LOCAL FARM NEWS

(Carried on by United States Department of Agriculture Division of Extension Grove High School and Henry County.)

There is a great demand for ground limestone according to J. A. Patrick, County Agent. The farmers have seen the beneficial results from its use and are wanting it in car lots. The following communication from Mr. A. D. Knox is self explanatory:

"You, favor of July 9th: I will refer this to the Ezell Mill and Quarry Company, who will do their best to fill any orders that are placed with them.

The limestone will cost delivered at Paris \$2.25 per cent ton. This is due to the fact that the advance in labor, and explosives is so great that the quarries have been forced to advance their price to \$1.25 and the freight rate has been advanced 2 cents per ton. I would suggest that you place your orders with us until further advised."

It is plain from the above letter that no absolute assurance that you will get lime. However, I think it would be advisable for us to place our orders. If we get the lime well and good, if we do not no one will be disappointed. Farmers will place their orders with Mr. Patrick and he will forward them to Mr. Knox, or mail your orders direct to Mr. Knox.

The Food Administration is requiring all thrashers to keep accurate record of all wheat thrashed. Record books for keeping such information are in the hands of Mr. Patrick. He is trying to see each thrasherman personally and distribute these record books. Thrasher-men who do not receive these books

by the 25th of July will please call on him for a book. These books must be completed and in the hands of the county agent by July 29th.

The drouth has given shallow cultivation a chance to show its virtue in keeping corn thrifty and growing. All the club acres have shown up well. Every one of them is worth seeing. Carmack Shell plowed nine rows of his corn deep and quit because he was pruning off so many roots. The corn showed to the row where the deep plowing stopped. Foster Jones, of the Grove High School Club, Gorman and Travis Allen and Samuel Wynn, of the Sulphur Well Academy Club all have old corn that went through the drouth in good shape by the use of shallow cultivation.

Mr. B. F. Hawks has both the deep and shallow cultivation and he reports that his corn held up much better where the shallow cultivation was used.

There is considerable interest in the fall crops, especially alfalfa. Every effort should be made to get lime. The land should be already broken, subsoiled, and in summer followed. Do not allow this season to pass without breaking land that has not already been broken. Keep up the light cultivation with disc and harrow every week or ten days.

Mr. George Loving and Mr. A. P. Diggs have been so successful with alfalfa until everybody wants alfalfa.

Mr. Albert Hartsfield reports one cutting of alfalfa worth \$6 per acre. He believes that land should be subsoiled for alfalfa. Mr. Hartsfield is making a success with crimson clover for seed. He saved 7 bushels per acre last year

'BERLIN VIA AMERICA' AT THE DIXIE THEATRE

Brief Synopsis of the Play Portrayed
By Elsie Van Name.

Forward—"Our whole strength will be put into this war of emancipation— - emancipation from the threats and attempted mastery of selfish groups of autocrats"—Woodrow Wilson.

Phil Kelly a veteran of the Spanish American war is a member of the United States Secret service. Shortly after the break with Germany he is called by his chief and sent on a dangerous mission. The parting instructions are: "If necessary, prove disloyal to your country." Kelly finds this hard but for the sake of the cause agrees.

The first to suffer because of his assumed disloyalty is his mother when he tells her he will not enlist. At his club he is forced to resign when his patriotism under question, he is forced to remain silent—and thus earns the contempt of his fellowmen. Two visitors at the club, Harris and Shamme, under suspicion do not realize that Kelly is playing for them. They approach him with congratulations on the firm stand he took against the American methods of his fellow members. Playing into their hands Kelly is finally invited to attend one of their meetings.

The story of his degradation at the club having preceded him to the home of his sweetheart, Rose Lockley when Kelly calls he is ordered from the house by her father, Colonel Lockley. Rose, sympathizing, realizes there must have been some reason for Phil's action.

At the meeting of the German agents Kelly learns of their plans to sink transports, and also, with the help of Lieutenant Miles, whom Kelly has long suspected, how they expect to get plans which are the possession of Colonel Lockley. The meeting is broken up by the secret service, who had secretly been warned by Kelly, but he, together with Harris and Shamme, escapes. He is thus enabled to notify his chief and save the transports. Going to the home of Colonel Lockley he defeats the purpose of Lieutenant Miles. Just as he is leaving the house with the precious plans he meets Rose under circumstances which lead her to believe him a thief. He turns the plans over to her and goes away.

With Harris, Phil Kelly is smuggled aboard a German submarine and sets out for Germany.

On the Western battle front, now an aviator in the German army, is known as No. 54—and called the American troops "The Dove" because he never does any harm. Here he learns much of the frightfulness of the Huns. These deeds have changed Harris, who is still with him, until he wishes he were back on the other side. With the help of Harris he now learns of a big German offensive. Before the battle he flies over the American lines and drops a message forestalling the attack. On the staff at the American headquarters are Colonel Lockley and Rose, "doing her bit" as a motor driver.

With the information the Americans are able to out-manoeuvre the Huns and "going over the top" they sweep all before them and capture the German headquarters—just another step in the march of our boys on to Berlin. While the battle is raging a shell strikes the building in which Kelly is stationed and he is badly hurt. When the lull comes he is found and under the gentle care of Rose his recovery is assured.

And those who have before looked on him with contempt now realize that he was ready to sacrifice his all—and his only reward was that Freedom and Justice might live.

Enthusiastic over their success, the cry of the "Sammies" echoes and re-echoes along the great line: "Berlin or Bust."

BONDS OF THE FOURTH LIBERTY LOAN.

Bonds of the Fourth Liberty Loan are now being turned out by the thousands daily by the Treasury's Bureau of Engraving and Printing. The bonds are similar in form and design to those of the third loan, and space has been left on each bond for insertion of the exact terms of the bonds.

It is believed that a sufficient number of the bonds will be ready to make possible immediate delivery of all bonds for the fourth loan as they are purchased.

I. F. Kirk is ill at his home on Washington street this week.

ARMY MAKES RECORD MEAT PURCHASE

The largest single order for bacon and canned meats in the history of the world—99,560,000 pounds of bacon and 134,000,000 pounds of canned meats—has just been placed by the Quartermaster's Department, U. S. A., for the American Armies overseas.

Louis F. Swift, in commenting on this today, said the order will take the bacon from approximately 1,900,000 hogs and if other work were dropped to produce it would be equivalent to the total bacon production of the five largest Chicago packers for nearly five weeks, however, six months will elapse before delivery is to be completed.

Mr. Swift said: "At the current prices on the day, last week, when the purchase was made, the packers would pay the live stock producers about \$80,000,000 for the necessary hogs and over \$50,000,000 for about 900,000 cattle required.

"The cattle will cost us twice as much, and the hogs two and one-half times as much as in the pre-war period.

"The whole order will be made up before the first of the year, despite the fact that, even before this purchase, one-fourth of the packers' facilities have been devoted to filling military demands.

"In order to get out the canned goods the packers will find it necessary to employ night and day shifts of canners. Notwithstanding the fact that the products are being rushed forward thus hurriedly, not a single complaint has been received on meats delivered to the armies abroad.

"The five packers are now killing about 360,000 hogs weekly to keep abreast of material and domestic needs.

NOTICE

AUTOMOBILE OWNERS

We are again in our old location, corner BREWER & WASHINGTON STS. where we would like to have you call for gasoline, oils, etc. We have an expert car cleaner.
