LEAVE. ARRIVE. Mixed... 12.02A. M. Passenger... 1.20 P. M. Passenger... 7.01 P. M.

The subscription price of THE TIMES is \$1. per annum if paid in advance or at any time within the current year; if not paid within the year \$1.50 will be invariably charged, as always heretofore, and from this rule no exception will be made.

TO ADVERTISERS.—THE TIMES having a larger circulation than any other paper among the intelligent farmers and business men of Charles County, offers superior inducements to advertisers to insert their advertisements in its columns.

Fine Yield of Wheat. Dr. Wm. I. Roaman has just thrashed his crop of wheat on his farm at Bryantown, obtaining 699 bushels from 254 bushels of seed.

Painful Accident. On Friday last while Charles Jones, a colored employe in Townsend & Fustenberg's saw mill, near Pisgah was adjusting some part of the machinery, his hand came in contact with a small circular saw, entirely cutting off two of his fingers and otherwise mutilating the hand.

Pleasant Entertainment. Miss Minnie Morgan, of Washington and Misses Xannie and Helen Sloan, of Baltimore are at present visiting the family of Judge Stone at Idaho.

Land Purchased. L. Allison Wilmer, Esq., has purchased from Capt. Nicholas Stone street ten acres of land near La Plata, for which he paid \$200 per acre.

A Shark at Glymont. Mr. Robert Travers, who has been fishing for some time past near Glymont, reports that he has had twice in his net a large shark—once week before last, and again on Thursday last week.

A Novel Fight. We saw a novel fight between a swallow and a cat on Monday morning last, on one of our public streets and we watched the combat with interest and were greatly surprised at the result.

July. July, the 7th month in the present or Gregorian calendar, was the 5th in the Julian calendar, March commencing the year. It received its name in honor of Julius Caesar, who introduced the Julian system, or old style, which was in use in England till 1752, when it was superseded by the Gregorian or new style. July is considered the hottest month in the year, and it is doubtless entitled to this character.

Horrible, if True. Our neighbor, the Independent, in a highly sensational article published last week under the heading of "Violence in Port Tobacco," (see "Ku Klux Klan," etc.) recounts a most atrocious deed of murder that was planned by four of our respected citizens, the accomplishment of which was only prevented by "the fitting clouds obscuring the effulgence of the lunar luminary."

Small pox in the County. There has been reported to be a case of small pox in the county, recently made public, about two miles the other side of Newport, though owing to the extremely warm weather and care taken by the physician in charge, there has been no fear of an epidemic created among the people.

By Universal Accord. CRYER'S CATHARTIC PILLS are the best and most effectual purgative Pills that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar coated, they are pleasant to take.

New Enterprise.

It will be seen by reference to our advertising columns that Port Tobacco has another new industry, or rather, an old enterprise has been revived in its limits.

Registration in 1st District. Up to the time of closing our forms yesterday afternoon, there had been registered in this district but 67 voters, 29 white and 28 colored.

Out of office. The Clerk of our Circuit Court and the Register of Wills are literally out of office. They have neither records, seals or books, and even if they had these articles, they have not the means to secure in this village any proper quarters wherein to start their business again.

The Heavens for July.

We give the following for the benefit of our astronomical subscribers and more particularly that courting couples may have an excuse for standing an hour or two longer at the garden gate—watching the stars:

July displays on its record the advent of two full moons and is the only month in the year honored with this distinction. There was a full moon on the 1st and there will be another on the 20th. Venus is the most brilliant evening star this month as Jupiter is the most brilliant morning star.

LETTER FROM BRYANTOWN.

BRYANTOWN, July 8, 1882. Editor of the Times: The farmers in and around our far-famed city have been very busy of late and their labors seem destined to be crowned with success.

When a farmer, as many of our people have often done hitherto, devotes his land, time, labor and money exclusively to the cultivation of the tobacco crop, and that crop fails, as was the case two years ago, the farmer is a failure also.

Now that the public and private schools are closed, and the boarding schools and colleges have returned to their respective homes, the young gentlemen and ladies are again gathered in the city, and the usual result follows, that where the young ladies are gathered, the young gentlemen are found to be by accident, of course.

Now that the public and private schools are closed, and the boarding schools and colleges have returned to their respective homes, the young gentlemen and ladies are again gathered in the city, and the usual result follows, that where the young ladies are gathered, the young gentlemen are found to be by accident, of course.
