You are the one who must suffer if your prescription is filled by a careless clerk.

Your prescription will be properly compounded at our store.

It will be filled by a competent and experienced pharmacist.

So many of the Enterprise subscribers have failed to respond to our request to meet their subscription accounts that we must call attention to this matter again. We are trying hard to hold the price of subscription down to \$1 per year, while many papers are increasing the rate, but in order for us to do so we will be forced to ask all subscribers to pay in advance. While you may think your one dollar don't amount to much, it does. If you pay in advance it helps to insist that the other fellow do the same. There are many of our subscribers who are six months to one year in arrears and we are going to expect them to pay this and some in advance. We hope you will not disappoint us. We must ask all to comply with this request by sending a remittance at once. 24 3t.
