**Invigorating to the Pale and Sickly**  
The Old Standard general strengthening tonic, GROVE'S TASTELESS chili TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c

**YOUR BODY**

**Protests Against Calomel**  
You have noticed the disagreeable effects of calomel, that sickening nausea that is characteristic. There is no reason for tearing up your system in such a drastic manner.  
LIV-VER-LAX, that wonderful vegetable compound, is just as useful as calomel for toning up your liver and ridding your system of stagnating poison, and it does not make you feel bad like calomel. It is pleasant to take with no unpleasant after-effects. Keep it in your home for health's sake.  
LIV-VER-LAX is not entirely satisfactory, your money will be returned without question. The original bears the likeness of L. K. Grigsby. For 50c and \$1 by Rhea Drug Co. 10-1

**Farming With Lime.**

Farmers don't buy your agricultural limestone until you have seen sample of our Soil-Tone, a finely-ground 99 per cent pure high-calcium limestone. Prof. H. A. Morgan, Director of the Tennessee Agricultural Experiment Station, Knoxville, states that Soil-Tone is of a very superior grade for agricultural purposes. We guarantee grade and fineness of Soil-Tone; other products are not guaranteed. This may mean a difference of \$5 to \$50 saving to you on every car of limestone you buy. Write us to-day for sample, prices, and bulletin telling you all about how to buy and use agricultural lime. Address

**SOUTHERN HERDS WILL SHOW AT THE BIG FAIR**

GREATEST LIVE STOCK SHOW IN THE SOUTH WILL BE HELD AT TRI-STATE FAIR THIS YEAR.

The greatest Live Stock Show in the South will be held at the Tri-State Fair this year. The above pictures show the famous live stock parade which held the interest of thousands last year. Over two miles of cattle were shown on the splendid track. The fair will open September 26 for ten days and the Live Stock Show will continue throughout that period.

**EDUCATIONAL.**

[Continued from page 1]

Modern Arithmetic advanced and read studiously every word to the bottom of page 50. Parts that you are not sure you are perfectly familiar with go over and over again until you are. Be sure that you work out every single exercise both oral and written, simple and difficult. See to it that you grasp thoroughly the nature of multiplication. Study its relation to addition. Master the terms used in both multiplication and division and what kind of quantity each may be. Study the relation of Division to Subtraction and also to Multiplication. See that you are familiar with all the signs used in both Multiplication and Division and the uses of each.

Work out the amounts due each employee on the pay roll on page 34.

Don't conclude that any exercise is too simple for you to stoop to. The simple ones are the stepping stones to the more difficult and it is in the simple exercises that the best grasp of the underlying principles is obtained.

The state examination in Arithmetic will probably come some time in December and the review will be pressed each week through the column.

Careless, haphazard, "trial" work is of little value. It's the carefully planned accurate work that counts. It's the work based on the underlying principle that once firmly grasped renders all similar exercises easy.

In a short time now a test will appear in the column that will enable you, if you will be honest with yourself, to tell how well you have done the work of the review thus far.

**Cures Old Sores, Other Remedies Won't Cure.**  
The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves itching and pain. The same time. 25c, 50c, \$1.00

**Biliousness and Constipation.**

It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N. Y., writes: "About a year ago I used two bottles of Chamberlain's Tablets and they cured me of biliousness and constipation." For sale by all dealers. 10-1

**Worth Their Weight in Gold.**

"I have used Chamberlain's Tablets and found them to be just as represented, a quick relief for headaches, dizzy spells and other symptoms denoting a torpid liver and a disordered condition of the digestive organs. They are worth their weight in gold," writes Miss Clara A. Driggs, Elba, N. Y. For sale by all dealers. 10-1

**Heart Symptoms**

The ailments of women include symptoms of heart trouble known as palpitation of the heart. The palpitation is so violent at times as to be really painful and leads the patient to fear she has heart disease. Ninety per cent of such cases are not heart disease at all but only a symptom of a liver disorder which has affected the normal action of the heart, and on applying the proper remedy the unusual throbbing ceases. The stomach and digestion need strengthening and the depressing effect of these disorders on the female organism must be corrected. For the latter purpose there is no more effective remedy to be found anywhere than

**DR. SIMMONS Squaw Vine Wine**

conveys a strengthening influence to the delicate female organism, re-establishes regular and healthy periods, overcomes the painful symptoms, builds up the nerves and puts the generative system in fine healthy condition. For the liver and bowel disorders one or two doses of Simmons Liver Medicine is all that is needed. It clears the stomach and bowels of impurities, helps digestion and the proper nourishment of the body the result of which is sound, healthy conditions all through the system.

**T. H. Griffin for Sheriff.**

In this issue of The Falcon appears the authorized announcement of T. H. Griffin of LaGrange as a candidate for sheriff of Fayette county, subject to the action of the democratic party in the primary of October 30.

Mr. Griffin has been active in the political and business life of the county for a number of years. He once lived in Somerville and was the town marshal, and an active and good one he was, he moved to LaGrange a number of years ago and has for a long time been a Justice of the Peace in that district. He has been one of the members of the road committee for several years and has given much of his time to the duties of that position, proving in this work, as in other official duties, faithful to every one. He has served as a deputy sheriff and those who know him best count him as one of the most astute-seekers after criminals that the county has. His experience in this line would be of much value to him if he is honored by his fellow democrats with the party nomination as he asks. Certain it is that there is not a man in the county who would do more faithfully the duties of sheriff than would T. H. Griffin. He is at the present time the member of the county democratic executive committee from his district, a position he has held for a number of years. He asks the votes and support of democrats in this race and promises the faithful execution of the laws entrusted to him and of his duties as an officer of the law. He has always been found on the side of clean government and has nothing in common with the dive keepers and other law breakers.

**A Wonderful Antiseptic**

Germs and infection aggravate ailments and retard healing. Stop that infection at once. Kill the germs and get rid of the poisons. For this purpose a single application of Sloan's Liniment not only kills the pain but destroys the germs. This neutralizes infection and gives nature assistance by overcoming congestion and gives a chance for the free and normal flow of the blood. Sloan's Liniment is an emergency doctor and should be kept constantly on hand. 25c., 50c. The \$1.00 size contains six times as much as the 25c. 10-1

**Additional Local.**

Mrs. Ora Burton received last Saturday a cablegram from U.S. army officials in Honolulu, P. I. announcing the accidental death in that city on the seventeenth instant of her son, Hugh Burton, who was with his command there. None of the particulars were given further than the death was accidental. Instructions were cabled the authorities to ship the body to Somerville for entombment and it will take three or four weeks for its coming. Until that time the family and friends can not know how the sad accident came about. He was reared in this city and besides his mother, has a sister, Mrs. C. B. Perrin, here and another sister, Mrs. Sam Casey, at Batesville, Arkansas.

The limit fixed by the executive committee for entrance of candidates does not come until noon of October 2, the lists seem completed now. The committee will meet on the second day of October to appoint election officers and candidates have the privilege of entering the races for any of the offices up to noon of that date. The following candidates have authorized their announcements up to this date: For trustee S. B. Reames and B. F. Murrell; For Register J. W. Matthews and L. N. Carter; For Assessor J. D. Morton and S. P. Crawford; For sheriff J. T. Jordan and T. H. Griffin. Several other candidates have talked of running for office in this primary but these are all who have authorized their announcements. These gentlemen are all out among the voters and have been for the past week or more tightening their lines for the coming race, which promises much activity in a political way.

**A Boquet for Us.**

The following letter was received a few days ago from Hon. J. H. Dortch now of Washington, D. C., where he holds a very important position in the office of Indian affairs of the government. The editorial which he comments was that concerning the editor's farming and experimental work. Of course we appreciate the cordial endorsement Mr. Dortch gives to our editorial. Here is what he says:

**DEAR LOGGINS:**

Your leading editorial of last week was the best I have ever seen in The Falcon. It was strong, vigorous, progressive and practical. You struck the key note of the true mission of your paper, and its continued course on these lines will produce results of which you nor your friends need be ashamed. Efficiency is more required today in those who are by hard labor earning their living from the soil than ever before. The north and west have already recognized this, and their schools are making practical and not theoretical farmers. It's doing more now than that in elevating agriculture to the dignified place it deserves. There is no reason why the farmer should not stand as high as any man who earns his living in this country. His place, however, depends more on himself than any one else. Your editorial has pointed out the way, and I congratulate you on the vigorous expression of a principle which should actuate every man who seeks his livelihood by hard work on the farm. Combining theory and practice, you are in a position to drive home, as I know you will, the need for more scientific development of the greatest county naturally in the state.

With kindest regards.

Your friend,  
J. H. DORTCH,  
Mr. W. T. Loggins, Washington, D. C.

**STOMACH TROUBLE FOR FIVE YEARS**

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. Get a package today. Only a quarter.

**Little Mates.**  
A southern sow had eight pigs and could only nourish seven of them at a time. Rather than let the odd pig starve, it was given to a little girl, who raised it by hand. She joined the Decatur County Pig Club as a ham and bacon member, and kept close record of the feed given and weights of her pig, which was not a pure-bred. When the pig was 10 months old, it was killed according to the instructions sent her. It weighed 225 pounds net when dressed as meat and yielded also a 50-pound can of lard. The pig cost less than 5 bushels of corn to produce, as it was raised on kitchen waste in addition to the corn. The other seven pigs raised by the mother and left to rustle with her were killed at the same time and averaged only 87 pounds net when dressed as meat. The instance shows how liberally the pig will repay proper care and feed by gaining rapidly in weight.—Government Bulletin.

"I feel that I owe the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy a word of gratitude," writes Mrs. T. N. Withersall, Gowanda, N. Y. "When I began taking this medicine I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief as it benefited me almost immediately." For sale by all dealers. 10-1
