

REAL ESTATE

THRIFT!

All of us are practicing more thrifty habits than we did two years ago.

The foundation of thrift and economy is to stop renting and buy a home. Delay only makes the situation worse.

ROSALIE PARK combines all the important essentials as a home place for Standard Oil workmen: walking distance to work, close to school and churches, good neighbors, rapidly enhancing values, low prices and easy terms.

We can convince you if allowed the opportunity.
