the enjoyable pursuits of this place except that Mark Martin has a gray horse which nobody will swap for. He is easy kept.

Now the re-organization of the Memphis & Charleston road is assured, as we learn from outside papers, we hope for an extension to reach Sequachee.

Miss Sarah Ables, Miss Effie Haynes, Miss Sallie Roberson and Prof. H. E. Tate went to Victoria Saturday, they had a cross tie ticket and round trip also.

The question on the docket now is, when are Mr. and Mrs. Pryor going to be at home to their friends. They must give a reception, or they will get themselves disliked.

Mr. B. F. Lasater, Mrs. Lasater and two children left on Monday for Texas. Miss Carrie remains to finish her school term, and Valentine is staying with R. J. Brown.

The property of B. W. Rogers, lots 1, 2, 3, 5, and 5, block 27, this city is advertised for sale by the Southern Building and Loan Association, of Atlanta, Ga., sale to take place April 20.

The Southern Publisher is an excellent journal of newspaper news that has appeared lately upon our desk. We place it upon our exchange list, as we like to hear the news relating to the rest of the boys.

Everybody has got the spring fever around here. Gardening is the order of the day, and everybody is planting something. This is a good thing to do. Beautify your premises and you will feel as though you had some use for the world and the world for you.

A foolish and reprehensible custom that of charivare or as it is locally called chiverree ought to be abandoned as unnecessary. The real meaning of the thing is one of insult and we do not believe any of the parties participating meant to be insulting. Now don't let us hear any more such ungodly disturbances.

Saturday was the first spring day, warm and genial. Sunday became warmer and we looked at the fireplace cynically. After dark a strong south wind set in and early on Monday morning a thunder storm with heavy rain set in and it poured and rattled and banged for some time. After the storm the sun shown and the birds sang, and the rapidly blossoming trees seemed to put us in a new world.

The Courier-Journal Supplement had some views of the soldiers colony at Fitzgerald, Ga., this week. Judging from the appearances of things and the fabulous prices paid there for lots, it would be a good place to keep out of. A photograph always makes things look better than they really are, but this place looks too mean for anything.

C. H. Davidson is the permanent chairman and high Jo of the horse swappers: the other veterans retiring in his favor. Monday bright and early he was trying for a trade with Mr. E. Paynes. To lose a daughter by marriage on Wednesday and have the machinations of the horse swappers get away his family horse only a few days later, this we think is rather rough on Haynes.

The Sequachee Sunday School has in preparation a pleasant program for Easter, next Sunday. Miss Matilde Gustafson has taken great pains to prepare the children, and the fact of her doing so warrants success. Now we want all the parents to be present, for although there can be no regular religious service, all can unite in remembering the anniversary accepted by the christian world of the resurrection.

Now don't forget half past nine o'clock next Sunday.

South Pittsburg Secures a Large Contract

A special from South Pittsburg to the Chattanooga Times says: The Shuster Foundry Company, of this place, have secured the contract to furnish all the pipe and fittings for the plumb work for the new penitentiary. It will require from six to ten car loads in all, and will take until July to get all the order complete, as they have to make patterns for a great deal of their pipe and most of the fittings. There are about twelve different sizes of pipe, and as many sizes of fittings in this order, running from two to ten inches in diameter, and will require from 150 to 200 tons of pig iron to cast.

Easy to Take, Easy to Operate.

You will find a true friend in Hood's Pills. When you take them you will not be disagreeably reminded of the fact by griping and agonizing pains. They contain none of the drastic drugs formerly so extensively employed. Every ingredient used in Hood's Pills is selected with care. They will break up a cold, prevent the grip, and are especially valuable to regulate the liver. They cure sick headache and indigestion.

The News has received a copy of the American Newspaper Directory which seems to be an ably constructed and very accurate work.
