

EASTERN STAR RECEPTION

The visit of Mrs. Alice E. Robbins, Grand Worthy Matron of the Order of the Eastern Star of Florida, to the Fort Pierce lodge, Ruth Chapter No. 12, was an occasion long to be remembered by those who had the pleasure of attending the meeting and reception last evening.

The early part of the evening was devoted to exemplifying the work of conferring degrees. L. S. S. Farnsworth being initiated into the Chapter, after which a few friends of the members and the Fort Pierce band was invited into the chapter-room to be present at the reception and lunch tender to the Grand Worthy Matron.

After a few minutes of pleasant conversation a table was placed across the room, and around the festive board about forty members of Ruth Chapter, visitors and members of the band sat down to an elegant luncheon, which consisted of salads, sandwiches, coffee, ice cream and cake, and which was served in a most tasteful manner by the ladies of the chapter.

At intervals during the evening, before and after the luncheon, the Fort Pierce band rendered several choice selections, which added considerably to the evening's entertainment.

The evening's pleasures came to a close about 11 o'clock, all having had a most pleasant time.

Mrs. Robbins left on the midnight train for Titusville, from where she will leave today for her home in Sanford. This is the first visit of the Grand Worthy Matron to Fort Pierce and she expressed herself as being delighted with the ladies of Ruth Chapter, the people she met and the splendid reception tendered in her honor.

Protracted Meeting.

The protracted services at the Baptist church closed after a very successful meeting, which resulted in the addition of nine members to the church, four by baptism and five by letter. Sunday afternoon the baptismal service was held from Jennings dock in the north end of town, when Misses Johnnie Van Dittmar, Rosa Mace, Maime Winters and Master Earle Shuler, were baptised. The service was most impressive, and was witnessed by an audience of several hundred. Dr. McCall, the state evangelist, and the pastor, Rev. E. E. Woodson were much pleased with the audiences that greeted them at each meeting, and were also quite taken with our town, and promise to come again in the spring when they will probably hold their meetings in a tent.

The Meanest Man.

A well to do Chicago real estate owner went into a hardware store in that city and asked the proprietor for a pound of nails. The small package was made up and the price, a nickel, handed to the merchant, when the customer asked if the purchase could be sent to his house, which was in a distant part of the city. The merchant assented and, calling an errand boy, handed him the parcel, with the nickel he had just received for it, and said:

"Here, Johnny; take the car and take this parcel out to Mr. Blank's house."

"What?" said the customer. "Are you going to give the boy the nickel to take the parcel out?"

"Why, certainly," said the merchant. "I wouldn't think of asking him to walk so far."

"Well," said the meanest man in Chicago, "if you would just as soon give me the 5 cents I will take it out myself!"—Minneapolis Journal.

Canary Seed.

Perfectly clean seed is absolutely essential to the health of a bird. Do not trust to the appearance of the seed alone, but thrust your hand into the midst of a quantity, and if there is a dusty feeling after you have withdrawn it the seed is not sufficiently clean, says Home Chat. Canary seed, if of good quality, is very bright and plump in appearance and feels heavy in the hand.

Impertinent.

Uncle—Well, here's the money you've been bothering me for. Now, remember the old saying that "A fool and his money are easily parted." Nephew—I don't know about that. I've had to coax you for more than a week for this!—Answers.

Comforting.

Manager—Weren't you afraid to sleep in that haunted room? Disgusted Thespiian—No; it was a real comfort to be in some place where the ghost walked.—Baltimore American.

NOW AND THEN.

Chemists' Odd Jobs.

"Mankind is suspicious," said a chemist of the board of health. "Only last week a wealthy clergyman sent me a piece of pie for analysis. He suspected that his daughter, a beautiful and good girl, wanted to put him out of the way. The pie contained, of course, none but the usual ingredients. "Some people send me pickles, sauces, plackings—profitable and widely advertised compositions that they want to learn how to duplicate and vend themselves.

"There isn't a well known patent medicine that hasn't been submitted to me for analysis twenty or thirty times."—New York Press.

Ready For the Cholera.

Some years ago there was an outbreak of cholera in France, and instructions were forwarded to the mayor of a certain village to take all necessary precautions, as the epidemic was rapidly spreading. At first the worthy magistrate did not know what to do. After awhile, however, he reported that he was ready to receive the dread visitor. Upon inquiry being made it was discovered that by his orders a sufficient number of graves had been dug in the local cemetery to bury the entire parish if required.
