Fertilizers. As the season for farming operations is at hand we would call the attention of our readers to the different manures advertised in our columns.

"The Star" Fertilizers are very highly recommended to us. Indeed gentlemen in every way perfectly reliable, who have tried the article advertised under this brand, assure us that they are not surpassed by any in the market, and this is saying a great deal in these days when there are so many really excellent preparations sold by trustworthy houses.

We also advertise the well-known Fertilizers—"Excelsior" and the "Ammoniated Bone Super-Phosphate"—of J. J. Turner & Co. It seems almost a work of supererogation to say anything about them in this community where they have been in use so long and have given such general satisfaction. Orders for any of these last manures can be left with Mr. W. W. Padgett of this place, or Messrs. Sasser & Gibbons at Beantown, by whom they will be promptly filled.

"Whitelock's Vegetator," advertised in our paper, is well worth the attention of farmers. It already stands deservedly high as a most valuable manure, and the Messrs. Whitelock claim that they are steadily improving its quality until now it surpasses anything made in Europe or America. They only ask the farmers to try it and judge for themselves. As a manure for vegetables it is claimed that it will supply a long needed want.

The Ammoniated Potrette is very highly spoken of also, and is very extensively used by people living near the city, they finding it a most valuable manure. It is very cheap, costing only \$25 per ton of 2,000 lbs. and well worth a trial by those who do not feel themselves able to try the more high priced manures.

All those who prefer the pure and unadulterated to the manipulated Guano, can be accommodated at the Peruvian Guano Agency of Mr. B. F. Voss, 22 Second Street, where they can get the genuine article.

St. Patrick's Day. This anniversary of Erin's patron saint opened bright and beautiful, but developed before sunset its traditional fickleness. The wind increased during the morning and sent scudding across the sky a few belated winter clouds, which occasionally as they hurried by dropped a few spiteful flakes of snow. It was something unusual to witness the fleecy flakes in the bright sunshine. We sincerely hope they will be the last we shall see for many a day.

Much disappointment is being experienced by those interested in fishing licenses that they are not able to procure licenses to sell liquor on the shores during the season. Nearly every one of them failed to get a permit from the last Grand Jury, and of course the Clerk has no authority otherwise to issue a license. So this year the fishermen will either have to keep dry (inside), or do something else. We reckon so.

"N. B. H." and "Bachelor." We publish to-day a letter from our old friend, Mr. N. B. H., from whom we are always glad to hear. By the way, what has become of "Bachelor"? We have not heard from him for many a long day, and are sure our readers, like ourselves, miss his sprightly letters. We hope he is well, and if not still "Bachelor" he is better off. We hope he will find time to write us occasionally in the future; and if he will send us a few seeds of some of those big watermelons that grow in his country, and about which we have heard so much, we will forgive him for his past neglect.

To Fishermen. Persons interested in fishing cannot do better than to avail themselves of the services of the long established and well known house of R. A. Golden & Bro., of Washington city. The Messrs. Golden are natives of this country and therefore entitled to a kindly consideration from its people. They have long been engaged in the commission business and have peculiar facilities for its prompt and efficient transaction. Their well known pecuniary responsibility and standing is a matter worthy of consideration in these days when the loss of a little money will work so great a hardship on our poverty-stricken and over-taxed people. To show the energy of this house we may mention the fact, which we get from the Washington Star, that on last Monday the Messrs. Golden sold 8,000 bunches of perch and rock bass all the way up to 40 cents per bunch; 300 single rock, some as high as 70 cents a piece; 3,000 herrings at \$30 per thousand and 300 shad at \$75 per hundred.—Anything consigned to these wide-awake gentlemen will meet with prompt sales and quick returns.

Narrow Escape. On Sunday afternoon last, as Mr. Henry Wingate and Miss Carrie Simpson were returning home from a visit to some friends, the horses attached to their buggy took fright and ran off. The cause appears to be as follows: When within a mile or two of this village the driving reins broke, and while Mr. Wingate was endeavoring to tie the reins to the harness, the horses frightened and started off at full speed, knocking Mr. Wingate down and thereby running over him. Miss Simpson remained in the buggy until reaching Jennifer's Hill, near this place, when, seeing her dangerous situation, she unfastened the back curtain of the buggy and leaped out in safety. The horses continued running until they reached our town when they were caught and secured. We are happy to state that the parties were not injured, other than a few slight bruises attended with a little scare which was natural enough. Strange to say, that after running over the space of two miles neither of the horses were hurt, and the buggy was only slightly damaged.—Indeg.

It must be good, for everybody recommends it, and the doctors prescribe it. We mean Dr. Bull's Cough Syrup. Price 25 cts.

Death of Dr. Geo. A. Mudd.

Dr. Geo. A. Mudd, the eldest son of Judge Henry T. Mudd, died at his father's residence, in Millwood, Mo., Saturday, March 6, 1875. He was a young man of 25 years of age, in Charles county, Maryland, May 17, 1858. He came with his parents to this county the following year. On the 15th of June, 1861, he was one of three that left Millwood township, in obedience to the Governor's call for troops and went through the hardships and dangers of the campaign of the famous Missouri State Guard. He was wounded at the battle of Springfield, where his regiment, though suffering a loss the extent of which was not equaled in all the war, repulsed the right of the Federal army, led in person by its commander. The war over, he returned home and engaged in mercantile pursuits in his native State. Relinquishing this he commenced the study of medicine and took his degree in 1870. He associated himself with Dr. Lemmon at Truxton, in this county. The following year he went to Illinois, and there he followed an extensive practice. Finding himself sinking under an incurable disease, consumption, he returned home about two weeks ago, since which time he rapidly failed.

Fire in Prince George's County. We hear with regret of the burning, on Thursday night, the 11th instant, of the dwelling house of Mrs. L. H. Dale, near Horse Head, in this county. The fire, which was kindled, before assistance could be rendered, the house and its contents were entirely destroyed. The loss will fall heavy on the family, which is not insured. Mrs. Dale and family are now staying at the house of her brother, Mr. George Gane. The community sympathizes with her in her loss.—Gazette.

Weather Prognostications. This day, Anno Domini, March 15th, 1875, terminates the traditional "six weeks" morrow of ye ancient Ground Hog. To-morrow according to programme, he will emerge from his subterranean hiding place, and the accumulated dust from his bristling mane, and winking a few salutatory winks to the gorgeous orb of day, set out at once, with further let or hindrance, on that long and interrupted pilgrimage, whether "foolish" knows and "foolish" can tell. It is presumed, however, that he will steadily pursue the beaten path of all his sagacious ancestors, and never to repeat a premature evacuation of his winter quarters. We sincerely trust that after having waited so long to begin his peregrination, he may find it more agreeable than he would expect. He may back in plenty of genial sunshine, and right soon be continuously regaled by the "singing of the birds and the voice of the turtle heard in the land." In this connection it may not be unprofitable to mention that other no less time-honored, and no less accredited prognosticator of the weather, the "Frog" awoke for the first time from his winter slumber on the 24th of February, and sounded the first admitted trumpet of Spring. His serene serenades, but was soon driven back by "stress of weather" to his cozy den, whence irrepressible and untried, he again emerged on the 8th of the present month, and resumed, with let and hindrance, his long and arduous journey. On the evening of the 10th Jack Frost again drove him back to his refuge, but the very next day he was again on the rampage and permitted to pursue his arduous journey to the tradition of the learned in such matters, he will, from now henceforth, having earned the third time from his lair, after twice retreating, on account of stress of weather, he is permitted to pursue his arduous journey, but ever welcome, nocturnal warblings. We are not of the number who put much faith in signs; however we are inclined, just for once, to take these two omens as trial and test of the weather, but shall hold them to a strict accountability for any failure of their "old probabilities."—Alexandria Gazette.

The Maryland Phlogothin and Chemical Granger, for March, comes to us with the title printed in four colors, making a fine appearance. The contents of the number, as usual, is carried between agricultural and Grange matters and historical and literary sketches. This number with advertisements contains forty-two pages. Regular editions—thirty-four pages once a month. Only \$1 a year. Address, E. S. Riley, Jr., & Co., Annapolis, Md.

Sabbath School Papers. The Christian at Work, Co., in addition to the Christian at Work issues also five smaller monthly papers for the Sabbath-schools and Home, which are artistically illustrated and are under the editorial supervision of the Rev. Dr. Talmage. They are evangelical and non-sectarian, and supply an important place in the religious literature of the country. The low rates at which they are sold make them accessible even to schools whose resources are restricted. The publisher, Horatio C. King, No. 102 Chambers Street, New York, will send a few gratis samples of all the papers and full particulars on application.

A Valuable Discovery. Dr. C. W. Benson, a Physician, at 106 North Eddy Street, Baltimore, Md. (who has paid much attention to venereal disease), has discovered that a extract of ergot and chloantholic compound, in a certain proportion, invariably cures gonorrhoea, either chronic, dyspeptic, nervous, or sick headache, neuralgia, and rheumatism, when the patient is treated with this medicine, and suffers all over the country are ordering by mail. He prepares it in pills at 50 cents per tin. This Doctor is largely known and highly respected in Baltimore.—Episcopal Methodist.

It May Save Your Life. There is no one but what that suffers more or less with Lung Disease, Coughs, Cold, or Consumption, yet some would die rather than pay 75 cents for a bottle of medicine that would cure them. Dr. A. Bosche's German Syrup has lately been introduced in this country from Germany, and its wonderful cures astonish every one that try it. If you doubt what we say in print, cut this out and take it to the Store of J. H. Bonnell, Jr., and get a 75 cent bottle, or a sample bottle for 10 cents. Try it. G. G. GREEN, Sole Manufacturer, Woodbury, N. J.

All people would undoubtedly prefer a fine head of hair grown upon their own heads, to being bald, or wearing false hair; and it has been the study of many of our learned men to find a remedy to restore the hair when it has fallen out, and renew its color after it has become gray. Such a remedy has been found, and is now offered to the world under the name of Hall's Vegetable Sulfur Hair Remover; and, to verify this statement, read the following:—This is to certify that I was very bald; in fact, my head was perfectly smooth; and it is common in my family to grow bald early in life. I have now used four bottles of Hall's Vegetable Sulfur Hair Remover; and the hair has grown out all over my head, and is now a natural brown. BARTLEY CONLON, SCHEPP, JENKINS Co., Ltd., May 28, 1868. Personally appeared before me Bartley Conlon, and, upon oath, says the above statement is true. M. G. BUTLER, Notary Public.

JUST RECEIVED, Gilling Twine, Gilling Lines, Seneca Twine, Crossed Date Rope for leading lines, for sale cheap. J. THOS. COLTON, Allen's Fresh.

The Christian at Work.

Z. D. BLACKSTONE'S PATENT TOBACCO MILLER.

The Simplest and Greatest Labor-Saving Implement in existence. It will do the work of 20 men or more in striking check bills, and do the work better, as the plants live and grow off better, and less crabgrass grows after it; and, with a good stand and favorable seasons, a hoe is not needed in the field. One man can cultivate as much as six under any other mode, giving a clear gain of five days to devote to other arable crops. I will manufacture THIS SPRING (1875) on any written order, a MILLER at \$25. The past season I hired out every machine I had on hand, at \$1 per working hour, to my neighbors. Send your address, and I will send you the testimonials of those who have used it. Z. D. BLACKSTONE, Millstone P. O., St. Mary's County, Md. November 27, 1874—1t
