

THE FAYETTE FALCON.

ESTABLISHED 1866.

SOMERVILLE, TENNESSEE, FRIDAY, SEPTEMBER 2, 1921.

NEW SERIES: VOL. XV. - NO. 10

Moscow

Rumor has it that a wedding performed Thursday in Mississippi united in marriage Mr. Vernon Hogan to Miss Julia Dodson, and Mr. William Evans to Miss Kate Dodson. Their many friends extend congratulations and wish them a happy voyage on life's sea. All parties are local young people.

Dr. E. L. Morris is expected home this week from an extended visit with his brother, Dr. Walter Morris, at Knoxville.

Road Commissioner R. N. Ware has been having some splendid work done in this district of late and the roads are in better shape than ever before. Some needed levee work has also been recently done on the road leading west from town, as well as on the Wolf River levee which has been raised.

Mrs. Annel Hopper and children are the guests of Mrs. J. L. Crossett.

Candidates Bobbitt and Ozier were among local voters Saturday.

Miss Helen Ware, one of the best teachers in the county, has accepted a place with the Whitehaven school where we are sure her efforts and influence will be appreciated by those patrons.

Mrs. Ethel Simmons left Monday to assume charge of the Williston School.

Our genial and efficient County Court Clerk C. W. Crawford spent a short time in Moscow Monday.

Mrs. A. B. Ashford is at the bedside of her daughter, Mrs. E. S. Robinson, at Williston whose condition at this writing is not very encouraging.

Mrs. O. P. Bobbitt of Memphis is visiting her mother, Mrs. C. A. Roach. Mrs. T. L. McMullin of LeGrange was a Sunday guest of Mrs. Roach.

Misses Eva Thomas and Irene Cox have charge of the Pleasant Grove school.

The date for opening the local school has not been set owing to the fact that it will be some time yet before the new building is ready for use.

Renovation of Apple Orchard

According to Prof. C. M. Watson, of the University of Tennessee, Tennessee is particularly fortunate in its location for making money in the production of apples. He points out that the apple growers of the northwest who are making money out of apples and who supply the great bulk of apples offered on the markets of the country are more than 3,000 miles from the great markets while Tennessee growers are within 500 miles of them. In view of this Tennessee apple growers ought to be able to make good profit on savings in freight alone, he says. He emphasizes the fact that just as good apples as can be produced in any section of the country can be grown in practically every county in the state. Prof. Watson does not advocate the launching of big exclusive orchard projects but says that instead every farm should have a few acres in apple and other fruit trees as a side line and that good money can be made in this way provided the trees are properly cared for by pruning and spraying.

In the renovation of the old orchard Prof. Watson says that the first thing to do is to clean up. Not by letting cattle and other livestock pasture in it but by cutting down the briars, weeds and dead limbs and burning them, thereby getting rid of insects and diseases which harbor in such places. He advises against using the orchard for pasturing livestock as they damage the trees more than they do good by clearing it up.

The next step in making over the old orchard is the pruning out of parts of the top in order to let light into the inner branches of the trees. Plenty of light in all parts of the trees is necessary for the growing of fruits as sunlight kills disease which attacks the branches and fruit. The next and one of the most important steps is spraying. San Jose scale can only be controlled in this way and this is one of the worst orchard pests known.

For further information on spraying the orchard write the Division of Extension for Publication 96, "Spray the Orchard." It gives a spray schedule in addition to many other valuable pointers.

Swellings of the flesh caused by inflammation, cold, fractures of the bone, toothache, neuralgia or rheumatism can be relieved by applying BAL-LARD'S SNOW LINIMENT. It should be well rubbed in over the parts affected. Its great healing and penetrating power eases the pain, reduces swelling and restores natural conditions. Sold by Cartmell-Gillman Drug Co. adv

Five Tennesseans Sail for Mission Work in China, Brazil and Argentina

(1) Z. Paul Freeman, Trenton, educational mission work, Buenos Aires, Argentina; (2) S. S. Hawkeye State, of the Admiral Line, which sailed from Seattle, August 27, carrying the new Missionaries to foreign fields; (3) Mrs. Zachary Paul Freeman, Trenton, educational mission work, Buenos Aires, Argentina; (4) Mrs. Roscoe C. Smith, Niota, evangelistic work in Japan; (5) Roscoe C. Smith, Niota, evangelistic work in Japan; (6) Geo. E. Goodman, Adams, agricultural and industrial work in Brazil.

From the larger proceeds of the Baptist 75 Million Campaign the Foreign Mission Board of the Southern Baptist Convention has been enabled to send out more than 160 new missionaries since that movement was launched. It is announced, and of that number sixty young men and women, representing fourteen states, have just sailed for China, Japan, Africa, Brazil, Argentina and Chile. In addition to these, Dr. and Mrs. Everett Gill of Kansas City will sail September 14 to become representatives of the Board in Europe, while Dr. and Mrs. W. A. Hamlett of Austin, Texas, have just sailed for Jerusalem, where they will maintain headquarters in acting as the Near East representatives of the Board.

The new missionaries to China and Japan sailed from Seattle, Saturday, August 27, on the Hawkeye State of the Admiral Line, while those for Brazil, Argentina, Chile and Africa sailed from New York on the Aeolus August 17. They will be engaged chiefly in evangelistic, educational, medical and agricultural work and will be stationed at various points in these fields. While a large number of new workers have been sent out by the Board since the beginning of the Campaign, at least 100 other capable young men and women could be employed to advantage if they were available. Secretary J. F. Love advises.

Mission Money Gets Results.
Of the more than \$25,000,000 that has been collected in cash on the 75 Million Campaign to date, about \$5,000,000 has gone to foreign missions. This has made it possible not only to strengthen the old work on all fields and employ a large number of new

missionaries, but to do much other work, including building or making substantial additions to 15 boys' schools, 17 girls' schools, 37 mission residences, five hospitals and dispensaries, four light and power plants for mission compounds, 26 church buildings, four colleges, seven theological seminaries. In addition, assistance has been given seven church building loan associations, six new stations have been opened and equipped, land has been bought for the enlargement of several mission compounds, a home for orphans in Italy has been established, and a block of ground has been purchased in the heart of Rome for headquarters for the work in Italy, a theological seminary, publishing house, church and mission residence being provided on this property.

Enlarge European Field.
As a result of the Campaign, Southern Baptists have been enabled to greatly enlarge their work in Europe. They have carried on mission work in Italy since 1870, but now they have opened up new work in Jugoslavina, Hungary and Roumania, and have made a beginning, through the distribution of Bibles, in the Ukraine and Southern Russia and Siberia. To act as the European representatives of the Board in this enlarged program, Dr. and Mrs. Everett Gill of Kansas City were recently named. They will probably make their headquarters in Switzerland.

The first work Southern Baptists have ever done looking to the evangelization of Mohammedan lands has just been undertaken in Palestine and Syria, and Dr. and Mrs. W. A. Hamlett of Austin, Texas, have gone to Jerusalem, where they will superintend

the work of the native evangelists. It is planned to establish a church, theological seminary and college, hospital and orphanage at Jerusalem as soon as practicable and then seek to reach other points in Palestine and Syria from this center.

Minister to 900,000,000 People.
With the enlarged foreign mission program of Southern Baptists that denomination is now operating in 18 countries on every side of the globe, and has in its employ practically 500 foreign missionaries and twice that number of native workers trained in the mission schools. Through its present missionary operations the Board is seeking to minister to 475,000,000 yellow people, 4,000,000 brown people, 200,000,000 black people and 225,000,000 white people, making a total of 900,000,000 people, or more than half the population of the globe. Numbered among its workers already on the field are 21 foreign physicians and 8 foreign mission nurses who last year gave 154,070 treatments. There are now 611 mission churches on the foreign fields and of this number 184 are self-supporting. The average contributions of these mission churches last year to denominational causes was \$5 per member, the Christians on the foreign fields responding more liberally as a result of the 75 Million Campaign.

The new missionaries sailing at this time were contributed by the following states: Alabama two, Arkansas one, Georgia five, Kentucky six, Louisiana two, Mississippi four, Missouri four, North Carolina three, South Carolina five, Tennessee five, Texas fifteen, Virginia six, Iowa one and Pennsylvania one.

Somerville's First Bale

The first bale of the present cotton crop came to Somerville Tuesday of this week from the farm of G. W. Farrar in the eighth district. It was grown by Will Yancey, a colored farmer, a renter on the Farrar farm. It was ginned free by the Planters Gin & Lumber Company and was sold at auction to E. E. Howse at 17 1/2 cents per pound. Business men of the city made up a premium which brought the price paid to Yancey to 20 cents per pound. The bale weighed 512 pounds and was classed by buyers here as middling cotton. The seed were bought by the Planters Gin & Lumber Company who paid him \$40 per ton, the seed bringing \$21.35. The bale brought \$102.40, making \$123.75 received by Yancey for his first bale.

This bale came in nearly three weeks earlier than the first bale last year when J. A. Hunter brought in the first one of that season on September 19. And in 1919 the first bales was brought to this market on September 14th.

The crop is without doubt earlier than it was last year and there is a variety of opinion as to how the yield compares with this time last year, some still holding that it will best last year in this county, while many believe the weevil damage and the army worm damage will reduce this crop so as to make it far below last year's crop.

Strawberry Growing

In the spring of this year when nearby towns were reaping a harvest of cash from the sale of strawberries local people were much aroused over the matter of planting a large acreage to berries in the Somerville vicinity. An association was organized and steps were taken to have immediate planting of several hundred acres made. Specialist in berry-growing told us we had best go slow on SPRING planting of berries for market, that we should wait till late winter to put them out. But they told us that preparation of the plot to be set to berries should be begun on it for turning under in the spring, or manure applied this fall and the ground thoroughly prepared and bedded this fall, that the plants could be planted with least delay and least working of the soil in March. As a result of this advice we stopped the agitation then, and nothing has been done since that along the berry growing line.

It is now time to begin to stir things up we expect to get a crop of berries next March. Every section that ever started berries and stuck to them year after year has become more prosperous, and many of them have become rich. Many individuals have become rich, and it is the rarest kind of thing to travel thru a berry section and see dilapidated homes, barns, and farms. The people make more, have more, live better, and make better citizens, suffer less when a poor cotton and corn crop comes.

A meeting to discuss this matter will soon be held and we are wondering if farmers and business men will give it the support they did in the past spring when money was rolling into the coffers of our neighbors at Humboldt, Milan, Bull, Ripley, Covington and a dozen smaller markets near us. It is time to begin to think about it.

Mrs. Florence Anderson Markham

The remains of Mrs. Florence Anderson Markham, wife of E. V. Markham, were brought here from Memphis Tuesday and buried in the Somerville Cemetery, following her death at her home in that city Monday.

Mrs. Markham was Miss Florence Anderson before her marriage and attended the high school in Somerville, residing at the time with her sister, Mrs. B. Haddad here. Later she became a trained nurse in Memphis and still later was married to Mr. Markham, and continued to make her home there.

Deceased is survived by her mother, four brothers, two living in Texas, and Richard and Cleve who spent their time here and with her in Memphis, and three sisters, Mrs. B. Haddad and Mrs. Harry Woodbury of Somerville, and Mrs. J. A. Wellington of Covington.

Funeral services were conducted at the Methodist church Tuesday afternoon by Rev. E. A. Tucker, and interment in the Somerville Cemetery. Mrs. Markham was a member of the Methodist church in this city, having joined here several years ago.

Temporary State Federation Formed

Possibly no movement for organization among the farmers in Tennessee ever made faster progress or received more hearty approval from every source than the Farm Bureau formerly known in many counties as County Councils of Agriculture. Starting about two years ago the movement has grown to where 42 counties now have organizations. During this time the organizations have accomplished many splendid things for the farmers. It has made progress because it has as its prime motive the development of more profitable and permanent systems of agriculture within the various counties and also the advancement of the educational and social welfare of every citizen in a legitimate and practical manner.

The latest step in the development of the movement was the organization of the temporary State Farm Bureau Federation at Nashville recently. The organization is a federation of the various county farm bureau representatives of the various county farm bureaus which at this time have a combined membership of 6,500. As soon as the membership of the county bureaus has reached 10,000 it is planned to make the organization permanent and affiliate with the American Farm Bureau Federation of which most of the states are already members. J. Frank Prier of Maury County was elected president of the organization and R. H. Looper of Jackson, secretary. The vice-presidents are F. I. Smith of Knoxville, J. L. Clendenning of Paris and Ise Moore of Chattanooga.

In speaking of the movement in the State Dr. T. F. Dixon, organization specialist, Division of Extension, stated that the outlook for the organization is very bright at this time. Membership in the bureau has been materially increased in many counties, Bedford and Wilson Counties show almost 50 percent increase during the last few months. An organization has just been formed in Warren County and the Hamblen County bureau has been organized on a strong basis. McMinn County is laying plans for immediate organization. There is also a strong movement for a farm bureau in Smith County. Hardeman County recently completed a membership campaign which was one of the most successful yet conducted in the State. A membership fee of \$10.00, the highest any organization in the State, was assessed and close to 200 members were secured with indications of many more coming in this fall.

Just What She Needed

"I used a bottle of Chamberlain's Tablets some time ago and they proved to be just what I needed," writes Mrs. Volta Bankson, Chillicothe, Mo. "I not only relieved me of indigestion but toned up my liver and rid me of bile ache and dizziness that I had been subject to for sometimes. They did a world of good and I will always give a good word for them." adv

Macon Notes

On last Wednesday the West Tennessee State Track Meet awarded to Maurice Hewlett the following prizes; 100 yd. dash; Standing high jump; and second running high jump. He was one of those chosen to attend the contest as he was the one who won the star footman prize at Somerville in the spring for Fayette county. Mr. Hewlett has now signed a contract with the Y. M. C. A. of Memphis to take part in the track meet to be held at the Tri-State Fair.

A party in honor of Miss Connie Hughes of Memphis, and Mary Neil Edwards of Oklahoma, was given at the residence of Mr. and Mrs. T. D. Boswell last Friday. Those present were Perkin Yancy, Lamar Clay Jr., Al Kelly, Joseph Clay, Maurice Hewlett, T. W. Tomlin, Virginia Hewlett, Hurmie Harvey and John Clay. Miss Mary Dancy was one of the hostesses.

The first cotton of the season was brought in by John Lowery and Mr. Myers last Sunday a week ago.

It has been reported that in few places the army worms have just completely destroyed a few fields of cotton near Macon.

Fayette Boy Brings Credit to Fayette

Maurice Hewlett, one of Fayette's best athletes, gained the title and honor at the West Tennessee State track meet held in Jackson for the champion footman, base circuit, also standing high jump and second in the running broad.

Among the list of athletes were two from Vanderbilt, U. T., Union University and a good many people from different parts of Tennessee.

Maurice is the same boy that won the footman credit in this city last spring at the track meet here.

He has planned to be with the athletic club at the Y. M. C. A. Memphis for the Tri State Fair next month.

The people of Fayette county should be proud of Maurice for a real athlete of this day and time is, as the old saying goes, a reality as well as a scarcity. "C"

The Best Advertisement

The best advertisement any merchant can have is a satisfied customer. No greater recommendation can be given an article than the following by E. B. Milburn, Prop. Galien Drug Store, Galien, Ark. "We have sold Chamberlain's Cough Remedy for years and have always found that it gives perfect satisfaction." adv

Craddock Book Club Meeting

A most unique entertainment of the Book Club was enjoyed Tuesday afternoon, August 30th, at the home of Mrs. E. H. Walker on West Market Street. Card tables were arranged on the beautiful lawn and 500 and Rook were enjoyed thruout the afternoon. Those fortunate enough to win prizes were Mrs. W. T. Loggins, who won a lovely set of crystal goblets for the most games in "500," and Mrs. Price the guest prize, a lovely hand painted plate. Mrs. Carl Wirwa won the prize for Rook, a beautiful set of ice tea glasses and Miss Brasfield the second prize, a sherrbert set. A most delicious ice course was served and the guests declared the hostess a most charming one and the afternoon a perfect success. We departed to meet again September 13th, with Mrs. Whit Wilkinson.
