

**The Enterprise.**  
SWEETWATER, THURSDAY, NOV. 11, 1869.

**LIVING ON A FARM.**

How brightly through the mist of years,  
My first country home appears!  
My father busy all the day  
In ploughing corn or raking hay;  
My mother, moving with delight  
Among her milk pans, silver bright;  
We children, just from school set free,  
Filling the garden with our glee,  
The blood of life was flowing warm  
When I was living on a farm.

I hear the sweet church-bell toll,  
As o'er the hills its music roll;  
I see the country neighbors round,  
Thronging 'neath the pleasant sound  
Of a file beside the door,  
In homely matters o'er-  
—The ripening grain,  
—The little rain,  
—Will do no harm,  
—To meet the weather for the farm.

Upon autumn came, what joy to see  
The gathering of the husking-bee,  
To hear the voices keeping time,  
Of girls and boys beneath the moon,  
To mark the golden corn ears bright,  
More golden in the yellow light!  
Since I have learned the ways of men,  
I often turn to these again,  
And feel life more its highest charm  
When I was living on a farm.

**Saving Cabbage.**

We know of no better way to preserve cabbage through the winter than that which we have recommended for a number of years. It is to plant or set them up in rows as they grow—that is with the roots down—fill in with soil pretty freely, then make a covering by planting two posts where there is a fence to rest on, or four where there is not, allowing for a pitch to carry off the water; lay bean-poles opposite the way of the pitch and cover with corn, fodder or straw. We have kept our cabbage for more than a dozen years this way in a perfect state through winter and into the spring and could even up to the first of May, if desirable.

When Professor Aytoun was making proposals for marriage to his first wife—a daughter of the celebrated Professor Wilson—the lady reminded him that it would be necessary to ask the approval of her sire.

"Certainly," said Aytoun: "but as I am a little diffident in speaking to him on this subject, you must just go and tell him my proposals yourself."

The lady proceeded to the library, and taking her father affectionately by the hand, mentioned that Professor Aytoun had asked her to become his wife. She added: "Shall I accept his offer, papa? He says he is too diffident to name the subject to you himself."

"Then," said old Christopher, "I had better write my reply and pin it to your back."

He did so, and the lady returned to the drawing room. There the anxious suitor read the answer to his message, which was in these words: "With the author's compliments."

The administration would not be responsible for the shameful and guilty conduct of Gen. Butterfield but for the fact that his bad character was known to the whole country at the time of his appointment to the important office which, through undeserved leniency, he has been permitted to resign. And the administration would not be responsible for the wretched failures and blunders of Gen. Sickles as Minister to Spain but for a similar reason. Sickles had, at the time of his appointment, as bad a notoriety as any man in the States. The administration has been unscrupulous in its appointments, and, in every crime and blunder of its office-holders, should read its own condemnation.

Dr. Mary Walker has been lecturing in St. Louis on the necessity of a law compelling men to marry before they reach the age of forty. The "Doctor" is a "grass widow," but she still has "an eye to the main chance."

Speaking of the Grant-Bonner correspondence, the Cleveland (Ohio) Herald says "the first thought that will strike every one in the land, is, that the President was used by Bonner for the purpose of increasing the circulation of the Ledger." The President was certainly made a tool of, and if it were not such an unconscionably dull one he ought to use it to cut Bonner's acquaintance.

General Thomas says that Alaska is worthless except as a means of losing the hold of Great Britain on British Columbia. It has served admirably, also, as a means of losing the hold of this Government on a very large sum of the public money.

Bonner rigs Dexter out in silver plated shoes. It is to be feared that Bonner himself will have to go barefooted before he is done with it.

It is reported that the postmaster General will recommend the abolition of the franking privilege, or if that cannot be effected, then a large abatement of its privileges. He will not find the members of Congress ready to sanction this proposition.

At the late election in California the Democrats elected 11 out of 14 District Judges. Clean work that.

A Partisan judiciary is one of the greatest curses that can fall upon a people, as the citizens of Tennessee had reason to know during Radical rule.

A young lady the other day was reading about the third party movement, and exclaimed: "La, we haven't had the first one yet."

**Victims to Scrofula CAN BE CURED BY Henry's Constitution Renovator!!**  
Consumptives can be Saved BY ITS TIMELY USE!!

Prof. Henry's Constitution Renovator is prepared expressly for purifying the blood and cleansing it of its scrofulous taint. Going at once to the fountain head of disease it extinguishes

**Tumors, Consumption, Boils, Waste of Vitality, Salt Rheum, Skin Eruptions, Scrofula, Mercurial and Flesh Worms, Ulcerated Throats and Syphilis.**

We all know that the prodigious vaccination that was indulged in during the late war, bred the most villainous diseases. Thousands of the bravest men of the South had their pure blood filled with Scrofula, (not to speak of worse diseases) by the cruel haste and incapacity of the Army Surgeons. If a vaccine scab is taken from the body of a person, otherwise in sound health, vaccination is a world-wide benefit. But vaccine matter was taken from the arms of negroes, Syphilitic and Scrofulous white men, and placed in the blood of people who knew not what Scrofula was. This is a

**NOTORIOUS FACT.**

The life blood of the South in its children and young men is thus being supplanted with woful celebrity. One of you who read this can determine whether we are right or wrong. A great danger always creates a great remedy. Here is a remedy where success is wonderful and great.

**HENRY'S Constitution Renovator.**  
Cures, with from one to three bottles, the worst cases that have defied hitherto all other remedies. For general consumption of the Female Sex, Whites, Affections of the Bladder and Kidney, the Renovator stands unrivaled. Hear what the people say to us daily:

**EXTRACTS FROM LETTERS.**

"Doctor: I was vaccinated at Vicksburg in the Hospital. I was never sick before, but since then I was full of sores until Mr. Willard, of Eutaw, Ala., sent me a bottle of your remedy. All of my sores are well except a small one on the cut of my left leg, and that is getting well so fast. I need only one more bottle of your 'Constitution Renovator.'"

"Yes! yes! I may well say your medicine has given me relief. Enclosed find 5 dollars for 6 bottles. They are not all for me, but two families here want to try it."

A lady writes: "And my skin, thanks to your Constitution Renovator, is as fair as a babe's."

"No more Rheumatism, Professor, your two bottles of 'Constitution Renovator' have knocked it dead as a mink."

We have room for no more of these extracts. But all you have to do is to ask your neighbor about our Renovator. Nine cases out of ten he knows of its wonderful curative powers. It is prepared in vacuo in the form of a beautiful syrup and is greedily taken by men, women and children.

Patients, in ordering, will please state how long they have been sick, whether male or female, and give a general account of their condition. Directions accompanying every bottle, but frequently people prefer to write to headquarters. Owing to a stringent law now in vogue in New York Post Office, every letter must have the Box mentioned on it. Address as follows:

PROF. M. E. HENRY, A. M., M. D.,  
Box 2472, Post Office,  
New York.

Constitution Renovator is \$1 per bottle, or six bottles for \$5. Sent any where on receipt of price, sept 23, 1869—ly.

**DUTY'S WASHING MACHINE**  
LATELY MUCH IMPROVED, AND THE  
**Universal Clothes Wringer,**  
Improved with *Rosette's Patent Double Cap-Hooks*, and the *Patent Slop*, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used these give testimony as follows:

"I like our machine much; could not be persuaded to do without it, and with the aid of Duty, we feel that we are masters of the position.—Rev. L. Scott, Bishop M. E. Church. It is worth one dollar a week in every family.—N. Y. Tribune. In the laundry of my house there is a great saving of time and money, and contentment.—Rev. Dr. Bellows. Friend Duty—Your last improvement of your Washing Machine is a complete success. I assure you our Machine, after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances.—Solon Robinson. Your Washing Machine has been in daily use in our laundry, and the house-keeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old-fashioned wash-board. By using it, one laundress is dispensed with.—Wm. M. F. Bond, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.

**PRICES—A Fair Offer.**  
Send the retail price, Washer \$14, Extra Wringer \$9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines free of freight after a month's trial, according to directions. No husband, father or brother should permit the drudgery of washing with the hands, six or ten days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Duty Clothes Washer, and a Universal Wringer. Canvasers with exclusive right of sale make money fast selling them. Sold by dealers generally, to whom liberal discounts are made.  
R. C. BROWNING, Gen'l Agent, 32 Canal St., New York. aug. 12—5m.

**SHRINER'S**  
**BALSAMIC COUGH SYRUP**  
Will cure the ASTHMA, BRONCHITIS, BLOOD SPITTING, DIFFICULTY OF BREATHING, PAIN AND WEAKNESS IN THE CHEST, TRACHEITIS, COUGHING AT NIGHT, &c. It will usually remove the Cough that frequently follows Measles, and any affection of the respiratory organs, no matter of how long standing, or whatever the age of the person. It acts as a specific, is purely vegetable, and is pleasant to the taste. It is especially useful in the violence of the cough, facilitating expectoration, quieting the nerves and exhilarating the system.

**Mothers, Save Your Children**  
No child needs die of CROUP, if this Syrup is used in time; this is a fact demonstrated by experience. No family should be without this Syrup, as that fatal disease, CROUP, comes like a thief in the night, to steal away your little ones, which regular medical aid cannot be obtained.

**A VOICE FROM THE SOUTH! LOUD! LOUDER!! LOUDEST!!!**  
Deeming it an absolute fact that a man's health should be his first and most peculiar care, we have taken the liberty to print below a few testimonials which go to show how sickness may be removed and health maintained by a Southern Medicine made only for Southern People. We refer to that time honored remedy **MAGGIE'S LIFE PILLS!**

Used as they are almost universally, we cannot but take pride to ourselves that these medicines indicate by their sales alone a prouder evidence than most preparations of the day attain. It shall always be our aim and most earnest care to maintain the standard of their excellence.

**Hear what is Said! READ! READ!! READ!!!**  
This is from the Hon. A. H. Stephens.

**MARRIAGE GUIDE**

A PRIVATE COUNSELLOR TO THE MARRIED or those about to marry, male or female, in all that pertains to the physiological mysteries and revelations of the sexual system, with the latest discoveries in producing and preventing offspring, how to preserve the complexion in all its attractiveness and beauty, &c., &c.

This is an interesting and important work of over two hundred pages, written in plain language, with numerous diagrams and engravings, and contains all that valuable information that every person who is married or contemplates marriage ought to have, yet, which so few really possess. It unravels mysteries and discloses secrets that everybody should know; still it is a book that ought to be kept under lock and key, and not laid carelessly about the house. It embraces everything on the subject of the generative system that is worth knowing, and much that is not published in any other work.

This invaluable work will be sent to any one (free of postage) on receipt of Fifty cents.

Address: Dr. Butts' Dispensary, N. W. corner Fifth and Market streets, St. Louis, Mo.

**Notice to the Afflicted & Unfortunate.**  
Before receiving treatment from any of the notorious quacks of this or any other place, who advertise in the public papers, or using any of the most numberless Quack remedies, carefully peruse Dr. Butts' work. No matter what your disease is, or how deplorable your condition, remember that while it cost you fifty cents to have it with its valuable information, it may cost you, as it has many, a life of hopeless misery, and regret not to have it.

Dr. Butts can be consulted personally or by mail on any of the diseases mentioned in his works. Office N. W. corner Fifth and Market streets, (opposite Court House,) St. Louis, Mo. aug. 26—ly.
