

SMALL POX

The State Board of Health demands that the County Board of Health quarantine all cases of Small Pox in Grundy County. While there have been a great many cases of small pox in this county in the past few months and little has been done.

Now according to the State Board of Health, We the County Board of Health, Request that every one who has not had Small Pox and every one who may have been exposed be Vaccinated at once. The County Board of Health will do what it can to stop the disease, and we invite the co-operation of all our citizens. If you know of a case of Small Pox report it to any member of the Local Board and such one will be quarantined at once.

Be Vaccinated--Be Vaccinated

County Board of Health for Grundy Co.

It is a misdemeanor to violate a quarantine and punishable by fine of not less than \$5.00 nor more than \$50.00, so be careful and not violate this law as same will be enforced.

New Gear Increases Ford Truck Speed

A special gear and worm now being manufactured by the Ford truck increases its speed from five to seven miles per hour without increasing the speed of the motor. The truck comes from the factory equipped with standard gearing, the recommended speed for which is 15 miles per hour, and the change to the special gearing is made by the local dealer when the customer desires a more speedy truck.

Man Must Work Says Henry Ford

"Man must work-that is inevitable," says Henry Ford. "He may work grudgingly, or he may work gratefully; he may work as a man or he may work as a slave. He cannot always choose his work but he can go about it in a cheerful, generous temper and with an uplooking heart. There is no work so rude that he may not exalt it; there is no work so dull that he may not eliven it. But he must work."

The first automobile in the Garden of Eden was a Ford.

Look what Adam and Eve missed by not arriving a little later on.

When General Emmanouel Zymbrakakis, Greek Commander-in-Chief in Thrace, visited the destroyed village of Makie, he rode through the streets in a Ford car.

Our friends had better look out and pay their dog tax before Court Day, as we understand the law is to be enforced. However, Jan. 1, next, ends the annoyance, thanks to the efforts of Senator Monroe in the recent legislature.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Theford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

Women are Discriminating Motor Car Buyers

"The majority of women are proving themselves as discriminating automobile buyers as men," says C. R. Stevens local dealer in Chevrolet passenger and commercial cars.

"It used to be thought that most women were influenced in the selection of a car by appearance alone. If the car body was pleasing to the eye it was thought she could be sold immediately without serious investigation of mechanical ability.

"But today women appreciate the importance of mechanical excellence. When it comes to selecting a car for her own use the average woman is firmly holding up her reputation for securing the utmost value for every dollar she spends.

"The woman has had experience in driving cars herself. She knows not only what equipment is essential but also what mechanical qualities are necessary to her comfort.

"She has learned that a sturdy medium weight automobile is the most convenient and easy for her to drive. It conserves her strength, affords every advantage any car will offer and

above all keeps her transportation costs at a minimum.

"The up-to-date woman knows that she can get the most satisfactory mechanical service from such a car. She knows also that the purchase price will include every item of equipment that will make for riding and driving comfort. She sees to it that it does.

"And because these efficient economical cars are purposely designed along sound conservative lines that are always in style, her pride in the appearance of her car is entirely satisfied.

It's hard to improve on nature. She gives gold for sweat. Schemes to improve on her methods may be human but as a rule they lead to their own defeat. Hump and jump mean the same when it comes to getting there, but it's a poor dub that would attempt to play one off against the other. The quickest way to get back to the normal is by burying a little of our cheap wisdom and taking a few hints from nature and the powers that be.
