 215 & 217 Walnut St., Philada., Pa.

**Ayer's**  
**Hair Vigor,**

FOR RESTORING GRAY HAIR TO ITS  
 NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which  
 is at once harmless and effectual, for pre-  
 serving the hair. It restores, with the  
 gloss and freshness of youth, faded or gray  
 hair, and red hair, to a rich brown, or deep  
 black, as may be desired. By its use thin  
 hair is thickened, and baldness often  
 though not always cured. It checks falling  
 of the hair immediately, and causes a new  
 growth in all cases where the glands are  
 diseased. It cleanses the scalp, and  
 prevents the formation of dandruff; and,  
 by its cooling, stimulating, and soothing  
 properties, it heals most if not all of the  
 humors and diseases peculiar to the scalp,  
 keeping it cool, clean, and soft, under  
 which conditions diseases of the scalp and  
 hair are impossible.

**As a Dressing for Ladies' Hair,**  
 The Vigor is incomparable. It is color-  
 less, contains neither oil nor dye, and will  
 not soil white cambric. It imparts an  
 agreeable and lasting perfume, and as an  
 article for the toilet it is economical and  
 unsurpassed in its excellence.

**THE KING FORTUNE MAKER:**  
**! OZONE!**

**A New Process for Preserving all Perishable Articles. Animal**  
**and Vegetable, from Fermentation and Putrefaction,**  
 retaining their Odor and Flavor.

"OZONE - Purified air, active state of oxygen." - Webster.

This Preservative is not a liquid, pickle, or any of the old exploded processes, but is simple and  
 purely OZONE, as produced and applied by an entirely new process. Ozone is the most active  
 principle of every oxidant, and possesses the power to preserve animal and vegetable articles  
 from decay. There is nothing on the face of the earth, or in the air, that will preserve for all time  
 a perfectly fresh and palatable condition.

The value of OZONE as a natural preservative has been known to our fathers for centuries, but  
 until now we have not been able to produce it in a practical, economical, and simple manner  
 that would make its use so general as it is now.

Microscopic examinations prove that decay is due to germs, and that germs that develop  
 and feed upon animal and vegetable structures. OZONE, applied to these structures, not only  
 kills and destroys these germs at once, but also preserves them. At our office in Cincinnati  
 we have seen every article that can be thought of preserved by this process, and it is  
 so simple to use, so safe, so reliable, and so economical, that we have no doubt that  
 it will be used by all who are interested in the preservation of their goods.

**EGGS** may be treated at a cost of less than one dollar a thousand, and will keep in an  
 unbroken condition for six months or more. The eggs, when laid, are placed in a  
 box, and the box is filled with the preservative. The eggs are then sealed in  
 airtight cans, and the cans are placed in a cool, dry place. The eggs are  
 ready for use in from three to six weeks, and are as fresh and as good as  
 when first laid.

**FRUITS** may be preserved in the same manner as eggs, and will keep in an  
 unbroken condition for six months or more. The fruits are placed in a  
 box, and the box is filled with the preservative. The fruits are then sealed in  
 airtight cans, and the cans are placed in a cool, dry place. The fruits are  
 ready for use in from three to six weeks, and are as fresh and as good as  
 when first laid.

**VEGETABLES** may be preserved in the same manner as eggs, and will keep in an  
 unbroken condition for six months or more. The vegetables are placed in a  
 box, and the box is filled with the preservative. The vegetables are then sealed in  
 airtight cans, and the cans are placed in a cool, dry place. The vegetables are  
 ready for use in from three to six weeks, and are as fresh and as good as  
 when first laid.

**FRESH MEATS** such as beef, mutton, veal, pork, poultry, game, fish, etc., preserved  
 in the same manner as eggs, and will keep in an unbroken condition for six  
 months or more. The meats are placed in a box, and the box is filled with the  
 preservative. The meats are then sealed in airtight cans, and the cans are  
 placed in a cool, dry place. The meats are ready for use in from three to six  
 weeks, and are as fresh and as good as when first laid.

**BUTTER** AFTER BEING TREATED BY THIS PROCESS WILL  
 NOT BECOME RANCID.

Dead human bodies, treated before decomposition sets in, can be held in a natural condition  
 for weeks, without the odor, or the skin, or mutilating the body in any way. Hence the great  
 value of ozone to undertakers.

There is no change in the slightest particular in the appearance of any article thus preserved,  
 and no trace of any foreign or unnatural odor or taste.

The process is so simple that a child can operate it as well and successfully as a man. There  
 is no expensive apparatus or machinery required.

A room filled with such articles as eggs, meat, fish, etc., can be treated at one time  
 without additional trouble or expense.

It is in fact, there is nothing that Ozone will not preserve. Think of everything you  
 own that is liable to spoil, and then remember that we guarantee that Ozone  
 will preserve it in exactly the condition that you want it for any length of time. If you  
 will remember this, it will save you many questions, and will save you many dollars.

There is not a township in the United States in which a live ox can not make any amount of  
 money, from \$1,000 to \$2,000 a year, in the place of a dead one. We have secured  
 there in each county in the United States, in whose hands we can place this Preservative,  
 and through him secure the business which every county ought to produce.

**A FORTUNE awaits any man who secures con-  
 trol of OZONE in any Township.**

A. C. Bowen, Marion, Ohio, cleared \$2,000 in two months. \$2 for a test package was his first  
 investment. Wood Brothers, Lebanon, Warren County, Ohio, made \$6,000 on eggs purchased in July and  
 sold November 1st. \$2 for a test package was their first investment.  
 F. K. Ryan, Marietta, Hamilton County, Ohio, cleared \$2,000 a month in handling  
 and selling Ozone. \$2 for a test package was his first investment.  
 D. F. Weber, Charlestown, Eaton County, Mich., cleared \$1,000 a month since August. \$2  
 for a test package was his first investment.  
 J. B. Gaylord, 30 LaSalle street, Chicago, is preserving eggs, fruit, etc., for the commission  
 men of Chicago, charging 10c per dozen for eggs, and other articles in proportion. He is  
 preserving butter, and is clearing \$2,000 a month. \$2 for a test package was his first investment.  
 The Cincinnati Food Company, 425 West Seventh street, is making \$2,000 a month in hand-  
 ling preserved milk, preserved butter, and other articles of the country. Milk un-  
 preserved sours in twenty-four hours. Preserved by OZONE it keeps sweet a month.  
 These are instances which we have asked the privilege of publishing. There are scores of others.  
 Write to any of the above parties and ask the evidence direct.

Now to prove the absolute truth of everything we have said in this paper, we propose to  
 place in your hands the means of proving for yourself that we have no ulterior  
 motive. To any person who desires to see the operation of this Preservative, we will  
 sufficiently to make the trip, we will pay all traveling and hotel expenses for a visit to this  
 city, if we fail to prove any statement that we have made.

**HOW TO Secure a FORTUNE With OZONE**  
 A test package of Ozone, containing a sufficient quantity to preserve one thousand eggs, or  
 other articles in proportion, will be sent to any applicant on receipt of \$2. This package  
 will enable the applicant to purchase any line of tests and experiments he may desire, and  
 satisfy himself as to the extraordinary merits of Ozone as a Preservative. After having thus  
 satisfied himself, and had time to look the field over to determine what he wishes to do in  
 the future—whether to sell the article to others, or to confine it to his own use, or any other line  
 of policy which is best suited to him and his township or county—we will enter into an ar-  
 rangement with him that will make a fortune for him and give us good profits. We will  
 give exclusive township or county privileges to the first responsible applicant who orders a  
 test package and desires to control the business in his locality. The man who secures con-  
 trol of OZONE for any special territory will enjoy a monopoly which will enable him to  
 "Don't let a day pass until you have ordered a Test Package, and if you desire to secure an ex-  
 traordinary profit, and a large and steady source of money. Our correspondence is very large  
 and we can do to attend to the shipping of orders and giving attention to our working  
 agents. Therefore we cannot give attention to letters which do not refer to Ozone. If you  
 order any article that you are in doubt about, please give your name, and we guarantee  
 that it will preserve it, no matter what it is.

**REFERENCES:** We desire to call your attention to a class of references which no enter-  
 prising man can afford to neglect, and which will be of great value to him in the  
 highest commercial merit could secure.  
 We refer by permission, as to our integrity and to the value of the Preservative, to the  
 following gentlemen: Edward C. Boyer, Member Board of Public Works; E. O. Ebelby,  
 City Comptroller; Amos Smith, Jr., Collector Internal Revenue; Wolcott & Worthington, At-  
 torneys; Martin H. Harrell and R. F. Hopkins, County Commissioners; W. K. Gappeler,  
 County Auditor; all of Cincinnati, Hamilton County, Ohio. These gentlemen are each familiar  
 with the merits of our Preservative, and know from actual observation that we have.

F. M. COX, Editor,  
**Hort Tobacco Times**  
 PUBLISHED AT  
 PORT TOBACCO, Charles County, Md.  
 EVERY FRIDAY,  
 \$1 Per Annum, in Advance  
 COX & DALEY, Proprietors.

**THE BEST**  
**OF ALL**  
**LINIMENTS**  
 FOR MAN AND BEAST.

For more than a third of a century the  
 "MEXICAN LINIMENT" has been known  
 to millions all over the world as  
 the only safe and reliable remedy for  
 rheumatism and pain. It is a medicine  
 of the highest quality, and is the best  
 of its kind. For every form of external  
 pain.

**MEXICAN**  
**LINIMENT**

Mustang Liniment is without an equal.  
 It penetrates flesh and muscle to  
 the very bone—making the continu-  
 ous of pain and inflammation impos-  
 sible. Its effects upon Human Flesh and  
 the Brute (treatment are equally wonder-  
 ful. No other form of external pain  
 can be cured so quickly.

Liniment is needed by somebody in  
 every household. Every day there is  
 the agony of an awful scald or burn  
 scalded, or rheumatic matrix re-  
 moved, or rheumatic matrix re-  
 moved
