The Whitwell miners are acting very sensibly in hustling out for any jobs they can get. That is right, if they cannot live digging coal, assuredly one who is not master of the trade, cannot do as well.

The Chattanooga News Saturday had portraits of "Billy" Sunday and wife on its first page. They looked like "darned" good people doing darned good work in the world.

Do you suppose Old Father Time has got confused over the "Wilson fast time," and has got his months mixed up giving us April instead of November?

It was Abraham Lincoln who said, we believe, that "God must have loved the common people—He made so many of them."

Why not enjoin congress from voting against the league? Also the sugar sharks?

Shipped Coon Hounds.

E. E. Brewer, who makes a specialty of fancy hunting dog stock, shipped two coon hound pups to a gentleman in Massachusetts Tuesday. The pups were three months old and sold for \$10 a-piece. They are of the famous coon hound stock of the mountains of Tennessee, and as someone said "pretty as pictures."

In connection with dog-raising a gentleman residing in Bledsoe county went into the business of raising hunting hogs and colts at the same time. He kept a record of each business for a number of years and to his surprise he found he sold more dogs than colts, and at a better profit, the initial investment for his dog farm being \$10, while to start his stable cost \$200.

Mr. and Mrs. Albert Griffith moved this week to Richard City, where Mr. Griffith has secured a job at the cement plant.

W. M. Moore and Milo Spangler were in Victoria Tuesday and brought first news of the end of the coal strike.

Sherman Barnett, Sequachee, orders the News continued in his direction.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.
 On German Soil.

In the City Square of Treves, Germany, headquarters of the allied military forces, an ancient cross surmounted monument marks the city's center of traffic. For this reason American Red Cross officials converted it, as shown by this picture, into a directory of all Red Cross activities in the city.

Disgraceful Treatment of Our Disabled Soldiers, Sailors and Marines

Men Totally Disabled Are Paid Only \$30 per Month by the Bureau of War Risk Insurance.

They would not sleep, those brave men of the American Army, who were laid to rest beneath the sod of France, if they knew that their Government was doing this thing to the thousands of their comrades, who followed them almost to the Great Divide and were only rescued from the escort of death by the tender ministrations of nurses, and thru the skill of surgeons.

Base Hospital, Greenville, S. C. October 24, 1919.

Knowing that the American people are not fully informed as to the disgraceful treatment accorded disabled ex-soldiers, sailors, and marines, we hope in this manner to bring to your attention the unpardonable wrong committed against us by congress thru the medium of the Bureau of War Risk Insurance.

The patients of this hospital, about 500 all told, are either afflicted with Pulmonary Tuberculosis or suffering from the re-action of poisonous gas on the lungs. Almost every patient here is receiving only \$30.00 per month for total disability. Out of this small amount he must pay the monthly premiums on his Government War "Risky" Insurance, and purchase his clothing. The least pay of any soldier in the Army, that of private, is \$30.00 per month with all articles of clothing furnished free by the Government. Why this difference now that we are disabled?

In criticism of the Federal Board and the War Risk Insurance department, the American Legion Weekly, official organ of the organization, says:

"The men who gave most have received least from a grateful nation. Certainly no one should appreciate better than the men who served that the hearts of the people are right, but the penniless and jobless and cripple, who cashed in the vigor of his manhood on the fighting front may sometimes find it difficult to differentiate between the sentiments of that people and the crass and inexcusable incompetence of its public servants. The public servants in this case are the members of the 65th Congress, which promulgated a law providing for the rehabilitation of maimed men; that aspired so high and achieved so little, and the Federal Board which has presented an even more lamentable spectacle in its bungling efforts to function under that statute."

A great number of the men here are in a very bad condition, and ere the flowers of Spring shall bloom in all their beauty, casting an abundance of their sweet fragrance over our fair land, some of them will have taken their departure from this world of sin and crossed that dark and unknown chasm into the equally unknown beyond, where all earthly woes and sorrows end. Shall they go to their eternal home disappointed with, and abandoned by, the country for which they fought and gave the last full measure of their devotion? Fellow-citizens, it is up to you! Do you want this wrong righted? Write to your Congressman and Senator today and demand that he support the "Sweet Bill" (H. R. 8778), which if passed will increase the disability pay to \$80.00 per month.

EQUIPMENT TO FINISH SUCK CREEK ROAD

Jasper, Nov. 8.—L. P. Brewer, judge of Marion county, has just returned from Nashville, where he has been in the interest of the roads. Arrangements have been made with the state highway commission whereby two ten-ton tractors and two 5 ton tractors and a steam shovel will be shipped from Nashville in the next few days to take up work on the Suck Creek Division of Dixie Highway. This equipment will be aided by all the road building-equipment of Marion county, which is inoperative at this time of the year, owing to the funds being exhausted.

This will complete an outlet for Chattanooga on the north into Sequatchie Valley, which taps the valley midway and opens up a wide territory north and south for a feeder for the city by the big bend. As soon as completed the present Sequatchie Valley Bus Line, operating from So. Pittsburg to Whitwell, will be extended to Chattanooga, making two trips a day, and automobile trucks will be run from Chattanooga, Whitwell and other points in the valley gathering up feed-stuffs, grain and hay for the Chattanooga markets as well as delivering goods from the Chattanooga dealers. It is also authoritatively stated that the plans for the completion of the road have been accepted by the government engineers, and the entire road will be widened.
