The S. S. Supt., at Carpenter's loomed off in rather a breezy article last week, and told the people that Gibson spoke here on the 10th, although it had been in the TIMES before. Then he attacks your correspondent for not correctly reporting the S. S. (which seems to be the mission of his letter). I am known to be a friend of the S. S., and reported it here in need of help once, and then as receiving help. The Supt. may feel that he has neglected his duty and fears others will find it out. The school has not been attacked and he knows it.

E. S. at the C. P. Church known as Pine Grove. On the Sabbath following at 9:30 a. m. she was met at the church by quite a number of the citizens where she in a most amiable and earnest manner presented the reasons why a Y. P. E. was necessary. After which an organization was effected with the following named persons chosen as officers. Miss Cora Hammontrree President, Miss Cora Tip-ton Vice President, Miss Etta McClung chairman of committee on prayer Meeting, W. D. Hammontrree, chairman of Committee on membership, and Payton Anderson Secretary and Treasurer. After

some further talk as to the duty of said officers the meeting adjourned to meet at 7 p. m. of same day and hold their first regular meeting. Miss Mollie was present at this service and conducted the same. Miss Etta McClung was present also and gave a very interesting talk. The society has a membership of twenty two, and indications very flattering for a further increase in numbers. We believe this is a move in the right direction and doubtless the fruits of this organization will be seen in the great day. In conclusion I desire to extend congratulations of the society to Miss Mollie for her efficient service rendered in our behalf. She has started an influence for good that will redound to the glory of God, and the upbuilding of his Kingdom unto the ends of the earth.

Tuckaleechee Tenn.

It was a beautiful May day when we set out for Middle Creek. As lively a crowd as you commonly meet. We were all well mounted having secured the best outfit of horses that Tuckaleechee could afford. Passing by the many beauties, picturesque scenery, rippling rivulets and little rills which leak from their mother's bosom like a truant boy, down the mountain side, we in due time crossed the mountain and without searching to any great extent found our selves in Sevier county. Simply to judge from the good people who came running to the doors and windows and from the expressions of the many eyes bent wondrously upon us, as we ridged along the highway, we would suppose that they thought that we had just dropped in from somewhere; and this would not have been very wrong for we had just dropped over the mountain from Tuckaleechee.

The people of Sevier have ceased to cry "hard times," and have turned their attention to the more proper cultivation of the soil. And let me say right here that this is one of the worst deadly weapons to "the wolf." They seem to have linked heart and hand in the endeavor, and of a truth they can say "we killed the bear." But I hasten for fear of the waste basket. Passing through this beautiful country surrounded by mountains of an limited grandure, whose peaks at a bound, seem to kiss the very sky, and whose valleys, superbly dotted with the many beautiful farms supporting their hundreds of cattle, horses etc. and so richly adorned by the many cozy cot ages built where the red man used to dream out a valuable life hunting and fishing, bent low to let the flowers which fringe their banks sip the nectar from the many musical rills which wind and curve so gracefully through those broad acres of fertile lands, we could not but wonder if it was here that that great hero of long ago, the man whose very name carried terror to the Indians' hearts—John Sevier—if it was here that he moved up and down, to and fro, through this then benighted wilderness, protecting the handful of pioneers who dared brave the horrors of the scalping knife in search of a peaceful home in "the west." Was it here, he even in this land, that he with his army went with glad and gallant tread to conquer a pagan land for a Christian people?

To hasten, we met the reception committee at Middle Creek Church where at once it began to dawn upon us of the sincerity and integrity of this people. But "the half was not yet told." As we went into their homes our souls were thrilled with joy, to breathe the pure air and enjoy the liberty so dearly purchased by them.

The day following was decoration day at Middle Creek, Sevier county, which was under supervision of the G. A. R. Post Sevierville. Even in "loyal Blount," we never had the honor of striking hands with so great a number of "old soldiers." Suffice it to say that it was one of the most pleasant occasions. The dinner would have graced a royal garden. And last but not least, the rousing collection taken and placed in the hands of the treasurer of the Tuckaleechee Band swelled our hearts with gratitude, and we cannot but love the people of Sevier the Banner County.—Band Boy.

YOUR FUTURE.

IS IN YOUR OWN HAND. Palmaristry assumes to tell what the lines in your hand indicate. It will cause you to ask, "What does the above diagram almost explain itself. The length of the LINE OF LIFE indicates probable age to which you will reach. The MOUNT OF HEAVEN denotes brain power; clear LINE OF FORTUNE, fame or riches. Both combined mean success in life; but you must keep up with modern ideas to win it. You will find plenty of these in Demorest's Family Magazine, so attractively presented that every member of the family is entertained. It is a dozen magazines in one. A CLEAR LINE OF HEART speaks tenderness; a straight LINE OF FATE, peace of mind. If crooked, a well-defined LINE OF HEALTH spurs you doctors' bills; so will the health hints in Demorest's. No other magazine publishes so many stories to interest the home circle. You will be subject to extremes of high spirits or despondency if you have the HANDLE OF VENUS well marked; keep up your spirits by reading Demorest's Magazine to read. By subscribing to it for 1894 you will receive a gallery of exquisite works of art of great value, besides the superb premium picture, "The Daisy," which is almost a real baby, and equal to the original oil painting which cost \$200; and you will have a magazine that cannot be equaled by any in the world for its beautiful illustrations and subject matter, that will keep you posted on all the news of the day, and all the "talk" and different items of interest about the household, besides furnishing interesting reading matter, both grave and gay, for the whole family; and while Demorest's is not a fashion magazine, its fashion pages are perfect, and you get with it free of cost, all the patterns you wish to use during the year, and in any size you choose. Send in your subscription at once, only \$2.00, and you will really get over \$25.00 in value. Address the publisher, W. Jennings Demorest, 15 East 14th St., New York. If you are unacquainted with the Magazine, send for a specimen copy. A large QUADRANGLE means honesty; a large TRIANGLE, generosity; low FIRST DIVISION OF THUMB, strong will; LONG SECOND DIVISION, reason; the MOUNT OF JUPITER betokens ambition; that of SATURN, prudence; the SUN, love of order; MARS, energy; VENUS, love of pleasure; and MERCURY, intelligence. Take our advice as above and you will be sure to possess the last and most valuable wealth.
