

U. D. C. DEPARTMENT

(Continued from page two)

George Davenport, Ernest Lambert and Miss Maggie Frank.

Mr. Lobell though ill for many months bore suffering uncomplainingly as he had the hardships of the Civil War. Death was expected at any time, nevertheless, his loss is sadly felt by mourning relatives and numerous friends, including the rapidly narrowing circle of survivors of the cause for which he so manfully and faithfully struggled, among whom were some who were companions of his boyhood. He lived a good and an honorable life and he died a Christian death. Peace to his ashes.

Mrs. Florence C. Tompkins reports the following U. D. C. scholarships to be filled at once. Applicants may see Mrs. Tompkins and committee at Memorial Hall, Monday, Aug. 28th at 3:00 P. M.

1. Loyola University, pre-medical;
2. Loyola University, conditional;
3. Gulfport Military Academy;
4. Seashore Camp Grounds;
5. Rugby Academy;
6. Katherine Bres' School.
7. Holy Name Academy.
8. University of Virginia.
9. Washington and Lee.
10. War Hero Scholarship.

Applicants must be worthy descendants of worthy Confederate Veterans; they must state their inability to meet tuition expenses.

EDUCATIONAL WORK U. D. C.

An important meeting of the Educational Committee of the Louisiana Division U. D. C. was held in the Memorial Hall on Thursday, to receive applicants for scholarships. The meeting was presided over by Mrs. Florence Tompkins, Chairman. Other

members of the Committee present, were Mrs. P. J. Friedrichs, Mrs. Jesse P. Wilkinson, Mrs. Fred C. Kolman, president of the Division and a member ex-officio. New Orleans Chapter No. 72 was represented by Mrs. Fred Quereins, president, and Mrs. Chas. Granger, a member of the Educational committee of New Orleans Chapter. Mrs. Hickey Friedrichs, president, represented the Stonewall Jackson Chapter.

Mr. Stephen Harte received the appointment to the scholarship at the Loyola University, and other applicants for scholarships were taken under consideration. Many splendid suggestions were made as to the advancement of the work of the Educational committee, for next to the care and comfort of the Confederate Veterans, the Educational work is the most important work of the organization.

Much credit is due the New Orleans Chapter 72 U. D. C. and the Stonewall Jackson Chapter for the splendid advancement in educational work, many new scholarships having been obtained by these chapters, and other chapters in the state are doing good work along the educational lines.

At the close of the Great World War, the Daughters of the Confederacy created a Hero Scholarship Fund, the goal to be \$50,000.00. The Daughters of the Confederacy claim this as a remarkable attainment and one worthy to stand with the other unique records of the U. D. C. that this Memorial has been practically completed within three years after the close of the war, and not only that, but it is designed to honor. The interest received from this \$50,000.00 is used for scholarships, and so far the U. D. C. has helped from the Hero Fund, nineteen young men with \$2,770.00. This fund is indeed a golden capital to the mounting column of the Educational work of the U. D. C., and

is the great Memorial that links together our Confederate Fathers and Khaki-Clad Sons, Americans, all.

An interesting report in the Educational work of the U. D. C. is the fact that Hector W. Church, a union soldier of Oxford, N. Y. paid a great tribute to the United Daughters of the Confederacy by leaving his entire estate, valued at about \$10,000.00, with the exception of two minor bequests, to this organization with the request that \$4,000 be used to perpetuate the fame of four Southern Heroes, Jefferson Davis, Gen. Robert E. Lee, General John B. Gordon, and General Jubal Early, and the residue of Estate to be used by the U. D. C. in perpetuating the fame of other southern heroes or as they deem best. The President General, at the last General Order Convention received from the Hector W. Church Estate to hold as a permanent fund, and that the interest be invested in U. S. Government bonds until the fund shall total \$11,000.00. This amount to be divided into four scholarships to be named for the four great Southerners admired and honored by the generous friend of the United Daughters of the Confederacy. This recommendation was accepted unanimously by the convention.

The last report of the General Order educational work was an expenditure of \$99,666.98.

At the convention of the Louisiana Division U. D. C. held in May in New Orleans, Mrs. Florence Tompkins, Chairman reported more than \$7,000 expenditure in educational work in Louisiana. This speaks well for the wonderful work accomplished by the Daughters of the Confederacy both in the General Order and in the State of Louisiana.

The Educational committee of Louisiana Division is as follows: Mrs. Florence Tompkins, 2831 Prytania St., New Orleans, chairman; Mrs. P. J. Friedrichs, 733 Austerlitz St., New Orleans; Mrs. Arthur Weber, 2725 Esplanade Ave., New Orleans; Mrs. Jesse Penrose Wilkinson, 5230 Camp St., New Orleans; Mrs. Edward Phillips, Natchitoches; Mrs. James Andrews, Alexandria, La.

The list of scholarships is as follows:

New Orleans chapter offers three scholarships still open, Loyola, pre-medical, Spencer and Holy Name high school.

The Cunningham Memorial whose General Chairman is Mrs. Ardie A. Owen, is striving to reach the goal before the Convention in Birmingham in November. The Memorial is in the form of a scholarship at Geo. Peabody School for Teachers, in Nashville, Tennessee, and will be open for the fall term to applicants from all states. The State Director, Mrs. Charles Granger, will be pleased to give information on the subject. The Chairman wishes to remind all chapters and individuals having made pledges for this great work to send same at the very earliest opportunity, so as to be incorporated in the report for the Birmingham Convention. Any others wishing to make donations for this worthy cause will be gratefully acknowledged by the Director, Mrs. Charles Granger, 1138 Broadway, New Orleans.

GREEN EATS.

It is probably not an accident that warm weather is the time when fruits and vegetables are most plentiful and at their best. Now, if ever, we need them most. This is what our bodies get from fresh fruits and vegetables: **TONIC ACIDS** which tone the vital organs and act as regulators and also help to purify the blood.

MINERALS—Calcium, which keeps the veins and arteries supple, and the bones from becoming too brittle; phosphorus, which is a nerve and brain food and without which some authorities claim no other food will do us any good; iron, which upbuilds the blood and without which we would become anaemic.

VITAMINS—which nobody knows much about, but they make us more vigorous and lively.

ROUGHAGE—the cellulose and wood fibre which is needed for bulk to encourage the peristaltic action of the digestive tract. Without this, digestive action and elimination are both sluggish.

Much actual nourishment, starch, sugar, and proteins are found in bananas, beans, peas, and in other fruits and vegetables.

Fruits and vegetables are largely water and we need that, too. When they can be eaten raw, they are better so. Cooking often destroys the vitamins. Much of the mineral matter is dissolved and wasted in the water in which they are cooked. For this reason use as little water as you can and make use of it as a food if possible.

Fortunately a great many of us may pick all this treasure from "our own vine and fig-tree," or we may buy it of the truck-man or fruit vender at the door.

Overland Touring Car Given Away Free Feb. 14th at 4 P. M. A ticket with every purchase of one dollar or paid on account.

OUR NEXT SUPREME COURT JUDGE:

(From Sunday News, Aug. 27th.)

This campaign is unique, in that there are no political issues involved, no platform to which the candidates can address themselves, no promises of political reward to their friends, and no plan or reform espoused for the voter's guidance; nor does the office sought carry with it any patronage to be dispensed to the loyal supporters of the one elected. The reason for the absence of those features which go usually to make for interest and enthusiasm when candidates fight for office is that the high office of Associate Justice of the Supreme Court is not administrative, but wholly judicial in character. A judge of that court upon election is entirely removed from politics for fourteen years, the prescribed term of office. That court is required to decide the questions of law that are presented to it by appeal from lower tribunals. That court is the final arbiter of justice determined by the law and written record of the cases presented to it. Therefore, it takes a man of special judicial temperament and experience to properly fulfill the requirements of the office and discharge its functions with the greatest efficiency and fairness, a man of solid balance, strong character, fair mind, and cool and safe judgment. There can be no difference as to how the one elected should perform the duties of the office. The difference lies in the men who seek the office. Whose experience better fits him for this office? Whose record most strikingly-points to the Supreme Court? Which candidate will lend greater weight for the next fourteen years toward establishing the most just and equitable jurisprudence for our future guidance?

The answer is: Hon. H. F. Brunot, of Baton Rouge.

For all those who know Judge Brunot, his record as a man, a lawyer and a judge, his name is sufficient reason for that answer.

As a man, Judge Brunot is known far and wide for his christian character and lofty ideals of gentlemanliness, which have always demanded the highest respect, esteem and love of his fellows. His long activities as a leader in thought among men in this state and for the progressive development of his parish make him an outstanding figure of intelligence and experience. He has never feared to take the stand he thought right, and he is without a peer when it comes to independence in thought and action. During his more than two score years of active life both private and public, he has always grown in the respect and affection of his fellow citizens.

When he began the practice of law in Baton Rouge about forty odd years ago, he quickly built up a lucrative practice. His ability as a lawyer was soon discovered. His quick mind to grasp and solve technical legal questions soon brought him to the front as a lawyer, and won for him deserved recognition and distinction. While enjoying a practice at the bar his judicial temperament was apparent and he was elected Judge of the District Court in East Baton Rouge Parish in 1896. He has now held that office for over twenty-five years, and he has not had opposition for it in fifteen years.

He has for forty years been a profound student of the law in all its phases. He studies the cases before him. Judge Brunot has been heard to remark that many times when he has taken the record in a case to his library to study the case and arrive at a decision he has found how little the lawyers employed in the case really knew about it themselves. Therefore, he has long since learned to base his decision upon his own study and analysis of the law and facts, which is probably one of the main reasons that his decisions have been so uniformly upheld by the higher courts to which appeals have been made.

As district Judge in East Baton Rouge Parish, Judge Brunot has had to decide every character of case, both civil and criminal, affecting friends and fellow citizens, and his decisions have been in accordance with justice and the law laid down for him to enforce, even though such decision may have been directly contrary to the wishes of his best friends. This was, of course, his duty, and it is worth more than passing mention that he performed this duty without fear or favor and with a keen sense of loyalty to his oath.

The personal esteem and recognition in which he is held by the other members of our Supreme Court, and the high regard they have shown officially for his legal opinions make it easy for Judge Brunot to step upon that bench with full assurance of their hearty co-operation in his efforts to maintain justice and respect for law, and to so shape our jurisprudence as to point clearly the legal bounds of all activities. He will not be required to serve any period of apprenticeship to get acquainted with the Court and its business, because he will at once be among men who already know of his great ability.
