Election, Tuesday, November 4th, 1873.

Radical Preaching vs. Radical Practice.

We know nothing which exceeds the unblushing effrontery of the leaders of the Radical party, unless it be their venality and corruption.

This resolution is in entire accord with the preachings of the Radical party, and in entire discord with its practices.

Resolved, That we are earnestly in favor of such reform in our State and county governments as will relieve our people from the heavy burdens of taxation to which they are subjected, and restore the value of our property, now so sadly depreciated.

This resolution is in entire accord with the preachings of the Radical party, and in entire discord with its practices.

to us as household words. Such men as Bond and Underwood sit on the bench and daily prostitute the judicial office for partisan purposes; and, not least among our other curses, we have Internal Revenue Collectors and Assessors, with their hordes of relatives and subalterns, ravenous as the locusts of Egypt, preying upon the substance of the people, and running the machinery of their party, for the perpetuation of this condition of things.

All these things and many more are of daily and hourly occurrence; and yet these very men who have brought about this disgraceful state of affairs, adopt resolutions about honesty, reform and a reduction of taxes! Is not their impudence most consummate! Can thinking men be deluded by such empty declamation?

Can the tiller of the soil, who, like the fabled Atlas, bears upon his brawny shoulders the burden of the world, be humbugged by such clap-trap? Can the farmer, who, in violation of law, has been robbed of the result of years of careful labor, be deluded by stuff like this? Can the laborer, whose beaded sweat "has been crystallized into diamonds" for the non-taxpaying bond-holder, be satisfied that his little ones shall still go barefooted and in tatters because of empty promises like these?

Yes! they are in favor of reform in State and county government! Such reform as they gave in Georgia when Bullock was Governor, who robbed the State of millions, which he is now enjoying in regal style in Canada. Such reform as they have given the people of South Carolina, where they have so successfully robbed the State and impoverished the taxpayers, that the public schools are all closed, and the poor unfortunate lunatics, who had heretofore been cared for by the State, are turned loose upon the community, and all because there is no money in the treasury to support them.

Yes! they want such a reduction of taxation as they have given the people of Louisiana, where what were heretofore the finest estates within her limits are now advertised for rent for less than the taxes. Yes! they want such appreciation of our property as they have given the people of Washington city, where they have assessed it at three times its value, in order that they might collect enormous taxes to be pocketed by their rings. Judge the tree by the fruit it has borne. As they have done wherever they had the power, so surely, will they do here in the State of Maryland if they can get control of it.

We may glance further at their platform. Cheap Machinery. The advocates of the reduction of the cost of marriage licenses from \$4.50 to 95 cents—50 cents to the clerk, as now, and five cents to the State.

The distinguished gentleman who offered this resolution said he wished it to be distinctly understood that he, all by himself, and out of his prolific and enterprising intellect, had concocted and perfected this marvellous scheme of reform, which was to carry peace on earth to men and women of good will—cause the land to be peopled anew; the earth to fructify and produce plentifully; waste places made to smile; Zachia swamp to dry up; Port Tobacco run to flow with milk and honey; Bryantown whisky to be made harmless, and last, but not least, enable the Radical party to get possession of the offices and Treasury of this State. Think of it readers! All this is to be brought about by the mighty intellect of one man. Well is it for the reputation of such men as Calhoun and Webster, Jefferson and Hamilton that this gigantic intellect had not blazed forth in their day, for they would have been dwarfed into naught by its very glare.

The distinguished gentleman told us how his great mind discovered this cure-all. Like all great discoveries of modern times it was made in the simplest manner. He went to Connecticut and got married and they only charged him fifty-five cents for it. Instantly his philosophic mind saw the opportunity whereby the State of Maryland might be redeemed, regenerated, disenthralled and handed over to Radical control. But with the modesty which is always characteristic of true genius he forbore for years to disclose his great discovery to the public, but kept it hid in the recesses of his capacious mind, and doubtless the same cause might have impelled him still to have retained his secret, had not the maddening thought pressed daily upon his philanthropic intellect that his suffering fellow-citizens of Maryland were debarred from indulging in the patriotic luxury of matrimony, except at the fearful and ruinous cost of \$4.50, whilst he enjoyed that glorious privilege for only fifty-five cents. This must no longer be—all must stand equal before the law." He had been married for fifty-five cents, therefore nobody ought to be required to pay more.

See the policy of the resolution! The State Treasury is to lose \$3.95—but touch not the Clerk's fee of \$50 cts for filling up the blank license! No that would not do! Never cut down the pay of officers!—The Radicals don't believe in that, especially when they hope to fill the office with one of their confederates. It is true our laws provide now, and have provided for generations back, that on the publication of the bans thrice in some church in the county where the woman resides the parties may be married, by

some duly authorized minister, without any license whatever, but that does not suit the advanced ideas of the Radicals; we must come up to the practice of Connecticut, and, above all, we must hold sacred the fee of the clerk. We would suggest that provision should be made to refund to all those unfortunates who had paid their \$4.50 before this luminous discovery. By all means let us have a back-pay grab. It would make "all men equal before the law."

"If our life should be spared long enough to enable us to wade through the verbose resolutions of the so-called Independents we will give our views thereon, if we should find anything worthy of notice.

A "Sorry" Stump Orator. The President of the pseudo Independent Democratic Convention, which met here on the 1st instant, said he was very sorry for it, but he would be obliged to take the stump this fall. We are sorry too, "Colonel,"—sorry for your colored brethren who will have to listen to you.

The Disappointed and the Expectants. "Sitting on a rail" with a knowing friend, on the day of the meeting of the co-incident Conventions, we noticed the advent of the so-called Independent Democrats, and we easily spotted every man. They were with the assistance of our knowing friend, divided into two classes—the disappointed and expectants. We counted among the disappointed, three tobacco inspectors, seven tax collectors, one sheriff, three clerks to the Commissioners' Court, two supervisors, three committee clerks to the Legislature, two candidates for the Legislature, one who had applied for everything from tobacco inspector to court bailiff, one man mad because he had not been drawn on the jury, and one man mad because he had been disappointed in himself. As for the expectants, they comprised all of the above and the few besides whom we have not counted, and who composed the entire body. We suppose they will all be gratified, for the Radical candidate for the Senate was heard to say on that day—"D—n a party that can't give all of its members an office."

The Democracy of Charles. Our friends in Charles have done a handsome thing. They met in Convention last week and put forward a splendid ticket—that will command the united support of the high-hearted Democracy of old Charles—and, from personal acquaintance with most of the gentlemen nominated we do not well see how they could have formed a better ticket. Well do we remember, in the good old days, before the accursed blight of Radicalism fell upon the land, with what pleasure we looked forward to the coming of the hospitable, generous-hearted people! How many pleasant memories cluster round the names of Peregrine Davis, Phil Wall and Andrew G. Chapman—the (worthy son of a worthy sire)—whom we were accustomed to meet on the court house green! And as we cast our eyes down the list, we note many other familiar names. Our genial friends, Geo. A. Hunt for Clerk; Joe Stewart for Register of Wills; Phill Sasser, Willie Dement, Frank Dunnington, J. T. Ward and Jos. Price, for the Commissioners' Court; J. R. Murray for Sheriff; and last, though not least, James L. Brauner for County Surveyor.

Gallant gentlemen, with such a ticket, you are bound to win! One word of caution: Do not listen to the siren song of the "Sore-head"—"sing he never so sweetly." And, remember—"one Renegade is worse than ten Turks!"—Prince Georgian.

District of Columbia Bonds. Washington, October 5.—The large demands for money by the contractors on the extensive improvements on the streets made an exceedingly tight money market yesterday. High rates, even fabulous rates of interest were offered for short or call loans without finding any one willing to yield up his purse-strings. In many instances the most approved District bonds were offered at 50 cents on the dollar, and even this seeming sacrifice elicited no response. A contractor was asked how he could afford to shave bonds at half their face value, to which he replied that if he could realize even that much cash upon them he would make a handsome profit upon the work done for the Board of Public Works. This would suggest that the improvements are costing a little more than an economical government would care to pay.

A Railroad is now in contemplation from the Russian town of Orenburg to Peshawur, in India, a distance of 2,500 miles. When this portion of the line shall have been finished a railroad will extend, without break of gauge, from Calais to Calcutta, through Warsaw and Moscow. As it would enable Russia or France to send troops direct to India, in case of war with England, the press of the latter country are naturally very much disturbed at the prospect of the successful completion of the work. That feeling will not be allayed by the fact that Central Asia at this time is in a very disturbed condition, and that the Afghans were in active hostility against their Persian neighbors on the West, and at the same time carrying on a dangerous intrigue with the Emir of Bokhara. The New York Herald's London correspondent in his latest dispatch upon this subject declares that "it is altogether probable that the Russian Emperor will before long be compelled in self-defence to take towards Bokhara the same course he has recently taken towards Khiva, and permanently occupy the territory and reduce it to the condition of a Russian dependency." In view of the manifest intention of Russia to take possession of the whole of Central Asia, the building of railroads to transport troops in that direction assumes a double significance.

LOCAL MATTERS.

To Occasionals. "Occasional" and "A Tax-payer" will appear in our next.

Crowded Out. Owing to a pressure upon our editorial and advertising columns this week, we are compelled to omit several articles of interest from our local department.

Judges of Election. The following gentlemen were appointed Judges of Election by the Board of County Commissioners, at their meeting on Tuesday last: 1st District—Geo. P. Jenkins, William Hamilton and B. L. Higdon. 2d District—Charles E. Hammon, Ernest Hanson and Benton Barnes. 3d District—Richard B. Posey, Henry S. Dent and Alexander Haislip. 4th District—W. A. Posey, Wm. Nevitt, Sr., and Wm. L. Sheirbourn. 5th District—Thomas Posey, J. H. D. Wingate and Thomas Semmes. 6th District—Thomas B. Berry, Geo. F. Bealle and Francis B. Green. 7th District—B. D. Tubman, William H. Cox and John A. Wood. 8th District—John W. McPherson, Jere W. Burch and George H. Gardiner. 9th District—Jas. T. Thomas, T. Elzear Gardner and William Turner.

Tournament and Bail. The Tournament and Bail to be given by the young men of the neighborhood, will take place in Port Tobacco, on Tuesday, 28th inst. There will be a meeting of the Knights in Port Tobacco on Tuesday, 14th inst., at 2 o'clock, for the purpose of completing arrangements. Full particulars will be given next week.

Mount Hill Road. By reference to another column, it will be seen our County Commissioners have advertised for proposals for laying off, opening and grading a new road to the top of Mount Hill. The Commissioners, we understand, will probably select the route up the ravine through the land of Mr. Boswell, as being most practicable as well as the most economical and easiest for permanent construction. We have for a long time earnestly advocated improvement on this most necessary thoroughfare to and from our county-town. We have justly regarded it as an actual necessity, and we are gratified at the determination of our County Commissioners. The route as selected by way of the ravine is certainly the proper one to be adopted. The outgoing Board of Commissioners are moving energetically in the matter and seem resolved to signalize the close of their official career by undertaking this important and long needed work. The road, as it now is and has been for "time whereof memory is not," is dangerous to travellers, perilous to life, limb and property, and a serious impediment to the citizens, whose business may require them to attend at the county-town. We congratulate the Commissioners of their action and the people on the prospect of having a safe road, of easy grade, to ascend and descend, instead of the dangerous acclivity they now have to encounter. We speak from our own personal knowledge, fortified by the opinions of good judging men when we say, that if the work is awarded to a competent, experienced person a highway of excellent advantages can be easily constructed, and at a cost which will be insignificant in comparison with the benefits to accrue to the public.

Fall from a Horse. We are very sorry to learn that Dr. S. W. Dent fell from his horse on Wednesday last week and seriously hurt his left hip. He has been unable to ride since the accident. Though at present suffering considerably, we are glad to hear that he expects to be able to resume his duties in the Orphans' Court on the 14th inst.

Boots and Shoes. We direct attention to the advertisement of Mr. L. Heilbrun, of Washington city. Mr. H. keeps a very large stock of goods in his line, and his prices are always moderate. Our people, when they go to the city to purchase Boots and Shoes, would do well to give him a call. We have known Mr. H. for a number of years and can recommend his house to all.

Free of Charge. Your Druggist will refund you money if Dr. Bull's Cough Syrup does not give you satisfaction and cure your cough.

"Healing on the Wings," say all who have made use of Dr. Wistar's Balsam of Wild Cherry, and by such been cured of coughs, cold, bronchitis, sore throat, influenza or consumption. The prudent will always keep this standard remedy by them.

RELIGIOUS NOTICE. By Divine permission, the annual protracted meeting for Newtown M. E. Church South will commence on Sunday, the 12th inst. Lovefest on Sunday morning at 9 o'clock. TOBACCO.—The markets for Leaf Tobacco continue very quiet, owing to the causes recited in our last review, although the improvement in foreign exchange has had a tendency to lessen the depression. There is, however, little demand for any description, and the only movement of importance of which we are advised is a lot of 102 hds. Ohio, taken for the Bremen market, said at about previous prices. The receipts of Maryland continue liberal by all other kinds are very light. The exports during the week were 1,181 hds. to Amsterdam, 1,086 hds. to Bremen, 602 hds. to Rotterdam, 427 hds. to Marseilles, 316 hds. Liverpool, 6 hds. to Demara, 6 hds. to Berberie, and 5 hds. to Halifax; total, 3,628 hds., nearly all of which was purchased some time since.
