

# Sequachee Valley News.

VOL. 5.

SEQUACHEE, TENN., THURSDAY, OCT. 28, 1897.

NO. 17

## LOCAL.

Not quite two months until Christmas. How time flies!

Mr. John and Miss Alice Smith, of Jasper, spent Sunday in town.

The Toledo Weekly Blade and the News, \$1 per year, cash in advance.

C. H. Davidson has lately received a cutting harrow which is said to do good work.

Just try a 10c. box of Cascarets, the finest liver and bowel regulator ever made.

Davidson & Wagner are putting in lots of wheat and are consequently very busy.

Blank Deeds, Mortgage Deeds and Chattel Mortgage Deeds for sale at this office.

Do not forget we furnish good envelopes printed with address for return for 35c per single hundred.

Mrs. C. H. Davidson has been visiting her parents Mr. and Mrs. G. W. Alder, for the past week, but returned home Sunday.

Mr. Sherman has planted the orchard field with wheat and will keep his drill running right along until he has finished planting.

If you should chance to see R. J. Brown with a match in his mouth just say, "Smoking again, Jeff," and watch him blush.

The receipts of freight at the depot has been phenomenally large the last month and freight pours in from all directions, which means better times.

From the number of new subscriptions which we are receiving lately, we judge that the News is in favor among the people. Thanks, everyone.

A pain in the chest is nature's warning that pneumonia is threatened. Dampen a piece of flannel with Chamberlain's Pain Balm and bind over the seat of pain, and another on the back between the shoulders, and prompt relief will follow. Sold by C. H. Davidson.

The Nashville American is authority that another furnace will be blown in immediately at South Pittsburg, thus increasing the output of iron at that place. We wish this would light the coke ovens at Victoria.

A few weeks ago the editor was taken with a severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to any one afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50 cent sizes for sale by C. H. Davidson.

We will give \$1 per bushel for good wheat in payment of subscriptions.

We hope everyone who can will patronize W. S. Pryor's subscription school. It is a public calamity that the public school closes for lack of funds.

A fearful episode took place in town Saturday evening, in speaking of which, a citizen suggested it merited the attention of White Caps if there were any in these parts.

KnockLee, of Melvina, is delivering some of the finest apples ever brought to town to our merchants. He says he will gather over a thousand bushels off of a five acre orchard. Pikeville Banner.

Says the Pikeville Banner: Rev. A. D. Stewart, of Jasper, will fill the pulpit of the M. E. Church, South, at this place for the next year. Brother Stewart is an able minister and will be heartily welcomed by our citizens.

Mr. S. P. Pryor arrived here from Pikeville Thursday morning. He reports his surroundings there as being very pleasant, and the church of which he is in charge as showing him great kindness. He returned Friday.

All you guess about difficulty in selling Stark Trees may be wrong. If you wish to know the truth, drop postal to Stark Nursery, Louisiana, Mo., or Rockport, Illinois. Name references. Cash pay to salesmen each week the year round. Outfit free—takes no money to try the work. Also want CLUB MAKERS—get their trees free.

Those who believe chronic diarrhea to be incurable should read what Mr. P. E. Grisham, of Gaars Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhea ever since the war and have tried all kinds of medicine for it. At last I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhea Remedy." This medicine can always be depended on for colic, cholera morbus, dysentery and diarrhea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by G. H. Davidson.

An evidence that enterprise pays is shown in the fine turnips Mr. Wm. Owen has raised on the banks of the Spring Branch. Land which has been regarded as worthless has been cleared, plowed, and planted, and the result is a fine crop of turnips, which will sell readily at 50c a bushel. It will pay him better than corn, and it opens up a new avenue to our farmers. All along the banks of the river there are patches of land, now waste, which could be utilized for turnips, beets, and melons, cantaloupes and beans, and the soil is of the best. We commend this idea to those who have banks of creeks or rivers in their farms, and we believe for the products named, it is the ideal location. Mr. Owen has many turnips weighing 2 to 3 lbs. each, and their quality is excellent as we can testify. We congratulate Mr. Owen on his good fortune and we are pleased to hear that his peaches, apples and turnips have all yielded him a good revenue.

## The Public School.

The school closed its fall term on Wednesday last having had a very successful session. The total enrollment has been 104 and average attendance of 70. Visiting the school on Tuesday we heard some intelligent grammar recitations in the primary department under Miss Barbara Raulston and later saw some good work in arithmetic and algebra under Mr. H. E. Tate. We regret exceedingly that the school is about to close for want of funds but hope the time may soon arrive when we may have nine months school in every year.

We are glad to say for Mr. Tate and Miss Raulston that we believe they have done good and faithful work, have maintained excellent order in their, and from the parents we hear that their work has been satisfactory to both parents and seniors.

Now we hope the subscription school which starts Monday next will be well supported, and that will in a measure compensate for a part of the children at least until the public school can be resumed next fall. But to those who can not afford to pay for their children, we say try to keep your children at their lessons at home that the start they have obtained may not be lost.

## COAL TO MEXICO.

Birmingham, Ala., Oct. 23.—Capt. W. M. Hughes, representative of the Tennessee Coal, Iron & Railroad Company, who went to Vera Cruz six weeks ago with a cargo of 1,200 tons of Alabama coal shipped through Pensacola to introduce that product in Mexico, has returned, and reports having laid the groundwork for extensive coal trade in Mexico. The Inter Oceanic Railroad Company, to whom the sample lot was sold, was so well pleased that it made a contract for a year's supply, 100,000 tons to be used, instead of English coal and native. Contracts will probably be made with other large consumers in Mexico as soon as their contracts with the English expire.

The recent action of Congress in removing the discriminating duties imposed on Mexican ships loading coal shipments at American ports, places the Alabama article on an equal footing with the English free of duties, while the freight rate is greatly in Alabama's favor.

## Revival Services at Owen Church.

The meetings which started some weeks ago have been continued the past week to good audiences and have been carried on by Rev. Jacob Houts and Rev. R. S. Umberger. Some conversions have been made and on Sunday last quite an addition was made to the church membership. The meetings will be continued and those in charge are gratified at the success which has followed their labors.

## YOU NEED Hood's Sarsaparilla

if your blood is impure, your appetite gone, your health impaired. Nothing builds up health like HOOD'S.

The school boys and girls, and their teachers took a chestnut picnic yesterday.

## HAVE YOU HEARD IT?

We have purchased the **ENTIRE STOCK** of the **W. C. Adams' Co.**, and we will do business at the

**\* SAME PLACE \***

By adding to this stock we are prepared to suit you both **In GOODS and PRICES.** Our prices are right; As low as the lowest.

And now by **Honest and Fair** dealings we hope to influence a share of your trade.

We handle Coupons at 10 per cent. discount.

Very respectfully,

# KELLY & GRAYSON.

WHITWELL, TENN.

## To Enlarge the Foundry.

Gustafson Bros. are having considerable changes and alterations made in the foundry department of the Valve Works. The cupola has been relined and its capacity doubled. The moulding department is to be increased by tearing away part of the old shed and putting on a new roof, as the old roof has hitherto been leaky. The roof of the boiler room is also to be repaired and a new smoke stack added. When the changes and additions are made they will be ready for any amount of work they may secure, and having their patterns for valves of all sizes complete, will be able to fill orders on short notice. As such matters mean the outlay of considerable money, we hope they will realize a corresponding increase in business and thus ensure profit for themselves and furnish employment for a large force of workmen. The new machine lately added to their plant is up-to-date and a beauty.

## Yellow Fever Germs.

breed in the bowels. Kill them and you are safe from the awful disease. Cascarets destroy the germs throughout the system and make it impossible for new ones to form. Cascarets are the only reliable safe-guard for young and old against Yellow Jack. 10c, 25c, 50c. All druggists.

## TO THE CREDITORS OF E. E. SMART, DEC'D.

In obedience to an order made by the Chancery Court at Jasper, Tenn., in the case of W. E. Byers and all other creditors of the estate of E. E. Smart, dec'd, against Geo. W. Anderson, Executor and Trustee et al., the creditors of said E. E. Smart are hereby notified to come forward and have themselves made party to this proceedings, and file and prove their claims before the Clerk and Master before the next term of this Court (4th Monday in Feb'y next) and all creditors within the jurisdiction of this Court are enjoined from instituting separate suits for the collection of these claims.

This Sept. 30th, 1897.

A. L. PITTS, C. & M.

## To Parents and Guardians of the 2nd Sub-district of the 7th District.

I respectfully announce that I have arranged to open a subscription school at Sequachee on Monday Nov. 1, 1897 and propose to continue the same for at least three months and shall endeavor to perform my duties to the credit of myself and the satisfaction of those who may kindly support me. Terms reasonable.

WILLIAM S. PRYOR.
